PawHut 81-inch Outdoor Cat Enclosure (Catio) Instruction Manual

Model: D32-036V00OG | Brand: PawHut

INTRODUCTION

Thank you for choosing the PawHut 81-inch Outdoor Cat Enclosure. This manual provides essential information for the safe assembly, operation, and maintenance of your new catio. This large outdoor enclosure is designed to provide a secure and stimulating environment for 2-4 cats, featuring multiple levels, play accessories, and weather protection.

The catio is constructed from durable fir wood with a waterproof paint finish and includes a 420D waterproof, UV-resistant canopy to protect your pets from the elements. It comes equipped with two cozy condos, three platforms, soft ladders, ramps, and a hammock, offering various spaces for relaxation and play. An enhanced safety floor is integrated to prevent escapes, and a tall 68-inch (173 cm) door allows for easy access and cleaning.

SAFETY INFORMATION

Please read and understand all safety instructions before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- This product is intended for outdoor use only.
- Ensure all components are securely fastened during assembly. Regularly check all screws and connections to ensure they remain tight.
- The catio floor is designed to support the weight of cats. Do not allow heavy objects or people to stand or sit on the internal platforms or floor, as this may cause structural damage.
- Keep small children supervised around the enclosure to prevent accidental injury or unauthorized access.
- Position the enclosure on a level, stable surface to prevent tipping.
- Inspect the enclosure regularly for any signs of wear, damage, or sharp edges that could harm your pets.

Replace damaged parts immediately.

- Ensure proper ventilation within the enclosure, especially during hot weather.
- Do not modify the product in any way not specified by the manufacturer.

PACKAGE CONTENTS

Before beginning assembly, verify that all parts listed below are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Wooden frame panels and wire mesh sections
- Waterproof canopy cover
- 2 x Cat Condos
- 3 x Platforms
- Ramps and Ladders
- 1 x Hammock
- Assembly hardware (screws, bolts, latches)
- Instruction Manual (this document)

SETUP AND ASSEMBLY

Assembly of the PawHut Cat Enclosure typically requires two people and can be completed within 1 to 1.5 hours. Follow the step-by-step instructions provided in the separate assembly guide included with your package. It is recommended to use your own tools (e.g., a power drill with appropriate bits) for more efficient and secure assembly, as the provided tools may be basic.

- **Preparation:** Clear a level and stable area for assembly. Unpack all components and lay them out, comparing them against the parts list in the assembly guide.
- **Frame Assembly:** Begin by assembling the main wooden frame sections according to the diagrams. Ensure all screws are tightened firmly but avoid over-tightening, especially if the wood feels brittle, to prevent splitting. Pre-drilling small pilot holes can be beneficial for delicate wood sections.
- **Mesh Installation:** Attach the wire mesh panels to the wooden frame. Ensure the mesh is taut and securely fastened to prevent gaps.
- **Internal Features:** Install the condos, platforms, ramps, ladders, and hammock as indicated in the assembly guide. These provide enrichment and climbing opportunities for your cats.
- **Door Installation:** Attach the main access door, ensuring the secure latch mechanism functions correctly.
- **Canopy Installation:** Secure the waterproof and UV-resistant canopy to the top of the enclosure. Ensure it is properly aligned to provide maximum weather protection.

LUXURY OUTDOOR CATIO

Quickly set up needs 2 people within 1-1.5 hours

OPERATING INSTRUCTIONS

This cat enclosure is designed for ease of use and provides a safe outdoor space for your cats.

- **Access:** The enclosure features a tall 68-inch (173 cm) door for convenient entry and exit. Always ensure the secure latch is properly engaged when your cats are inside to prevent escapes.
- **Internal Features:** Encourage your cats to explore the multiple levels, including the platforms, ramps, and ladders. The two condos offer private resting spots, and the hammock provides a comfortable elevated lounging area.
- **Expansion Options:** The catio includes a side door hole designed for connecting to tunnels or other compatible cat enclosures, allowing you to expand your cats' play area or provide direct access from a window or pet door.

MAINTENANCE

Regular maintenance will ensure the longevity and safety of your PawHut Cat Enclosure.

- **Cleaning:** The tall door and accessible floor make cleaning easy. Regularly sweep or vacuum the floor and platforms to remove cat hair, litter, and debris. Wipe down wooden surfaces with a damp cloth and mild, pet-safe cleaner.
- **Waterproof Cover:** The 420D waterproof and UV-resistant canopy should be cleaned periodically with water and a soft brush to remove dirt and maintain its protective properties. Ensure it is securely fastened, especially during windy conditions.
- **Inspection:** Periodically inspect the entire structure for any loose screws, damaged wood, or torn mesh. Tighten any loose fasteners and repair or replace damaged components promptly. Check the condition of the ramps, ladders, and hammock for wear.
- **Weather Protection:** While designed to withstand changeable weather, consider additional protection during extreme conditions (e.g., heavy snow, strong winds) to prolong the life of the enclosure.

WEATHERPROOF COVER

Waterproof

UV-resistant

TROUBLESHOOTING

If you encounter issues during assembly or use, refer to the following common solutions:

- **Assembly Difficulties:** If the provided instructions are unclear, refer to online resources or contact customer support for clarification. Using your own higher-quality tools can significantly improve the assembly process and component fit.
- **Wood Splitting During Screwing:** If the fir wood appears brittle, consider pre-drilling small pilot holes before inserting screws. This can prevent splitting and ensure a more secure connection. Always apply gentle, even pressure when tightening screws.
- **Structural Instability:** Ensure the enclosure is placed on a completely flat and stable surface. Double-check that all screws and fasteners are fully tightened. If the structure still feels unstable, verify that all panels are correctly aligned according to the assembly guide.
- **Floor Cracking:** The floor and internal platforms are designed for cat weight. Avoid placing heavy human weight or objects on these surfaces, as this can cause stress and damage to the wooden components.

- **Escape Concerns:** Regularly inspect the wire mesh for any gaps or damage. Ensure the door latch is always fully secured when cats are inside. The anti-escape floor is designed to prevent digging out.

SPECIFICATIONS

Feature	Detail
Model Number	D32-036V00OG
Product Dimensions (L x W x H)	180L x 120W x 205H Centimetres (70.9L x 47.2W x 80.7H inches)
Item Weight	115 Pounds (approx. 52.16 kg)
Material	Fir Wood
Mesh Gap Size	0.5 Inches
Color	Orange (for this variant)
Target Species	Cat
Included Components	Bridge, Condo (2), Hammock (1), Ramp, Waterproof Cover
Special Features	Multi-Level, Spacious, Ventilated, Waterproof, Anti-Escape Floor
