Higeego W5 Wall Mounted Closet System

Higeego W5 Adjustable Wall Mounted Closet System Instruction Manual

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your Higeego W5 Adjustable Wall Mounted Closet System. Please read this manual thoroughly before installation and use to ensure proper setup and safe operation. Keep this manual for future reference.

PRODUCT FEATURES

- **Spacious and Sturdy Design:** This wall-mounted system measures 107.9"-152.8"W x 11.8"D x 88.6"H and supports up to 1300 lbs, providing extensive and reliable storage.
- **Adjustable Configuration:** Features height-adjustable shelves and extendable clothing rods (18.3"-34.6" range) to adapt to various closet dimensions and storage requirements.
- **Durable Construction:** Manufactured from high-quality carbon steel with a scratch-resistant powder-coated finish for long-lasting durability and resistance to wear.
- **Versatile Organization:** Functions as a complete storage solution for hanging garments, with options to add compatible shelves for shoes, bags, and folded items.
- **Easy Assembly:** Designed for straightforward installation with upgraded threaded joint connections. Includes concrete/drywall anchors and a step-by-step guide for a secure setup.

SAFETY INFORMATION

Please observe the following safety precautions during installation and use:

- Ensure the wall structure is capable of supporting the rack's weight and its maximum load capacity (1300 lbs).
- Always use appropriate wall anchors for your specific wall type (concrete or drywall).
- Verify all connections are securely tightened before loading the rack.
- Do not overload the rack beyond its stated weight capacity.
- Keep small parts away from children during assembly.
- Avoid hanging from or climbing on the rack.

PACKAGE CONTENTS

Please verify that all components are present before beginning assembly. While specific component names are not listed, the package typically includes:

- Carbon steel pipes for vertical and horizontal supports.
- Threaded joint connectors.
- Adjustable shelves.
- Extendable clothing rods.
- Wall mounting plates and anchors (for concrete and drywall).
- Adjustable feet.
- Assembly tools (if provided).

SETUP AND INSTALLATION

Follow these steps for proper installation of your Higeego W5 Wall Mounted Closet System.

1. Plan Your Layout

Determine the desired configuration (Horizontal, 45° Shape, Combination, or L Shape) and mark the wall positions for the main frame components. Consider the minimum (9 ft) and maximum (12 ft 9 inches) width adjustments.

Expandable Closet

Image: The Higeego W5 Closet System demonstrating its expandable nature, from a minimum width of 9 feet to a maximum of 12 feet 9 inches, allowing for flexible room integration.

layouts to fit different room designs.

2. Mount the Main Frame

Attach the main vertical pipes to the wall using the provided hardware. Ensure these are securely fastened into wall studs or using appropriate anchors for your wall type (concrete or drywall). Use a level to ensure vertical alignment.

Image: Diagram illustrating the use of wall anchors for securing the system to either drywall or concrete walls, ensuring stability.

3. Assemble Horizontal Supports and Connectors

Connect the horizontal pipes using the threaded joint connections. These joints are designed for secure and stable assembly. Adjust the width of the frame to fit your planned dimensions.

Image: Close-up view of the smooth-gliding threaded joint connections, highlighting the ease of assembly and secure fit.

4. Install Clothing Rods and Shelves

Attach the extendable clothing rods and height-adjustable shelves to the main frame. Ensure they are level and securely fastened. The shelves can be positioned at various heights to suit your storage needs.

Before extension: Support 15-20 clothes

After extension: Support 35-40 clothes

Image: The Higeego W5 system with extendable clothing rods and adjustable shelves, demonstrating how the capacity increases after extension.

5. Adjust Feet for Stability

If applicable, adjust the feet at the base of the vertical supports to ensure the entire system is stable and level on the floor.

OPERATING INSTRUCTIONS

The Higeego W5 system is designed for flexible use and adjustment.

- **Adjusting Width:** The horizontal rods are extendable. To adjust the overall width, loosen the connecting joints, slide the rods to the desired length (between 107.9" and 152.8"), and then re-tighten the joints securely.
- **Adjusting Shelf Height:** The shelves can be repositioned vertically along the main support pipes. Loosen the shelf collars, move the shelf to the desired height, and re-tighten the collars firmly to secure the shelf in place.
- **Using Clothing Rods:** The clothing rods are designed to hold a significant amount of weight. Distribute clothing evenly to maintain balance and prevent stress on specific sections.

MAINTENANCE

To ensure the longevity and optimal performance of your Higeego W5 Closet System, follow these maintenance guidelines:

- **Regular Cleaning:** Wipe down the carbon steel pipes and shelves with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the powder-coated finish.
- **Check Connections:** Periodically inspect all threaded joints and wall anchors to ensure they remain tight and secure. Re-tighten any loose connections immediately.
- **Weight Distribution:** Always distribute the weight of your items evenly across the shelves and hanging rods. Avoid concentrating heavy items in one area.
- **Inspect for Wear:** Annually check for any signs of wear, rust, or damage to the components. Contact customer support if you notice any significant issues.

TROUBLESHOOTING

If you encounter any issues with your Higeego W5 Closet System, refer to the following common solutions:

Problem	Possible Cause	Solution
Rack feels unstable or wobbly.	Loose wall anchors or pipe connections. Uneven floor.	Ensure all wall anchors are securely fastened into studs or appropriate wall material. Tighten all threaded pipe connections. Adjust the leveling feet at the base of the vertical supports.
Difficulty adjusting shelf height or rod length.	Connections are too tight or components are misaligned.	Loosen the relevant collars or joints sufficiently before attempting to adjust. Ensure components are aligned correctly before tightening.
Rack sags under load.	Overloaded beyond capacity or uneven weight distribution.	Reduce the total weight on the rack. Redistribute items evenly across all shelves and rods. Verify the rack is properly installed and all connections are secure.

SPECIFICATIONS

Feature	Detail
Brand	Higeego
Model Number	W5 Wall Mounted Closet System
Color	Gold
Material	Carbon Steel
Item Dimensions (L x W x H)	11.8 x 152.8 x 88.6 inches (Depth x Max Width x Height)
Item Weight	40.78 Pounds
Maximum Weight Recommendation	1300 Pounds
Mounting Type	Wall Mount
Finish Type	Powder-Coated

WARRANTY AND SUPPORT

For warranty information or technical support, please contact Higeego customer service directly through their official website or the retailer where the product was purchased. Please have your purchase details and model number (W5 Wall Mounted Closet System) available when contacting support.
