## PEAQ 32A7000

# PEAQ 32A7000 TV Screen Protector User Manual

Model: 32A7000 | Brand: PEAQ

## INTRODUCTION

This manual provides essential information for the proper installation, use, and maintenance of your PEAQ 32A7000 TV Screen Protector. Please read it carefully before installation to ensure optimal performance and longevity of the product.

## PRODUCT FEATURES

- **Comprehensive Protection:** The screen protector is a transparent, shatterproof panel designed to protect your television from breakage, impacts, scratches, and liquid contact without affecting image quality.
- **Optical Clarity:** It is 100% transparent, ensuring no visual distortion for Full HD, 4K-8K UHD, FHD, LED, QLED, OLED, and QNED Smart televisions. Its presence on the TV screen is virtually unnoticeable.
- **Premium Material:** Manufactured from high-quality imported materials.
- **Enhanced Durability:** It is 12 times stronger than a typical television screen and highly resistant to extreme impacts, protecting your TV from scratches and breakage. Designed to be highly durable, resisting breakage even from impacts.
- **Eye Health:** Protects against harmful blue UV rays emitted by televisions, contributing to eye health.
- **Safety Design:** Unlike glass, it is not sharp, does not shatter, and has no sharp edges.
- **Color Integrity:** Colors remain undistorted; vibrancy is maintained.
- **Custom Fit:** Custom manufactured to fit your specific television screen, ensuring no issues with size or curvature. The screen protector is designed to cover the television frame from edge to edge.

## SETUP AND INSTALLATION

The PEAQ 32A7000 TV Screen Protector is designed for effortless and easy mounting on the television screen; professional installation is not required.

1. **Unpack the Protector:** Carefully remove the screen protector from its protective packaging.
2. **Clean the TV Screen:** Ensure your television screen is clean and free of dust or smudges before installation.
3. **Position the Protector:** Gently place the screen protector over your television screen, aligning it with the edges of the TV frame. The protector is designed to cover the frame from edge to edge.
4. **Secure with Straps:** Use the provided transparent safety straps to securely fasten the protector to the television.

Ensure the straps are tightened sufficiently to hold the protector firmly in place without obstructing the screen.

## OPERATING INSTRUCTIONS

---

Once installed, the PEAQ 32A7000 TV Screen Protector operates passively, providing continuous protection to your television screen. No user interaction is required for its protective function. The protector maintains the original image quality and color vibrancy of your TV.

## MAINTENANCE

---

To ensure the longevity and clarity of your screen protector, follow these maintenance guidelines:

- **Cleaning:** To clean the screen protector, use a soft, lint-free microfiber cloth. Gently wipe the surface to remove dust and fingerprints.

- **Stubborn Marks:** For more stubborn marks or smudges, lightly dampen the cloth with a mild, non-abrasive screen cleaner. Apply the cleaner to the cloth, not directly to the protector.
- **Avoid Harsh Chemicals:** Do not use harsh chemicals, abrasive cleaners, or rough materials, as these may scratch or damage the protector's surface.

## TROUBLESHOOTING

If you encounter any issues with your screen protector, please refer to the following common problems and solutions:

- **Issue:** The protector appears to affect image quality or clarity.  
**Solution:** Ensure the protector is clean and free of smudges, dust, or moisture. Verify it is correctly aligned and securely attached without any gaps between the protector and the TV screen.
- **Issue:** The protector is not securely attached or feels loose.  
**Solution:** Re-check the transparent safety straps. Ensure they are properly tightened and positioned to hold the protector firmly in place. Adjust as necessary.
- **Issue:** Visible scratches or marks on the protector.  
**Solution:** While highly durable, extreme impacts can cause marks. For minor scratches, some specialized plastic polish may help, but severe damage may require replacement. Always use soft cloths for cleaning.
