MAINTENANCE

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that may damage the finish.
- **Spills:** Clean up spills immediately to prevent moisture damage to the engineered wood.
- **Hardware Check:** Periodically check all screws and fasteners to ensure they are tight. Retighten if necessary.
- **Sunlight Exposure:** Avoid prolonged exposure to direct sunlight to prevent fading or discoloration of the finish.

TROUBLESHOOTING

- **Wobbly Cabinet:** Ensure the cabinet is on a level surface. Adjust any leveling feet if present, or place shims
