Bellemave FST00087-BT-AA1

Bellemave Twin Over Twin House Bunk Bed with Bookshelf and Ladder Instruction Manual

Model: FST00087-BT-AA1

1. Introduction

This manual provides detailed instructions for the assembly, safe operation, and maintenance of your Bellemave Twin Over Twin House Bunk Bed. Please read all instructions carefully before assembly and use to ensure safety and proper function.

The Bellemave House Bunk Bed features a unique house-shaped design with a sloped roof, simulated windows, and an integrated bookshelf, creating an engaging and functional sleeping space for children. It is designed to maximize vertical space, offering a comfortable sleeping area on the upper bunk and a versatile space below.

2. Safety Information

WARNING: Failure to follow these warnings and instructions could result in serious injury or death.

- Always use the ladder carefully to avoid injury. Adult supervision is required.
- Do not exceed the maximum weight capacity of 300 pounds for each bunk.
- Ensure all connections are tight before use and check periodically.
- The top bunk is not suitable for children under 6 years of age.
- Use only mattresses that are 74-75 inches long and 37.5-38.5 inches wide for the twin bunks.
- The maximum mattress thickness for the top bunk should not exceed 6 inches to ensure proper guardrail height.
- Periodically check and ensure that the guardrail, ladder, and other components are in their proper position and secure.
- Prohibit more than one person on the upper bunk.
- Prohibit horseplay on or under the bed.
- Always use the ladder for entering and leaving the upper bunk.

3. Package Contents

Before beginning assembly, ensure all parts are present and undamaged. Refer to the included assembly guide for

a complete list of components and hardware. Typically, your package will include:

- Bed frame components (headboards, footboards, side rails)
- Slats for both upper and lower bunks
- Ladder
- Bookshelf unit
- House roof and window panels
- Hardware pack (screws, bolts, nuts, Allen wrench)
- Assembly instruction manual

4. Setup and Assembly

Assembly requires at least two adults. Follow the step-by-step instructions provided in the separate assembly guide

included with your product. Ensure you have adequate space and all tools (typically an Allen wrench is provided, but a screwdriver may also be needed).

1. **Unpack and Identify Parts:** Lay out all components and hardware. Compare them against the parts list in your assembly guide.
2. **Assemble Bed Frames:** Begin by connecting the headboards, footboards, and side rails for both the upper and lower bunks. Do not fully tighten all bolts until the entire frame is assembled.
3. **Install Slats:** Secure the mattress slats to both bed frames. Ensure they are evenly spaced and firmly attached.
4. **Attach Ladder and Guardrails:** Securely attach the ladder to the designated side of the bunk bed. Install all guardrails on the upper bunk as per the instructions.
5. **Mount House Structure:** Attach the roof panels and window frame to the upper bunk structure.
6. **Install Bookshelf:** Mount the bookshelf unit to the lower bed frame.
7. **Final Tightening:** Once all components are in place, systematically tighten all bolts and screws. Do not overtighten.

Figure 4.2: Close-up view of the Bellemave Bunk Bed's bookshelf and window feature. This image highlights the integrated storage and decorative elements.

5. Operating Instructions

The Bellemave House Bunk Bed is designed for safe and comfortable use by children. Adhere to the following guidelines:

- **Using the Ladder:** Always use the provided ladder to access the upper bunk. Ensure hands and feet are clean and dry to prevent slipping.
- **Bookshelf Use:** The integrated bookshelf is suitable for storing books, small toys, and lightweight items. Do not overload the shelf.
- **Weight Capacity:** Do not exceed the maximum weight capacity of 300 pounds per bunk.
- **Mattress Placement:** Ensure mattresses are properly sized and placed within the bed frames. The top bunk mattress should not exceed 6 inches in thickness to maintain guardrail effectiveness.

6. Maintenance

Regular maintenance will prolong the life and ensure the safety of your bunk bed.

- **Cleaning:** Wipe down the bed frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Hardware Check:** Periodically (e.g., every 3-6 months) check all bolts, screws, and connections to ensure they are tight. Retighten if necessary, but do not overtighten.
- **Structural Integrity:** Inspect the wood components for any signs of damage, cracks, or splinters. Address any issues promptly.
- **Ladder and Guardrails:** Ensure the ladder is securely attached and the guardrails are firm and undamaged.

7. Troubleshooting

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose hardware connections.	Check and tighten all bolts and screws. Ensure the bed is on a level surface.
Squeaking noises.	Loose connections or friction between wood parts.	Tighten all hardware. If squeaking persists, apply a small amount of paraffin wax or silicone spray to contact points between wood components (avoiding areas that bear weight directly).
Ladder feels loose.	Ladder attachment bolts are not secure.	Ensure the ladder is correctly installed and its attachment bolts are fully tightened.
Missing parts during assembly.	Packaging error or lost component.	Refer to the parts list in your assembly manual. Contact Bellemave customer support with the specific part number for replacement.

8. Specifications

Feature	Detail
Model Number	FST00087-BT-AA1
Size	Twin Over Twin
Material	Wood
Product Dimensions (L x W x H)	78.58" x 41" x 84.17"
