## 4. MAINTENANCE AND CARE

Proper maintenance ensures the longevity and optimal performance of your HolaiNail Electric Massage Table.

- **Cleaning:** Wipe clean with a soft, damp cloth. Avoid abrasive cleaners that may damage the PU leather upholstery or other surfaces.
- **Electrical Components:** Keep all electrical components dry. Do not expose the control units or motors to liquids.
- **Regular Inspection:** Periodically check all moving parts and connections for wear or looseness. Tighten any loose fasteners as needed.
- **Service Access:** The built-in service access panel allows for easy maintenance without removing the base. Consult a qualified technician for any internal repairs.

## 5. TROUBLESHOOTING

If you encounter issues with your electric massage table, refer to the following common troubleshooting steps:

- **No Power:** Ensure the power cord is securely plugged into a functional electrical outlet and the table. Check if the circuit breaker has tripped.
- **Motor Not Responding:** Verify that the remote control or foot pedals are properly connected. Check for any obstructions preventing movement of the table sections.
- **Uneven Movement:** Ensure the table is placed on a level surface. Check for any loose components or debris affecting the motor mechanisms.
- **Unusual Noises:** Discontinue use if you hear grinding or unusual noises. Inspect for loose parts or contact customer support.

For persistent issues, please contact HolaiNail customer support.
