Pecute PRL-8M05

Pecute Retractable Dog Leash with LED Flashlight (Model PRL-8M05) User Manual

INTRODUCTION

Thank you for choosing the Pecute Retractable Dog Leash with LED Flashlight. This manual provides essential information for the safe and effective use, maintenance, and troubleshooting of your new leash. Please read these instructions carefully before first use and retain them for future reference.

SAFETY INFORMATION

- This leash is designed for dogs weighing up to **110 lbs (50 kg)**. Do not use with dogs exceeding this weight limit.
- Always ensure the leash is securely attached to your dog's collar or harness before use.
- Inspect the leash and all components for wear or damage before each walk. Discontinue use if any damage is observed.
- Do not allow the leash cord to wrap around any body part, as this can cause injury.
- Maintain a safe distance from other pedestrians, animals, and vehicles.
- Avoid sudden stops or jerks, which can injure both you and your dog.
- The LED flashlight is for illumination only; do not shine directly into eyes.
- Keep out of reach of children.

PRODUCT OVERVIEW

The Pecute Retractable Dog Leash (Model PRL-8M05) is a heavy-duty leash designed for medium to large dogs, featuring a built-in rechargeable LED flashlight for enhanced visibility during nighttime walks. Its robust construction and ergonomic design ensure comfort and control.

Key Features:

- **Built-in Rechargeable LED Light:** Improves visibility for safer walks in low-light conditions.
- **Extra-Strong Retractable System:** Features a reinforced 304 stainless steel spring coil for smooth and reliable retraction, tested for over 50,000 retraction cycles.
- **360° Anti-Twist Protection:** Designed with a U-shaped exit and 360° rust-proof swivel clip to prevent tangles and jams.

- **Heavy-Duty Build & Comfortable Grip:** Constructed with tough ABS housing and an ergonomic anti-slip handle to reduce hand fatigue.
- **Extended Length:** Provides up to 26.2 feet (8 meters) of leash length, offering freedom while maintaining control.

SHOCK RESISTANT ABS PLASTIC

SETUP

1. Charging the LED Flashlight:

The built-in LED flashlight requires charging before first use. Locate the USB charging port on the leash handle. Connect the provided USB cable to the port and to a suitable USB power source (e.g., computer, wall adapter). The indicator light will show charging status and turn off when fully charged. A full charge provides approximately 3 hours of continuous lighting.

2. Attaching the Leash:

Attach the metal snap hook at the end of the leash cord securely to your dog's collar or harness D-ring. Ensure the connection is firm before walking.

OPERATING INSTRUCTIONS

1. Leash Control (One-Button Operation):

The leash features a single button for controlling the leash length:

- **To Extend:** Allow your dog to walk forward, and the leash will smoothly extend.
- **To Brake:** Press and hold the large button with your thumb to temporarily stop the leash from extending further.
- **To Lock:** Push the button forward to lock the leash at a desired length. Pull the button back to release the lock.

2. Using the LED Flashlight:

Press the small button located near the flashlight on the handle to turn the LED light on or off. This light provides illumination for your path and helps you spot your dog in the dark.

MAINTENANCE

- **Cleaning:** Wipe the leash handle with a damp cloth and mild soap. Do not immerse the handle in water. The leash cord can be gently cleaned with a damp cloth. Ensure all parts are dry before storing.
- **Storage:** Store the leash in a dry place away from direct sunlight and extreme temperatures. Ensure the leash cord is fully retracted before storage.
- **Battery Care:** Recharge the LED flashlight regularly, even if not frequently used, to maintain battery health. Avoid fully depleting the battery for extended periods.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Leash not retracting smoothly or jamming.	Dirt or debris in the retraction mechanism; leash cord twisted or damaged.	Ensure the leash cord is clean and untwisted. Gently pull the leash out fully and allow it to retract slowly. If the issue persists, inspect for visible damage.
LED flashlight not turning on.	Battery is depleted; flashlight button malfunction.	Recharge the flashlight battery using the provided USB cable. If the light still does not turn on after charging, contact customer support.
Leash feels heavy or uncomfortable.	User preference; prolonged use.	The leash is designed for durability and may have a substantial feel. Ensure proper grip and take breaks during long walks if needed.
