## 4. Maintenance and Care

Proper care will extend the life and appearance of your EBELLO reclining sofa.

### 4.1 Fabric Care

- **Regular Cleaning:** Vacuum the sofa regularly using a soft brush attachment to remove dust and loose debris.

- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub, as this can spread the stain. For stubborn stains, use a mild fabric cleaner specifically designed for upholstery, testing on an inconspicuous area first. Follow the cleaner's instructions carefully.
- **Avoid Harsh Chemicals:** Do not use harsh detergents, abrasive cleaners, or solvents, as these can damage the fabric.
- **Sunlight Exposure:** Avoid placing the sofa in direct sunlight for prolonged periods, as this can cause fading.

### 4.2 Reclining Mechanism Care

- **Lubrication:** Periodically check the reclining mechanism for smooth operation. If it becomes stiff, apply a silicone-based lubricant to moving metal parts.
- **Tighten Fasteners:** Over time, fasteners may loosen. Periodically check and tighten any visible screws or bolts on the frame and mechanism.

## 5. Troubleshooting

If you encounter issues with your EBELLO reclining sofa, refer to the following common solutions:

- **Sofa Does Not Recline:**
  - Ensure the reclining lever is fully engaged.
  - Check for any obstructions around the mechanism or footrest.
  - Verify that the backrest is securely attached to the base.
- **Footrest Does Not Retract Fully:**
  - Apply firm, even pressure to the footrest with your legs while leaning forward.
  - Check for any debris or objects caught in the mechanism.
- **Squeaking or Noises:**
  - Apply a silicone-based lubricant to all pivot points and moving metal parts of the reclining mechanism.
  - Check and tighten any loose bolts or screws on the frame.
- **Fabric Pilling:**
  - Pilling is a normal occurrence with some fabrics. Use a fabric shaver or lint remover to gently remove pills.

If these steps do not resolve the issue, please contact customer support.
