T'nB CARPLAY1

T'nB SLIMDRIVE CARPLAY1 8.1" Wireless Car Display User Manual

Model: **CARPLAY1** | Brand: **T'nB**

1. Introduction

The T'nB SLIMDRIVE CARPLAY1 is an 8.1-inch panoramic wireless car display designed to integrate Apple CarPlay and Android Auto functionalities into your vehicle. This device offers seamless smartphone connectivity via Bluetooth 5.0 and Wi-Fi, an integrated speaker, and flexible magnetic mounting options for enhanced driving convenience and safety. This manual provides essential information for the proper setup, operation, and maintenance of your SLIMDRIVE CARPLAY1.

2. What's in the Box

- 1x SLIMDRIVE CARPLAY1 8.1" Wireless Car Display
- 1x Magnetic Multi-Surface Suction Cup Mount
- 1x Magnetic Air Vent Mount
- 1x Car Cigarette Lighter Power Adapter
- 1x Storage Pouch
- 1x 3.5mm Jack Audio Cable
- 1x Instruction Manual

3. Setup

3.1 Power Connection

1. Insert the car cigarette lighter power adapter into your vehicle's 12V power socket.
2. Connect the power cable from the adapter to the SLIMDRIVE CARPLAY1 display.
3. Ensure the connection is secure. The device will power on automatically or can be turned on using the power button.

3.2 Mounting Options

The SLIMDRIVE CARPLAY1 offers two magnetic mounting systems for versatile placement:

- **Multi-Surface Suction Cup Mount:** Ideal for dashboard or windshield placement.
- **Air Vent Mount:** Suitable for attaching to your vehicle's air conditioning vents.

Choose the mount that best suits your vehicle's interior and provides optimal visibility without obstructing your view of the road.

Image: The two included magnetic mounting options: an air vent clip and a suction cup base.

4. Installation

4.1 Attaching the Mount

1. Select your preferred mounting location (dashboard, windshield, or air vent).
2. **For Suction Cup Mount:** Clean the surface thoroughly. Press the suction cup firmly onto the surface and engage the lever to create a vacuum seal.
3. **For Air Vent Mount:** Securely clip the mount onto an appropriate air vent slat.
4. Adjust the mount's arm and ball joint to the desired angle and tighten any locking mechanisms.

4.2 Attaching the Display

The SLIMDRIVE CARPLAY1 features a magnetic attachment system for quick and secure placement.

1. Align the back of the SLIMDRIVE display with the magnetic plate on the chosen mount.
2. The magnets will automatically secure the display in place.

3. To remove the display, gently pull it away from the magnetic mount. This allows for easy portability and storage.

5. Operating Instructions

5.1 Powering On/Off

- The device typically powers on automatically when connected to the car's power supply.
- To manually power on/off, press and hold the power button located on the device (refer to the device's physical layout for exact button location).

5.2 Wireless Apple CarPlay and Android Auto

The SLIMDRIVE CARPLAY1 supports wireless connectivity for both Apple CarPlay and Android Auto via Bluetooth 5.0 and Wi-Fi.

1. Ensure your smartphone's Bluetooth and Wi-Fi are enabled.

2. On the SLIMDRIVE display, navigate to the CarPlay or Android Auto connection menu.
3. On your smartphone, search for and select the SLIMDRIVE device in your Bluetooth settings to initiate pairing.
4. Follow the on-screen prompts on both your phone and the display to complete the connection. Once paired via Bluetooth, the device will establish a Wi-Fi connection for data transfer.
5. Your smartphone's compatible apps will now be accessible on the SLIMDRIVE display.

5.3 Touchscreen Operation

The 8.1-inch panoramic screen is fully touch-sensitive, allowing for intuitive navigation of menus and applications.

- Tap to select items or open applications.
- Swipe to scroll through lists or screens.
- Use pinch-to-zoom gestures where supported (e.g., in navigation apps).

5.4 Audio Output

The SLIMDRIVE CARPLAY1 offers multiple audio output options:

- **Integrated Speaker:** The device features a built-in 3W speaker for direct audio playback.
- **Jack Output:** Connect the included 3.5mm jack audio cable from the SLIMDRIVE to your car's AUX input for audio playback through your vehicle's sound system.
- **Bluetooth to Car Radio:** If your car radio supports Bluetooth audio input, you may be able to stream audio from the SLIMDRIVE to your car's speakers via Bluetooth. Consult your car radio's manual for instructions.

5.5 Multimedia Playback

The device includes a micro SD card reader, supporting cards up to 128 GB, for playing audio and video content directly from the card.

- Insert a micro SD card into the designated slot on the SLIMDRIVE.
- Navigate to the multimedia player application on the display.
- Select your desired audio or video files for playback.

6. Maintenance

6.1 Cleaning the Display

- Use a soft, lint-free cloth to gently wipe the screen.
- For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaning solution.

- Avoid using harsh chemicals, abrasive materials, or excessive moisture, as these can damage the screen.

6.2 Storage

When not in use or for transport, utilize the provided storage pouch to protect the SLIMDRIVE CARPLAY1 from scratches and impacts.

7. Troubleshooting

If you encounter issues with your SLIMDRIVE CARPLAY1, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device does not power on.	No power connection or faulty adapter.	Ensure the cigarette lighter adapter is fully inserted and the car's 12V socket is functional. Check the power cable connection to the display.

Problem	Possible Cause	Solution
Cannot connect to Apple CarPlay/Android Auto wirelessly.	Bluetooth/Wi-Fi issues, incorrect pairing.	Ensure your smartphone's Bluetooth and Wi-Fi are active. Forget the device in your phone's Bluetooth settings and attempt to re-pair. Restart both the display and your smartphone.
No audio output.	Volume too low, incorrect audio source, cable issue.	Increase the volume on both the SLIMDRIVE and your car's audio system. Check if the 3.5mm jack cable is securely connected. Ensure the correct audio input (AUX, Bluetooth) is selected on your car radio.
Touchscreen is unresponsive.	Temporary software glitch.	Restart the SLIMDRIVE display. If the issue persists, ensure the screen is clean and free of debris.

If these solutions do not resolve the issue, please contact T'nB customer support.
