Aoxun G37066BR02A-HJ

Aoxun Outdoor Storage Shed (Model G37066BR02A-HJ) Instruction Manual

Brand: Aoxun | Model: G37066BR02A-HJ

1. Product Overview

The Aoxun Outdoor Storage Shed is a vertical cabinet designed for efficient outdoor storage. It features a space-saving design, durable construction, adjustable shelving, and a lockable door for security. This manual provides essential information for the assembly, operation, and maintenance of your storage shed.

Key Features:

- **Space-Efficient Tall Design:** Measures 34.65"W x 64.57"H x 24.02"D, ideal for maximizing storage in small areas.
- **All-Weather Durable Construction:** Built with high-strength materials and a UV-resistant finish. The metal roof supports up to 6 inches of snow load, and overlapping wall panels provide waterproof and moisture-proof protection.
- **Adjustable Shelves & Floor Panel:** Includes two adjustable shelves for customizable organization and a 14mm thick polypropylene (PP) floor panel to keep items elevated and dry.
- **Secure Lockable Door & Effective Water Runoff:** Features a lockable door (padlock not included) and a sloped roof design to prevent water accumulation.

2. Setup and Assembly

Assembly of the Aoxun Outdoor Storage Shed requires careful attention to detail. All parts are clearly numbered, and a step-by-step manual is included in the packaging. We recommend 2-3 people for assembly to ensure safety and efficiency.

Safety Precautions:

- Always wear work gloves during assembly to protect your hands.
- Exercise caution when handling heavy components.
- Ensure the assembly area is clear and level.
- Do not overtighten screws unless specified, as this may damage components.

Recommended Foundation:

For optimal stability and longevity, install the shed on a level foundation slightly larger than the shed's footprint. A recommended foundation size is approximately 3' x 2'.

3. Operating Instructions

Adjustable Shelves:

The shed includes two adjustable shelves that can be customized to accommodate items of various heights. To adjust a shelf, carefully lift it from its current position and reposition it into the desired slots along the shed's interior frame. Ensure both sides of the shelf are securely seated before placing items on it.

Image 3.1: Illustration of the two adjustable shelves, demonstrating their flexibility for different storage needs.

Lockable Doors:

The shed features a lockable door mechanism to secure your belongings. While a padlock is not included, the integrated metal latch is designed to accept most standard padlocks. Always ensure the doors are fully closed and the latch is engaged to protect contents from weather and unauthorized access.

