Try a different USB port. ◦ Move the devices closer to the USB receiver to rule out range issues. ◦ Restart your computer.
Lag or intermittent connection	◦ Reduce distance between devices and receiver. ◦ Remove any large metal objects or electronic devices that might cause interference. ◦ Ensure the USB receiver is not plugged into a USB hub or extension cable, try direct connection.
Mouse cursor moves erratically	◦ Clean the optical sensor on the underside of the mouse. ◦ Use the mouse on a clean, non-reflective surface or a mouse pad. ◦ Adjust the DPI setting to a lower value if the cursor is too sensitive.
