GIVI EASY15

GIVI EASY-15 Tunnel Bag for Scooters - Instruction Manual

Model: EASY15

1. PRODUCT OVERVIEW

The GIVI EASY-15 tunnel bag is specifically designed for convenient placement on the central tunnel of scooters and maxi-scooters. It combines ample cargo capacity with practical features in a compact and robust design.

Constructed from durable materials including 600D Ripstop Polyester, PU laminated polyester, and reflective PU. The exterior material offers high UV resistance, tested for 500 hours (ISO 4892-2 reference), ensuring longevity. All materials comply with REACH regulations.

2. SETUP AND INSTALLATION

Follow these steps to securely install your GIVI EASY-15 tunnel bag on your scooter:

1. **Positioning:** Place the tunnel bag on the central tunnel of your scooter, ensuring it sits stably and does not obstruct controls or rider movement.
2. **Securing the Bag:** The bag is attached to the scooter using one quick-release hook. Locate the two dedicated pockets on the bottom of the bag where the quick-release hook is stored.
3. **Connecting the Hook:** Pass the quick-release hook through a suitable anchor point on your scooter (e.g., frame, footrest bracket) and secure it firmly. Ensure the strap is taut to prevent movement during travel.
4. **Base Reinforcement:** The bag's base is reinforced with rigid plastic inserts to provide enhanced stability and durability, even when carrying uneven loads. Ensure the bag's base is fully supported by the scooter's tunnel.

3. OPERATING INSTRUCTIONS

Maximize the utility of your GIVI EASY-15 tunnel bag with these features:

- **Storage Compartments:** The bag includes one flat side pocket, ideal for thin items or documents. A second, larger side pocket is perfect for storing shoes or clothing. The main compartment is secured with a zipper.
- **External Cargo:** An elastic cord system is located on the lid, allowing for quick and secure attachment of additional items or extra cargo.
- **Rain Protection:** A water-resistant rain cover is included. Deploy it during wet weather conditions to protect your belongings.
- **Visibility:** Reflective inserts are integrated into the bag's design to enhance visibility, especially in low-light conditions.
- **Portability:** For off-scooter transport, a comfortable front handle and an adjustable shoulder strap are provided, making it easy to carry the bag by hand or over the shoulder.

4. MAINTENANCE

To ensure the longevity and optimal performance of your GIVI EASY-15 tunnel bag, follow these maintenance guidelines:

- **Cleaning:** Clean the bag with a damp cloth and mild soap. Avoid harsh chemicals or abrasive cleaners that could damage the material. Allow it to air dry completely before storage.
- **Rain Cover:** Regularly check the water-resistant rain cover for any tears or damage. Ensure it is clean and dry before folding and storing to prevent mold or mildew.
- **Storage:** When not in use, store the bag in a cool, dry place away from direct sunlight to prevent material degradation.
- **Inspections:** Periodically inspect all straps, zippers, and attachment points for wear and tear. Replace or repair any damaged components to maintain security and functionality.

5. TROUBLESHOOTING

If you encounter any issues with your GIVI EASY-15 tunnel bag, consider the following:

- **Bag Instability:** Ensure the quick-release hook is properly secured and tightened. Verify that the bag's base is fully supported by the scooter's tunnel. Avoid overloading the bag, especially with unevenly distributed weight.
- **Water Leakage:** Confirm that the rain cover is correctly installed and fully covers the bag. Check for any tears or punctures in the rain cover or the bag's material.
- **Zipper Issues:** If zippers are stiff, apply a silicone-based lubricant. Avoid forcing stuck zippers to prevent damage.

For persistent issues, please refer to the Warranty and Support section.

6. SPECIFICATIONS

Model Number	EASY15
Brand	GIVI
Capacity	15 Liters
Color	Black
Material	Polyester (600D Ripstop, PU laminated, reflective PU)

Mounting Type	Quick-release
