SHA CERLIN 3482

SHA CERLIN 81-Inch Extra Large Cat Tree User Manual

Model: 3482 | Brand: SHA CERLIN

INTRODUCTION

Thank you for choosing the SHA CERLIN 81-Inch Extra Large Cat Tree. This multi-level cat activity center is designed to provide your feline companions with a comfortable, engaging, and secure environment for play, rest, and exercise. This manual contains important information regarding assembly, usage, maintenance, and safety to ensure optimal enjoyment and longevity of your cat tree.

PRODUCT FEATURES

The SHA CERLIN 81-Inch Extra Large Cat Tree offers a variety of features designed for your cat's well-being and entertainment:

- **Perfect to Scratch:** Every scratching post is lined with natural sisal ropes, ideal for scratching and sharpening claws.
- **Warm and Comfortable:** Soft and warm lounging spots offer your cat a comfortable rest and sleeping area.
- **Multi-Level to Relax:** The tiered structure is designed for multiple cats to play simultaneously, or for a single cat to enjoy an expansive amusement park.
- **Solid and Stable:** Constructed from high-quality particle board with a plush covering, and featuring a strengthened base strong enough to support up to 33 lbs per platform.
- **Room Design:** The cat tree's aesthetic design can complement your room decor.

MULTIPLE REST AND PLAY WAYS!

PACKAGE CONTENTS

Before assembly, please ensure all parts are present and undamaged. The package should include:

- Various platforms and perches (covered in plush material)
- Sisal-wrapped scratching posts
- Cat condos/houses
- Hammocks/sleeping baskets
- Sisal ramp
- Assembly hardware (screws, bolts, Allen wrench)
- Anti-tipping wall anchor strap and hardware
- Decorative hanging toys (e.g., furballs)
- Instruction manual

SETUP INSTRUCTIONS

Assembly typically takes 1-2 hours. Follow these steps carefully:

1. **Unpack and Verify:** Carefully unpack all components and compare them with the parts list in your manual. Ensure all pieces are present and undamaged.
2. **Identify Parts:** All parts are typically labeled with letters or numbers. Sort them for easier assembly.
3. **Assemble Base:** Begin by attaching the lowest posts and platforms to the main baseboard. Ensure all connections are secure.
4. **Build Upwards:** Continue assembling the structure layer by layer, following the numerical or alphabetical sequence provided in your specific manual. Attach condos, perches, and hammocks as indicated.
5. **Attach Scratching Posts:** Securely screw in all sisal-wrapped posts. These provide structural support and scratching surfaces.
6. **Install Ramp:** Attach the sisal ramp to its designated position.
7. **Add Accessories:** Hang any included toys from the designated loops or platforms.
8. **Ensure Stability:** Once fully assembled, gently shake the cat tree to check for any wobbling. Tighten any loose connections.
9. **Secure to Wall (Recommended):** For enhanced safety and stability, especially with active or multiple cats, use the provided anti-tipping strap and hardware to secure the top of the cat tree to a wall stud.

Image: Instructions for securing the cat tree to a wall using an anti-tipping strap and nails to prevent wobbling and ensure cat safety.

OPERATING INSTRUCTIONS

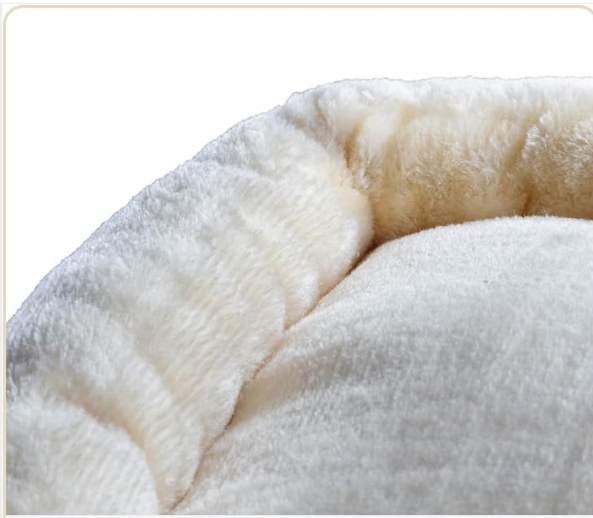

Introducing your cat to their new tree:

- **Initial Introduction:** Place your cat's favorite treats or toys on different levels of the tree to encourage exploration.
- **Encourage Play:** Use a feather wand or laser pointer to guide your cat up and down the tree, engaging them in play.
- **Scratching:** If your cat doesn't immediately use the sisal posts, gently guide their paws to the material or sprinkle catnip on the posts.
- **Resting:** Cats often seek high vantage points. The elevated perches and cozy condos provide ideal spots for napping and observing their surroundings.

MAINTENANCE

Regular maintenance will extend the life of your cat tree:

- **Cleaning:** Use a vacuum cleaner with a brush attachment to remove loose fur and debris from the plush surfaces. Spot clean any soiled areas with a mild pet-safe cleaner and a damp cloth. Avoid saturating the material.
- **Sisal Rope Care:** Over time, sisal ropes may fray. Trim loose threads to prevent entanglement. If heavily damaged, consider replacing the sisal rope on individual posts.
- **Hardware Check:** Periodically check all screws and bolts to ensure they remain tight. Re-tighten as necessary to maintain stability.
- **Inspect for Wear:** Regularly inspect the entire structure for any signs of damage, such as broken platforms, loose posts, or torn fabric, and address them promptly.

Soft Plush Flannel

PREFERRED MATERIAL

...

Premium and durable. you can rest assured.

Particle Board

Sisal Rope

Image: A visual representation of the high-quality materials used: soft plush flannel for comfort, durable particle board for structure, and natural sisal rope for scratching posts.

TROUBLESHOOTING

Common issues and solutions:

- **Cat Not Using the Tree:** Try placing catnip on the tree, or their favorite blanket/toy. Ensure the tree is in a location your cat feels safe and can observe its surroundings.
- **Wobbling/Instability:** Double-check all connections and tighten any loose screws. Ensure the base is on a flat, stable surface. If not already done, secure the tree to a wall using the anti-tipping kit.
- **Fraying Sisal:** This is normal wear. Trim loose threads. If the post is severely damaged, consider wrapping it with new sisal rope or replacing the post if possible.
- **Shedding Plush:** Some initial shedding of plush material is normal. Regular vacuuming can help manage this.

SPECIFICATIONS

| Feature | Detail |
|---------|--------|
|---------|--------|

| | |
|--|---|
| Product Dimensions (L x W x H) | 23.6" x 19.7" x 81" |
