alltogetho Aggressive Carnotaurus Micro Mini Brick Kit

Model: 118-7 - Instruction Manual

Introduction

This manual provides detailed instructions for assembling and maintaining your alltogetho Aggressive Carnotaurus Micro Mini Brick Kit (Model 118-7). Please read all instructions carefully before beginning assembly to ensure a smooth and enjoyable building experience. This kit is designed for individuals aged 8 years and up, offering both an educational and engaging construction challenge.

Product Overview

The alltogetho Aggressive Carnotaurus Micro Mini Brick Kit allows you to construct a detailed replica of the Carnotaurus dinosaur using micro-scale building blocks. This model features authentic characteristics of the Carnotaurus, including prominent brow horns, sharp serrated teeth, and an aggressive posture.

Key Features:

- **Authentic Carnotaurus Design:** Recreates the distinctive features of the Carnotaurus, including its unique head structure and aggressive stance.
- **STEM Educational Value:** Promotes problem-solving, fine motor skills, and knowledge of prehistoric creatures.
- **Micro-Scale Detail:** Utilizes small blocks to achieve a high level of intricate detail and realistic texture.
- **Display Model:** The completed model serves as a decorative item for shelves, desks, or other display areas.

Setup and Assembly Instructions

1. Unpacking and Preparation:

- Carefully open the packaging and remove all contents.
- Verify that all brick bags and the instruction booklet are present.
- Organize the micro bricks by color and shape to facilitate easier assembly. A clean, well-lit workspace is recommended.

2. Following the Instruction Booklet:

- Refer to the included step-by-step instruction booklet. Each step illustrates the bricks required and their placement.
- Pay close attention to the orientation of each brick. Micro bricks require precision during assembly.
- Work through the steps sequentially. Do not skip steps, as this may lead to incorrect assembly.
- If a step seems unclear, re-examine the image in the booklet and ensure you have the correct pieces.

3. Assembly Tips:

- Use a small tool (not included, e.g., tweezers) if necessary for placing very small bricks.
- Apply gentle, even pressure when connecting bricks to ensure a secure fit without damaging them.
- Take breaks if you feel fatigued to maintain focus and precision.

Operating Instructions (Display and Interaction)

Once assembled, the alltogetho Aggressive Carnotaurus model is designed for display and gentle interaction. It is not intended for rough play.

Display:

- Place the completed model on a stable, flat surface.
- Avoid direct sunlight or extreme temperatures, which can affect the plastic bricks over time.
- The model can be displayed as a standalone piece or as part of a larger collection.

Interaction:

- Handle the model gently to prevent bricks from detaching.
- The model is static and does not have movable parts unless specified in the assembly instructions.

Maintenance

Cleaning:

- To clean the model, gently wipe it with a soft, dry cloth.
- For stubborn dust, a slightly damp cloth can be used, followed by immediate drying.
- Avoid using harsh chemicals or abrasive cleaners, as these can damage the plastic.

Storage:

- If disassembling for storage, keep all bricks in a sealed container to prevent loss.
- Store in a cool, dry place away from direct sunlight.

Troubleshooting

Missing Pieces:

- Double-check all packaging and the workspace for any small pieces that may have been overlooked.
- If pieces are genuinely missing, contact customer support with your product model number (118-7) and a description of the missing parts.

Difficulty Assembling:

- Ensure you are following the instruction booklet step-by-step.
- Verify that you are using the correct bricks for each step, as some micro bricks can appear similar.
- Apply firm but gentle pressure. If a brick does not fit, do not force it; re-examine the instructions.

Model Instability:

- Review previous steps to ensure all connections are secure.
- Ensure the model is placed on a completely flat and stable surface.
