3.2 Practical Applications

The ORGBRO DX1 is ideal for:

- Home organization (spice jars, food containers, storage boxes)
- Office organization (file folders, cables, stationery)

- School supplies and personal item identification
- Small business pricing and product labeling

Thermal Printing Technology

This label maker uses monochrome printing, producing only black text.

Various applications of the ORGBRO DX1 Label Maker in different settings.

4. MAINTENANCE

The ORGBRO DX1 Label Maker uses inkless thermal technology, which significantly reduces maintenance

requirements. There is no need to replace ink cartridges or ribbons.

4.1 Cleaning the Print Head

To ensure optimal print quality, occasionally clean the thermal print head. Use a soft, lint-free cloth lightly dampened with isopropyl alcohol. Gently wipe the print head surface. Allow it to dry completely before closing the cover and resuming use.

4.2 Battery Care

The device is equipped with a 2000mAh rechargeable battery. For best battery life, avoid fully discharging the battery frequently and store the device in a cool, dry place when not in use for extended periods. Charge using the provided Type-C cable.

5. TROUBLESHOOTING

5.1 Common Issues and Solutions

- **Printer not connecting via Bluetooth:** Ensure Bluetooth is enabled on your phone and connect through the XEasyLabel app, not directly through phone settings. Restart both the printer and your phone if issues persist.
- **Poor print quality:** Check if the label tape is loaded correctly with the print side up. Clean the print head as described in the Maintenance section. Adjust the print density setting within the XEasyLabel app.
- **Labels not feeding correctly:** Ensure the label roll is properly seated and the tape is not jammed. Double-press the power button to calibrate the label.
- **Device not turning on:** Ensure the battery is charged. Connect the Type-C charging cable and allow it to charge for a while before attempting to power on again.
