MAINTENANCE

1. General Care

- Keep your tablet away from extreme temperatures, direct sunlight, and moisture.
- Clean the screen with a soft, lint-free cloth. Avoid abrasive cleaners.
- Protect your tablet from drops and impacts by using a protective case.

2. Software Updates

Regularly check for and install software updates to ensure your tablet has the latest features, security patches, and performance improvements. You can usually find this option in the device's settings under 'System' or 'About tablet'.

3. Battery Care

- Avoid fully discharging the battery frequently.
- Do not leave the tablet charging for extended periods after it reaches 100%.
- Use only the original charger and cable provided with your device.

TROUBLESHOOTING

Common Issues and Solutions

- **Device not turning on:** Ensure the battery is charged. Connect the charger and wait a few minutes before attempting to power on again. If it still doesn't turn on, try holding the power button for 10-15 seconds.
- **Wi-Fi/4G connectivity issues:** Check if Wi-Fi is enabled and you are connected to the correct network. For 4G, ensure your SIM card is properly inserted and your data plan is active. Try restarting the tablet or toggling airplane mode.
- **Applications crashing or freezing:** Close background applications. Clear the cache of the problematic app in 'Settings > Apps'. If the issue persists, try uninstalling and reinstalling the app.
- **Slow performance:** Close unused apps, clear cache, and ensure sufficient storage space. Consider performing a factory reset if performance issues continue after trying other solutions (back up your data first).
