4. SETUP

4.1 Charging the Device

Connect the voice recorder to a power source using the provided USB Type-C cable. A full charge takes approximately 1.5 hours and provides 40-45 hours of continuous recording time.

4.2 Setting Date and Time

To ensure accurate timestamps on your recordings, set the date and time by connecting the device to a computer. Refer to the video below for detailed instructions.

5. OPERATING INSTRUCTIONS

5.1 Basic Recording

To start recording, simply slide the 'ON/OFF' switch to the 'ON' position. The device will begin recording automatically. To save the recording and power off the device, slide the switch to the 'OFF' position. Files are named with the date and time for easy organization.

5.2 Voice Activated Recording (VOR)

The device supports Voice Activated Recording (VOR), which allows it to record only when sound is detected, saving memory and battery. You can adjust the VOR sensitivity (0-7, where 0 is off and 1-7 is on). For important occasions, continuous recording is recommended as VOR may miss subtle sounds.
