GUTINNEEN NAIR32-R

GUTINNEEN Mobile Chicken Coop User Manual

Model: NAIR32-R

1. IMPORTANT SAFETY INFORMATION

Please read and understand all instructions before assembling and using this chicken coop. Failure to follow these instructions may result in injury to animals or damage to the product.

- Ensure all parts are securely fastened during assembly and regularly check for loose components.
- Place the coop on a level, stable surface to prevent tipping.
- Regularly inspect the coop for any damage, sharp edges, or protruding wires that could harm your chickens.
- Keep children and pets away from the assembly area.
- This coop is designed for chickens. Do not use it for other animals unless specified.
- Provide adequate ventilation and protection from extreme weather conditions.

2. PRODUCT OVERVIEW

The GUTINNEEN Mobile Chicken Coop NAIR32-R is designed to provide a safe and comfortable environment for 2-4 chickens. Its mobile design allows for easy relocation, ensuring your flock always has access to fresh ground. Key features include a UV-protected roof, divided nesting boxes, and a sturdy wooden structure.

Key Features:

- **Effortless Mobility:** Equipped with built-in wheels and a push-pull handrail for easy one-person relocation.
- **Divided Nesting Boxes:** Features removable dividers and egg barriers for peaceful laying and consistent egg production.
- **Expandable Design:** Can be connected to a second unit for additional space as your flock grows.
- **UV-Resistant Roof:** Provides protection from harmful sunlight, rain, and wind, keeping the interior dry and comfortable.
- **Sturdy Reinforced Structure:** Balcony supports the nesting box and enhances overall stability.
- **Easy Cleaning:** Includes a removable metal pull-out tray for quick and efficient waste removal.
- **Round Perches:** Polished perches designed to protect chickens' sensitive feet.

3. SETUP AND ASSEMBLY

Assembly of the GUTINNEEN Mobile Chicken Coop requires careful attention to detail. Please follow the manufacturer's provided assembly instructions for a secure and stable structure. A general overview of the process is provided below:

1. **Unpack Components:** Carefully remove all parts from the packaging and verify against the parts list in your specific instruction manual.
2. **Assemble Base Frame:** Construct the base frame, ensuring all connections are tight and stable.
3. **Attach Wheels:** Securely attach the wheels to the designated points on the base frame for mobility.
4. **Install Side Panels and Walls:** Erect the main coop structure by attaching the side panels and walls.
5. **Assemble Nesting Box:** Construct and attach the nesting box, including its dividers and egg barriers.
6. **Install Roof Sections:** Place and secure the UV-protected roof panels over the coop and run areas.
7. **Insert Pull-Out Tray:** Slide the metal pull-out tray into its designated slot beneath the main coop.
8. **Attach Ramps and Doors:** Install the internal ramp for chicken access and all external doors, ensuring they latch securely.
9. **Final Inspection:** Double-check all screws, bolts, and latches to ensure the coop is fully assembled and stable before introducing chickens.

Move-Easy Wheel

Push-Pull Handrail

Easy Movement

Placing the coop in different locations can result in happier chickens and better quality eggs

Image: Demonstrating the effortless mobility of the chicken coop by a single person.

4. OPERATING INSTRUCTIONS

4.1 Moving the Coop

To move the coop, ensure all doors are securely latched and chickens are safely inside or removed. Utilize the built-in wheels and push-pull handrail to gently lift and roll the coop to a new location. Always move the coop on relatively even ground to prevent damage or instability.

Image: Close-up of the 'Move-Easy Wheel' for convenient coop relocation.

4.2 Using the Nesting Boxes

The coop features divided nesting boxes. Ensure there is adequate bedding material (straw, wood shavings) in each compartment. The removable dividers help create private spaces for hens to lay eggs. Regularly check and collect eggs from the nesting box access point.

Large Nesting Box

Providing a comfortable and secure place for your chickens to lay eggs

Image: Large nesting box with divider, providing a secure place for hens to lay eggs.

4.3 Access and Security

The coop includes multiple access points and secure latches. Use the sliding door to control access between the main coop and the run. Ensure all doors are latched at night to protect your flock from predators.

Video: This video provides a visual overview of the GUTINNEEN Mobile Chicken Coop, highlighting its key features such as wheels for easy movement, a large nesting box, spacious interior, easy-to-clean slide-out tray, activity space, ramps, and all-weather resistant roof.

5. MAINTENANCE

Regular maintenance is crucial for the longevity of your chicken coop and the health of your flock.

- **Daily Cleaning:** Remove droppings and soiled bedding from the coop and run area.
- **Weekly Deep Clean:** Utilize the removable metal pull-out tray for thorough cleaning. Remove all bedding, scrub the tray, and disinfect as needed. Clean the nesting boxes and replace bedding.
- **Structural Inspection:** Periodically check all wooden components for signs of wear, rot, or damage. Tighten any loose screws or hardware.
- **Roof Maintenance:** Inspect the UV-protected roof for any cracks or leaks, especially after severe weather.
- **Pest Control:** Implement measures to prevent pests and rodents from entering the coop.

Pull Out Metal Tray

6. TROUBLESHOOTING

- **Coop Instability:** Ensure all screws and bolts are tightened. Verify the coop is on a flat, even surface.
- **Difficulty Moving:** Check wheels for obstructions or damage. Ensure the ground is not excessively soft or uneven.
- **Eggs Rolling Out:** Confirm egg barriers in the nesting boxes are properly installed and not damaged.
- **Water Accumulation:** Inspect the roof for any damage or gaps. Ensure the coop is not placed in a depression where water can pool.
- **Predator Access:** Regularly check all wire mesh and latches for damage or gaps that could allow predators entry. Reinforce as necessary.
