SETUP

1. Charging the Mouse

Before first use, it is recommended to fully charge the mouse. Connect the provided USB-C charging cable to the charging port (10) on the mouse and to a USB power source. The power indicator (9) will show charging status.

2. Connecting to Your Device

The SABLUTE MAM4 supports three connection modes: 2.4GHz wireless via USB receiver, Bluetooth 1 (BT1), and Bluetooth 2 (BT2). You can connect to up to three devices simultaneously and switch between them.

2.1. 2.4GHz Wireless Connection

- 1. Locate the 2.4G USB receiver stored in the bottom of the mouse (12).
- 2. Plug the USB receiver into an available USB-A port on your computer.
- 3. Turn on the mouse using the power switch (11) on the bottom.
- 4. Press the 2.4G / BT1 / BT2 Connect button (6) until the LED indicator (5) shows the 2.4G mode (usually green).
- 5. Your computer should automatically detect and connect to the mouse.

Your browser does not support the video tag.

Video: Demonstrates the ergonomic vertical design and multi-device connectivity of the mouse, including 2.4G and Bluetooth pairing.

2.2. Bluetooth Connection (BT1 / BT2)

- 1. Turn on the mouse using the power switch (11).
- 2. Press and hold the 2.4G / BT1 / BT2 Connect button (6) for 3-5 seconds until the LED indicator (5) for BT1 or BT2 starts blinking rapidly (e.g., blue for BT1, cyan for BT2), indicating pairing mode.
- 3. On your device (laptop, tablet, etc.), go to Bluetooth settings and search for new devices.
- 4. Select "SABLUTE MAM4" from the list of available devices.
- 5. Once connected, the LED indicator will stop blinking and remain solid for the selected Bluetooth channel.
- 6. Repeat for the second Bluetooth channel (BT2) if connecting to another device.

Your browser does not support the video tag.

OPERATING INSTRUCTIONS

1. Switching Between Devices

After connecting to multiple devices, you can switch between them by briefly pressing the 2.4G / BT1 / BT2 Connect button (6). The LED indicator (5) will change to reflect the active connection mode (2.4G, BT1, or BT2).

