SETUP GUIDE

1. Charging the Smartwatch

Before initial use, fully charge your smartwatch. Connect the provided charging cable to the charging port on the back of the watch and plug the USB end into a standard USB power adapter (not included).

- A full charge typically takes approximately 2 hours.
- The watch display will indicate charging status.
- A fully charged battery provides up to 7 days of average use.

METAL STRAP

Built to stand out with a sleek, polished finish.

2. Installing the Companion App

To unlock the full potential of your smartwatch, download and install the official Fire-Boltt companion application on your smartphone. This app is compatible with Android devices.

1. Scan the QR code provided in the quick start guide or search for "Fire-Boltt" in your smartphone's app store.
2. Install the application and grant necessary permissions.
3. Create an account or log in if you already have one.

3. Pairing with Your Smartphone

Follow these steps to pair your smartwatch with your smartphone via Bluetooth:

1. Ensure Bluetooth is enabled on your smartphone.
2. Open the Fire-Boltt companion app.
3. Navigate to the "Add Device" or "Pair Device" section within the app.
4. Select "Fire-Boltt Phoenix Nova" from the list of available devices.
5. Confirm the pairing request on both your smartphone and smartwatch.
6. Once paired, the watch will synchronize data with the app.

OPERATING INSTRUCTIONS

Display and Navigation

The Fire-Boltt Phoenix Nova features a 1.43-inch Super AMOLED display with 466x466 pixel resolution and Always-On Display functionality. Navigate the watch using touch controls and the physical button.

- **Swipe Up/Down:** Access notifications or quick settings.
- **Swipe Left/Right:** Browse through widgets like activity tracking, heart rate, weather, etc.
- **Tap:** Select an item or open an application.
- **Press Button:** Return to the home screen or access the app menu.

Other Smart Features

- **Voice Assistant:** Interact with your watch using voice commands.
- **Notifications:** Receive alerts for calls, messages, and social media directly on your wrist.
- **Music Player Control:** Control music playback on your paired smartphone.
- **Remote Camera Control:** Use your watch as a remote shutter for your phone's camera.
- **Find Phone:** Locate your misplaced smartphone by triggering an alarm from your watch.
- **Games:** Enjoy pre-installed games on your smartwatch.
- **Alarm Clock, Stopwatch, Timer, Weather:** Essential utility features.

MAINTENANCE AND CARE

Cleaning Your Smartwatch

To maintain the appearance and functionality of your smartwatch:

- Wipe the screen and body with a soft, lint-free cloth.
- For stubborn marks, slightly dampen the cloth with water. Avoid harsh chemicals or abrasive

materials.

- Clean the charging contacts regularly to ensure proper charging.

Water Resistance

The Fire-Boltt Phoenix Nova Smartwatch is IP67 water-resistant, meaning it can withstand immersion in water up to 1 meter for 30 minutes. It is suitable for daily use and can resist splashes, rain, and brief immersion. However, it is not recommended for swimming, diving, or high-pressure water activities.

- Do not expose the watch to hot water, steam, or detergents.
- Ensure the watch is dry before charging to prevent damage.

Battery Care

- Avoid extreme temperatures, which can affect battery life.
- Charge the watch regularly, even if not in use, to prevent deep discharge.
- Use only the provided charging cable.

TROUBLESHOOTING

If you encounter issues with your Fire-Boltt Phoenix Nova Smartwatch, refer to the following common solutions:

Problem	Solution
Watch does not turn on	Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.
Cannot pair with smartphone	<ul style="list-style-type: none">• Ensure Bluetooth is enabled on your phone.• Make sure the watch is within range of your phone.• Restart both the watch and your phone.• Clear Bluetooth cache on your phone and try again.
Bluetooth calling not working	<ul style="list-style-type: none">• Verify the watch is properly connected for calls in your phone's Bluetooth settings.• Check if the companion app has microphone permissions.
Inaccurate health data	<ul style="list-style-type: none">• Ensure the watch is worn snugly on your wrist, not too tight or too loose.• Clean the sensor on the back of the watch.• Avoid excessive movement during measurements.
Notifications not received	<ul style="list-style-type: none">• Check notification settings in the companion app.• Ensure the app is running in the background and has necessary permissions.• Verify your phone's notification settings for the app.
