Maintenance

Proper care and maintenance will extend the life and appearance of your Mjkone Modular Sectional Sofa.

Fabric Care (Corduroy):

- **Regular Cleaning:** Vacuum the sofa regularly using a soft brush attachment to remove dust and debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Avoid rubbing, which can spread the stain. For stubborn stains, use a mild fabric cleaner specifically designed for corduroy, testing on an inconspicuous area first.
- **Removable Covers:** The sofa features removable back cushions and neck pillow covers. Refer to the care label on the covers for specific washing instructions. Typically, gentle machine wash with cold water and air dry is recommended.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading. Position your sofa away from

direct sun or use curtains/blinds.

Troubleshooting

This section addresses common questions and issues you might encounter with your modular sectional sofa.

Common Issues:

- **Cushions Not Fully Expanded:** If cushions appear flat or not fully plump after unpacking, ensure they have been given the recommended 2-3 days (72 hours) to fully expand. Gently patting and fluffing the cushions can help accelerate this process.
- **Slight Odor After Unpacking:** A new product may have a slight odor from packaging materials. This is normal and will dissipate within a few days in a well-ventilated room.
- **Modular Pieces Shifting:** If the modular pieces tend to shift on smooth floors, consider placing a non-slip rug pad underneath the sofa or using furniture connectors (not included) to secure the modules together.

If you experience any issues not covered here, please refer to the support information provided in this manual.