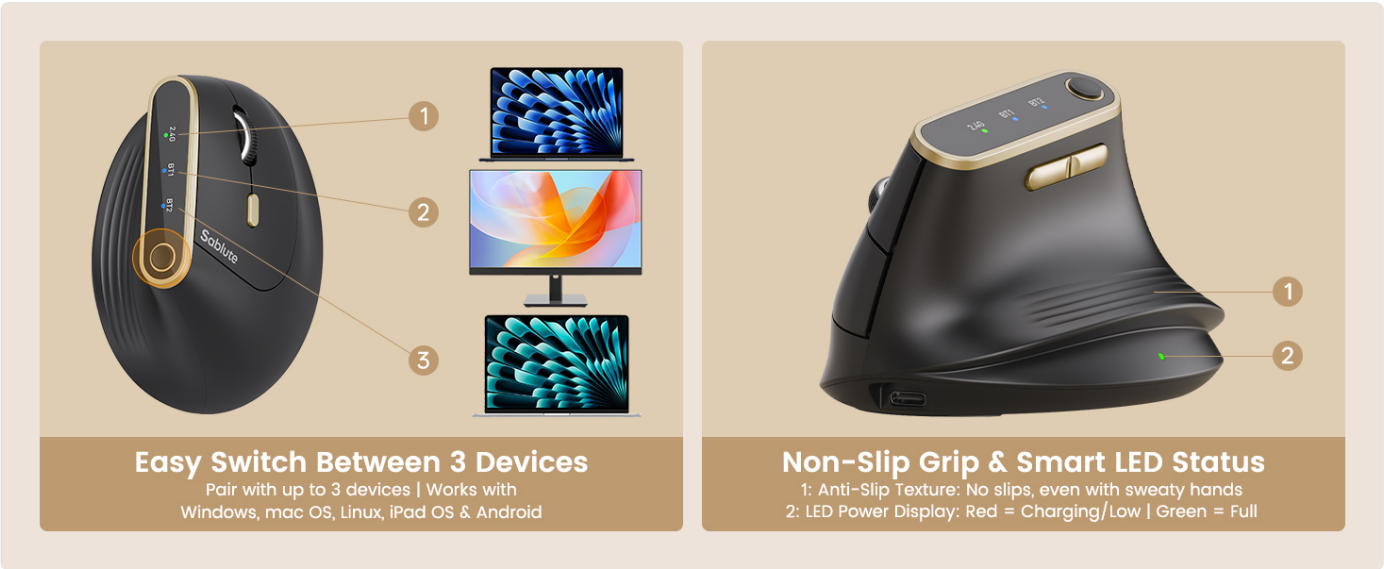

Image: Illustration of the mouse's ability to switch between three connected devices (2.4G, BT1, BT2).

2. Adjusting DPI Sensitivity

The mouse features 6 adjustable DPI levels: 800, 1200, 1600, 2400, 3200, and 4000 DPI. Press the DPI button (4) to

cycle through these settings. Each DPI setting has a different LED color indicator for quick identification. For Windows users, software allows customization up to 8000 DPI.

CUSTOMIZATION (WINDOWS ONLY)

To customize the 6 programmable buttons and further adjust DPI settings up to 8000 DPI, you need to download and install the SABLUTE software. This software is compatible with Windows operating systems only.

1. Visit the official SABLUTE driver download page:sablute.com/pages/driver.
2. Find the software for the MAM4 model and download it.
3. Install the software on your Windows computer.
4. Launch the software to access button mapping, macro editor, DPI settings, polling rate, and other configurations.

POWER MANAGEMENT

The SABLUTE MAM4 mouse is equipped with an 800mAh rechargeable battery, providing approximately 30 days of use per charge (based on 8 hours/day usage). It features a USB-C charging port for convenience.

- **Charging Time:** Approximately 3 hours for a full charge.
- **Auto Sleep:** The mouse will enter an auto-sleep mode after 60 seconds of inactivity to conserve battery. Move the mouse or click a button to wake it up.
- **Power Switch:** Use the power switch (11) on the bottom of the mouse to turn it off completely when not in use for extended periods, further saving battery.

MAINTENANCE

To ensure the longevity and optimal performance of your SABLUTE MAM4 mouse, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the mouse. For stubborn dirt, a slightly damp cloth can be used, but ensure no moisture enters the device. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** When not in use, store the USB receiver in its designated slot on the bottom of the mouse to prevent loss.
- **Battery Care:** Avoid fully discharging the battery frequently. Charge the mouse when the low battery indicator appears.
- **Environment:** Do not expose the mouse to extreme temperatures, direct sunlight, or high humidity.

TROUBLESHOOTING

Mouse Not Responding

- Ensure the mouse is turned on using the power switch (11).
- Check the battery level. If low, charge the mouse using the USB-C cable.
- For 2.4GHz connection: Ensure the USB receiver is securely plugged into your computer and the mouse is set to 2.4G mode. Try a different USB port.
- For Bluetooth connection: Ensure Bluetooth is enabled on your device and the mouse is correctly paired to the selected BT1 or BT2 channel. Try re-pairing the mouse.
- Try restarting your computer or device.

Cursor Movement is Erratic or Slow

- Adjust the DPI sensitivity using the DPI button (4) to a level suitable for your screen and task.
- Ensure the mouse sensor on the bottom is clean and free from obstructions.
- Use the mouse on a clean, non-reflective surface. The mouse is designed for ultra-smooth performance on various surfaces like wood, leather, marble, and paper.

Image: The SABLUTE MAM4 mouse demonstrating smooth operation on different surface materials.

Buttons Not Functioning as Expected

- If you have customized buttons using the SABLUTE software, ensure the software is running and the correct profile is active.
- Reset the mouse to factory settings if customization issues persist (refer to software instructions or contact support).
