KYBOLT 10x10 Ft Hardtop Gazebo Instruction Manual

Model: KY9DAX 1010-G 0129

1. INTRODUCTION

Thank you for choosing the KYBOLT 10x10 Ft Hardtop Gazebo. This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your new gazebo. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

2. SAFETY INFORMATION

Important Safety Precautions:

- This gazebo with a metal roof can handle snow loads of up to approximately 15 lbs per square foot. For its long-term durability, keep the roof snow under 10 inches. We advise clearing heavy snow accumulation in a timely manner.
- The structure provides basic wind resistance. Use under Beaufort Level 10 only. For enhanced safety in windy conditions, we strongly recommend using additional securing methods such as sandbags, concrete footings, or guy ropes.
- Ensure all parts are securely fastened during assembly and periodically check for loose connections.
- Keep children and pets away from the assembly area to prevent injury.
- Do not climb on the gazebo structure.

3. PACKAGE CONTENTS

Your KYBOLT 10x10 Ft Hardtop Gazebo is typically delivered in three separate cartons. Please ensure all packages have arrived before beginning assembly. Carefully unpack all components and verify against the parts list provided in your separate assembly guide. If any parts are missing or damaged, please contact customer support immediately.

PACKED INTO 3 CARTONS

4. SETUP AND ASSEMBLY

Assembly of the KYBOLT Hardtop Gazebo requires patience and attention to detail. We recommend that 3-5 people work together for assembly, which typically takes approximately 4-6 hours. Follow the detailed instructions and diagrams in the separate assembly guide provided with your product.

Key Assembly Points:

- **Foundation:** The sturdy aluminum frame includes holes and ground stakes at the feet. It requires the installation of ground nails or expansion screws to reinforce the pavilion for increased stability. Ensure the chosen location is level and clear of obstructions.
- **Roof Panels:** The galvanized iron sheet roof panels are designed for durability. Pay close attention to the directional pictures for starting points and overlap of each panel to ensure proper drainage and weather resistance.
- **Curtains and Nettings:** The dual-track system for the netting and side curtains allows for smooth operation. Install these according to the guide for optimal privacy and insect protection.

5. OPERATING INSTRUCTIONS

Your gazebo is designed for comfort and versatility.

- **Double Roof Design:** The double-roof design allows for better ventilation and cooling, reducing wind stress and maintaining a comfortable environment.

- **Nettings and Curtains:** The fully enclosed design with double-sided zippers and a dual-track system allows for easy opening and closing of both the insect netting and privacy curtains. Use the netting to keep bugs out while allowing airflow, and the curtains for increased privacy and sun protection.
- **Accessory Hooks:** Hooks on the roof allow for hanging lights and fans, enhancing the gazebo's functionality.

6. MAINTENANCE

Regular maintenance will extend the lifespan and appearance of your gazebo.

- **Cleaning:** Clean the metal frame and roof panels with a mild soap solution and water. Rinse thoroughly and dry to prevent water spots. The curtains and nettings can be spot cleaned or removed for gentle washing as per their care labels.

- **Snow Removal:** During winter, clear heavy snow accumulation from the roof promptly. Do not allow snow to exceed 10 inches to prevent structural damage. The roof is designed to handle up to 15 lbs per square foot.
- **Drainage System:** The roof is designed with leak holes for efficient rainwater drainage. Periodically check these for any blockages and clear them to ensure proper function.
- **Fasteners:** Periodically inspect all bolts and screws to ensure they remain tight. Tighten any loose fasteners to maintain structural integrity.

7. TROUBLESHOOTING

This section addresses common issues you might encounter.

Problem	Possible Cause	Solution
Missing or Damaged Parts	Shipping damage, packaging error.	Do not proceed with assembly. Contact KYBOLT customer support with your purchase details and a list of affected parts.
Difficulty during Assembly	Incorrect part orientation, insufficient personnel, unclear instructions.	Review the assembly guide carefully. Ensure parts are oriented correctly. Seek assistance from 3-5 people. Take breaks if frustrated.
Gazebo feels unstable	Uneven ground, insufficient anchoring.	Ensure the ground is level. Install ground nails or expansion screws through the base plates. Consider additional securing methods like sandbags or concrete footings, especially in windy areas.
Water leakage from roof	Improper roof panel installation, blocked drainage holes.	Verify roof panels are correctly overlapped and sealed as per assembly instructions. Clear any debris from the roof's drainage holes.

8. SPECIFICATIONS

Feature	Detail
Brand	KYBOLT
Model Number	KY9DAX 1010-G 0129
Product Dimensions (L x W x H)	120"L x 120"W x 112.5"H (10'L x 10'W x 9.375'H)
Floor Area	100 square feet
Item Weight	68 pounds
Frame Material	Powder-coated Aluminum
Roof Material	Galvanized Iron Sheet (Hardtop)
Water Resistance Level	Waterproof
Ultraviolet Light Protection	Yes
Color	Gray