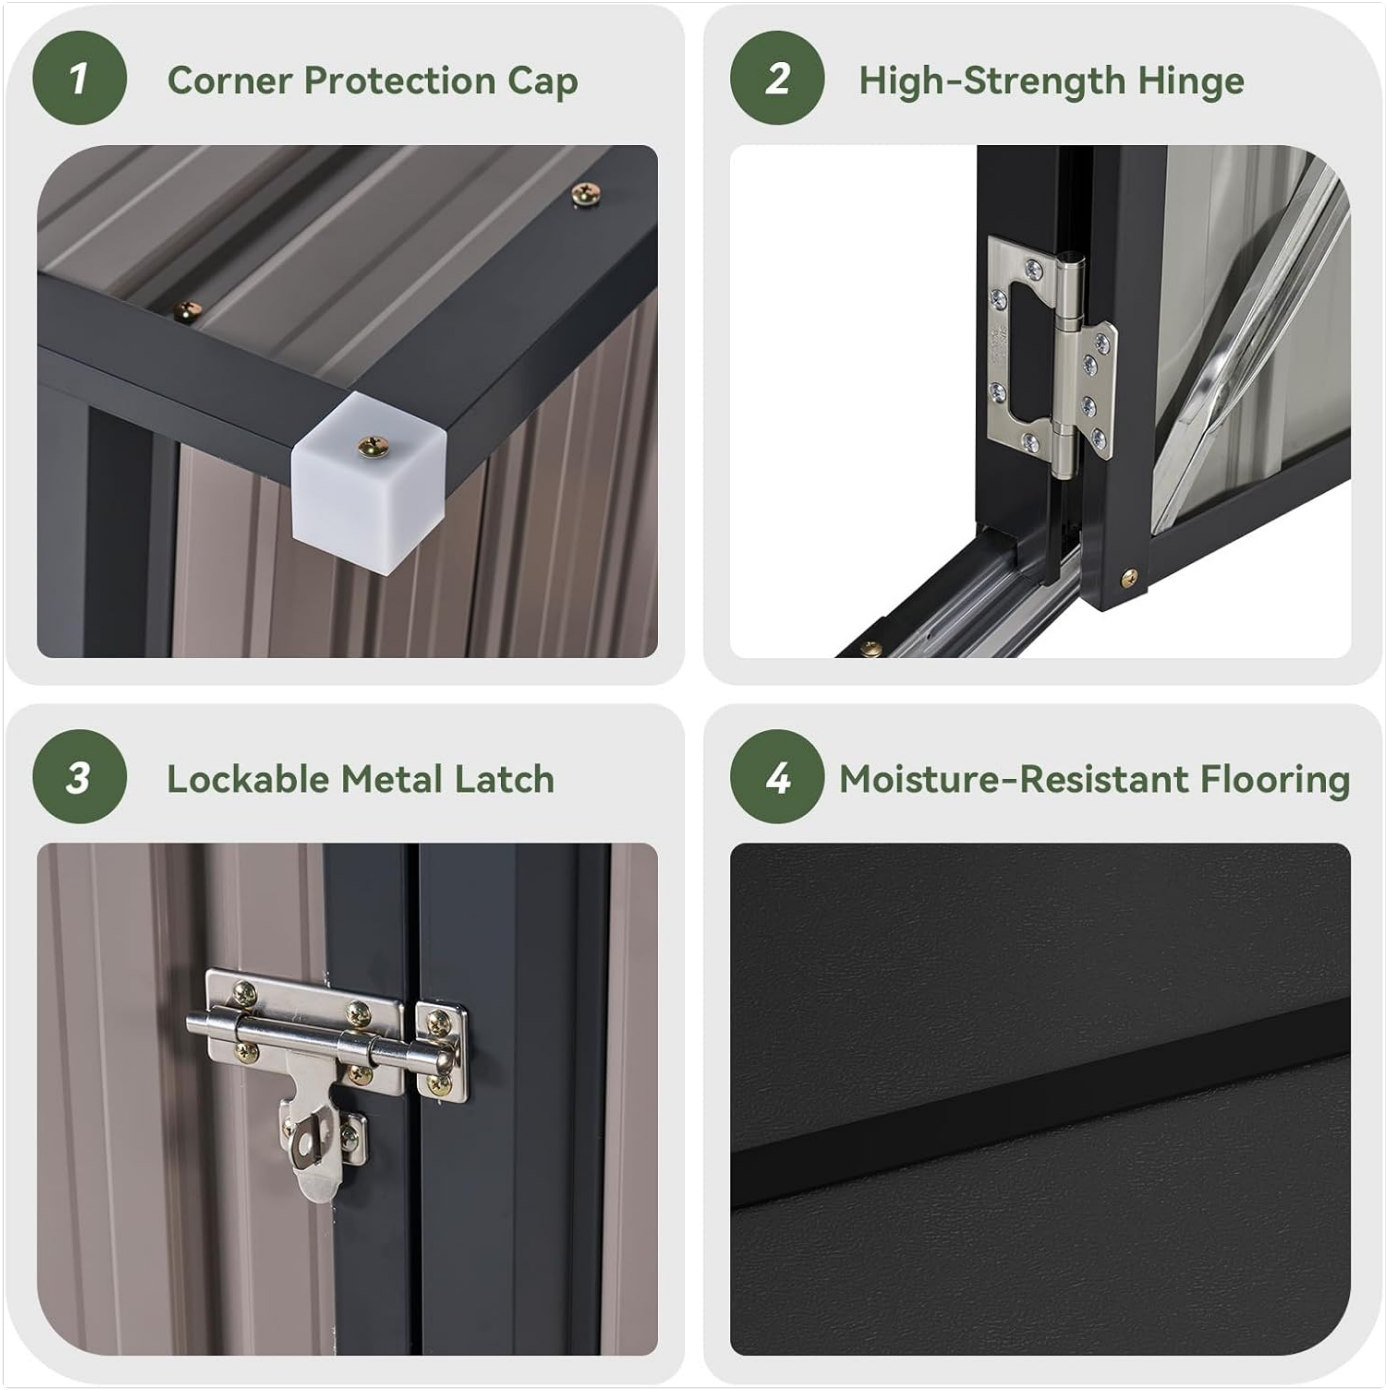

Image 3.2: Detailed view of the lockable metal latch and other structural components.

4. Maintenance

Regular maintenance will extend the lifespan and preserve the appearance of your Aoxun Outdoor Storage Shed.

