Lumisky BAY W160 SOLAR

Lumisky BAY W160 SOLAR LED Floor Lamp User Manual

Model: BAY W160 SOLAR
Brand: Lumisky

Introduction

The Lumisky BAY W160 SOLAR LED Floor Lamp is a versatile lighting solution designed for both indoor and outdoor environments. This lamp features a modern design, dual charging capabilities (solar and cable), and adjustable cold or warm white LED lighting, all controllable via an included remote. Its IP44 rating ensures resistance to splashes and UV, making it a durable and practical addition to any space.
Please read this manual carefully before using the product to ensure proper operation and longevity.

1. Setup

1.1 Unpacking and Contents

Carefully remove all components from the packaging. Verify that all items listed below are present:

- Lumisky BAY W160 SOLAR LED Floor Lamp (Shade and Base)
- Rechargeable Battery (integrated)
- Remote Control
- User Manual

1.2 Assembly

The BAY W160 SOLAR lamp is designed for freestanding installation. No complex assembly is required. Simply ensure the lamp is placed on a stable, flat surface.

1.3 Initial Charging

Before first use, fully charge the lamp. The lamp offers two charging methods:

- **Solar Charging:** Place the lamp in direct sunlight. The integrated solar panel will charge the battery. A full solar charge provides 8 to 12 hours of illumination.

- **Cable Charging:** Connect the provided charging cable to the lamp and a suitable power source.

Ensure the lamp is fully charged for optimal performance, especially for initial use.

1.4 Placement

The BAY W160 SOLAR lamp is suitable for both indoor and outdoor use due to its IP44 rating. When placing outdoors, ensure the solar panel receives adequate direct sunlight for efficient charging. Avoid placing it in shaded areas if relying solely on solar power.

Image 1: The Lumisky BAY W160 SOLAR LED Floor Lamp positioned in a garden, demonstrating its suitability for outdoor environments. The lamp emits a soft glow, complementing the surrounding foliage and stone path.

2. Operating Instructions

2.1 Power On/Off

Use the remote control to turn the lamp on or off. Point the remote towards the lamp and press the power button.

2.2 Adjusting Light Color and Brightness

The lamp offers customizable lighting with options for cold white or warm white light. Use the dedicated buttons on the remote control to switch between these color temperatures. The remote may also include buttons for adjusting brightness levels, allowing you to create a desired ambiance.

2.3 Charging the Lamp

The lamp can be charged via its integrated solar panel or by cable. For solar charging, ensure the lamp is exposed to direct sunlight. For cable charging, connect the appropriate cable to the lamp's charging port and a power outlet. The lamp is designed to provide 8 to 12 hours of illumination on a full charge.

3. Maintenance

3.1 Cleaning

To clean the lamp, use a soft, damp cloth. Avoid abrasive cleaners or solvents that could damage the polyethylene material or the solar panel. For outdoor use, periodically wipe the solar panel to ensure it remains free of dust and debris, which can affect charging efficiency.

3.2 Battery Care

The lamp contains an integrated rechargeable battery. To prolong battery life, avoid completely draining the battery frequently. If storing the lamp for an extended period, ensure it is fully charged before storage and recharge it every few months.

4. Troubleshooting

Problem	Possible Cause	Solution
Lamp does not turn on.	Battery is depleted.	Charge the lamp fully using either solar power or the charging cable.
Lamp does not charge via solar panel.	Insufficient sunlight or dirty solar panel.	Relocate the lamp to an area with direct sunlight. Clean the solar panel surface.
Remote control is not working.	Remote battery depleted or obstruction.	Replace the remote control battery. Ensure there are no obstructions between the remote and the lamp.
Light output is dim.	Low battery charge.	Charge the lamp fully.

5. Specifications

Model Number	BAY W160 SOLAR
Brand	Lumisky
Dimensions (P x L x H)	33P x 33l x 160H centimeters
Weight	6 Kilograms
Light Source Type	LED

Light Color Temperature	Cold White / Warm White (Adjustable)
Luminous Flux	Less than 100 lumens
Charging Type	Solar Powered / Cable Charging
Autonomy (Full Charge)	8 to 12 hours
Control Method	Remote Control
IP Rating	IP44 (Splash resistant)
UV Resistance	Yes
Material	Polyethylene
Usage	Indoor / Outdoor
Energy Label	A

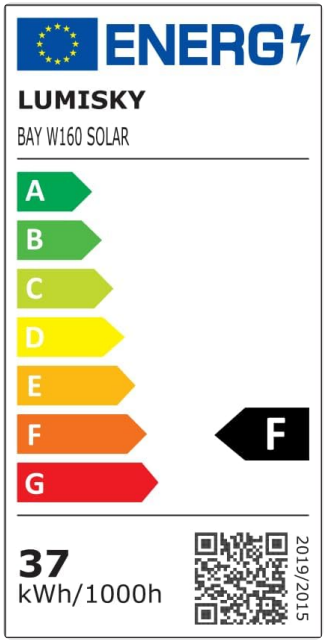

Image 2: The EU Energy Label for the Lumisky BAY W160 SOLAR, indicating an energy efficiency class of F and an energy consumption of 37 kWh per 1000 hours. For more details, scan the QR code or visit eprel.ec.europa.eu/qr/2562433.

6. Warranty Information

Specific warranty terms and conditions may vary by region and retailer. Please retain your proof of purchase. For detailed warranty information, refer to the documentation provided at the time of purchase or visit the official Lumisky website.

7. Support

If you encounter any issues not covered in the troubleshooting section or require further assistance, please contact Lumisky customer support or your retailer. You can often find contact information on the official Lumisky website or on your purchase receipt.