Cleaning:

- Clean the exterior surfaces with a mild soap and water solution. Avoid abrasive cleaners or harsh chemicals that could damage the UV-resistant finish.
- Rinse thoroughly with clean water and wipe dry to prevent water spots.
- Periodically clean the interior, especially the PP floor panel, to remove dirt and debris.

Structural Integrity:

- Inspect all screws and fasteners periodically and tighten if necessary.
- Ensure the shed remains on a level surface to prevent stress on the frame and doors.

- Check the sloped roof for any debris that might impede water runoff, especially after heavy rain or snow.

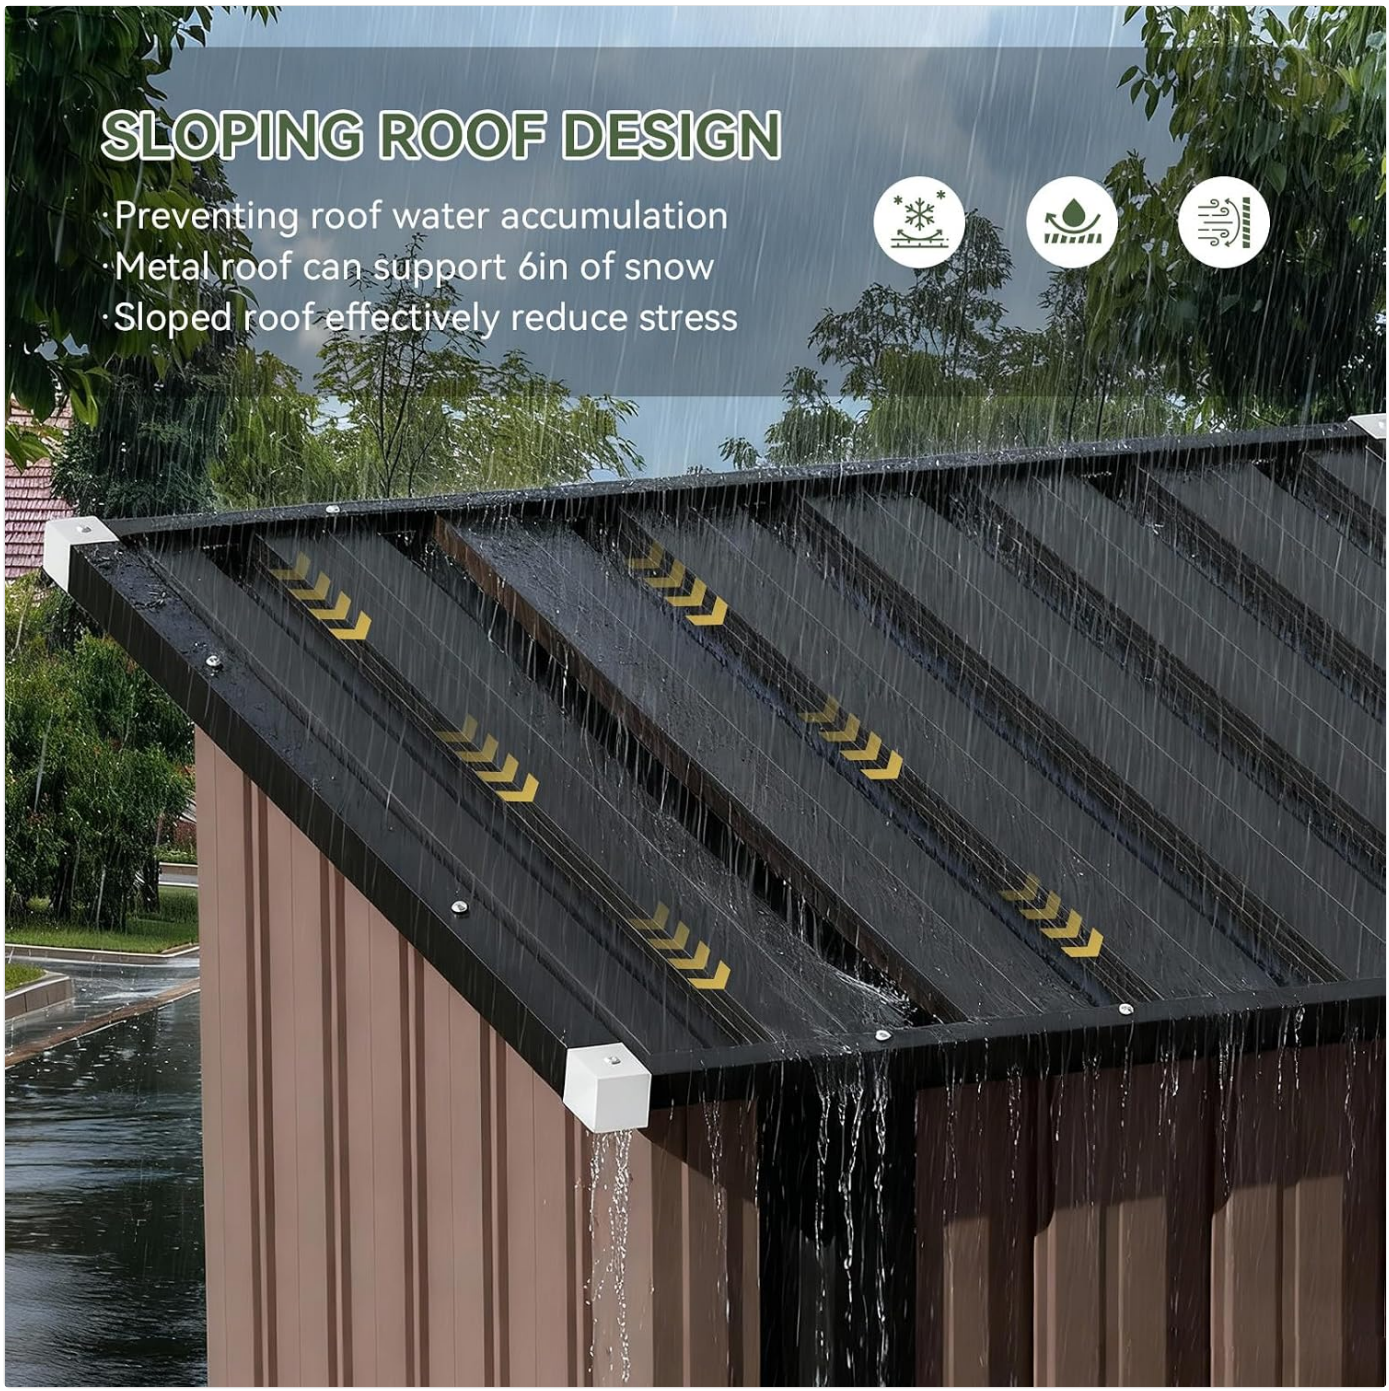

Image 4.1: The sloped roof design ensures efficient water runoff, protecting the shed's contents.

5. Troubleshooting

This section addresses common issues you might encounter with your storage shed.

Water Accumulation Inside the Shed:

- **Check Roof:** Ensure the sloped roof is clear of debris (leaves, snow) that could block water flow.
- **Inspect Seals:** Verify that all panels are properly aligned and secured, and that no gaps exist where water could enter.
- **Level Surface:** Confirm the shed is on a level foundation. Uneven ground can cause misalignments, leading to leaks.

Difficulty Opening/Closing Doors:

- **Check Alignment:** Ensure the shed is on a level surface. Uneven ground can cause the door frame to warp slightly.
- **Hinge Inspection:** Lubricate hinges if they are stiff. Check for any bent or damaged hinge components.
- **Obstructions:** Remove any items inside the shed that might be blocking the door's path.

Shed Instability:

- **Foundation:** Ensure the shed is placed on a firm, level foundation.
- **Fasteners:** Re-check all assembly screws and bolts to ensure they are securely tightened.
- **Anchoring:** Consider anchoring the shed to the ground for added stability, especially in windy conditions (anchoring hardware not included).

6. Specifications

Attribute	Detail
Brand	Aoxun
Model Number	G37066BR02A-HJ
Product Dimensions (D x W x H)	24.02" x 34.65" x 64.57"
Material	Metal
Base Material	Metal
Top Material Type	Metal
Water Resistance Level	Water Resistant
Door Style	Single Hinged, Lockable
Door Width	29.53 Inches
Door Height	59.45 Inches
Assembly Required	Yes
Color	Brown
Storage Capacity	22 Cubic Feet (approximate)

7. Warranty and Support

For any questions regarding your Aoxun Outdoor Storage Shed, including assembly assistance, missing parts, or product concerns, please contact Aoxun customer support. While specific warranty details are not provided in this manual, Aoxun is committed to customer satisfaction.

You can often find support contact information on the original product packaging or by visiting the official Aoxun store on Amazon: Aoxun Store.
