Lamicall GCRP04-JP-BK

Lamicall Adjustable Neck/Shoulder Smartphone Strap (Model GCRP04-JP-BK)

Instruction Manual

1. Product Overview

The Lamicall Adjustable Neck/Shoulder Smartphone Strap is designed to provide a secure and convenient way to carry your smartphone, preventing drops, theft, and loss. It allows for hands-free operation, making it ideal for various activities such as travel, camping, walking, commuting, and taking selfies. The strap can be worn around the neck or across the shoulder, offering versatility in style and use. It is also suitable for attaching charms, wireless earphones, keys, USB drives, ID card holders, and card cases.

Package Contents:

- Smartphone Strap x 1
- Strap Holder x 2

Image 1.1: Lamicall Smartphone Strap and Holder. This image displays the complete product, including the adjustable strap and the stainless steel strap holder, ready for installation with a smartphone case.

2. Setup and Installation

This strap system is compatible with most smartphone cases that have a charging port opening. It is not compatible with cases where the charging port width is less than 4cm or cases with a charging port cover. It is also not compatible with iPhone Air or iFace cases.

1. **Prepare your phone case:** Ensure your phone case has an open charging port that is at least 4cm wide.
2. **Insert the strap holder:** Take one of the provided strap holders. The holder has a distinct concave side. Place the concave side facing towards your smartphone. Insert the thin tab of the strap holder through the charging port opening of your phone case.
3. **Position the holder:** Once the tab is through the charging port, ensure the main part of the strap holder lies flat between your phone and the case. The ultra-thin 0.2mm design ensures minimal bulk and a comfortable fit without interfering with your phone.

4. **Attach the strap:** Connect the metal carabiner of the strap to the loop of the strap holder that protrudes from the charging port. The carabiner features a smooth, wide opening for easy attachment, even for users with larger hands or long nails.
5. **Apply scratch prevention stickers:** For added protection, transparent scratch-prevention stickers are included. Apply these to the metal parts of the strap holder where it might contact your phone to prevent scratches.

Image 2.1: Installation steps for the Lamicall Smartphone Strap. This image illustrates how to insert the strap holder into a phone case and attach the strap, highlighting the simple, adhesive-free process.

The adhesive-free design allows for easy attachment and removal, making it simple to switch the strap holder between different phone cases.

3. Operating Instructions

The Lamicall smartphone strap offers flexible carrying options and features for enhanced usability.

- **Adjusting Length:** The strap length is adjustable from 52cm to 72cm, accommodating various body heights and preferences. The adjustment mechanism is smooth and secure, ensuring the strap length remains fixed during movement.
- **Wearing Styles:** Easily switch between neck-wearing, shoulder-wearing, and cross-body styles. The 360-degree rotating carabiner prevents the strap from tangling, allowing for quick and effortless changes in orientation.
- **Hands-Free Operation:** With your phone securely attached, you can operate it with one hand without fear of dropping it, even in busy environments or while performing other tasks.
- **Charging Compatibility:** The ultra-thin strap holder is designed not to interfere with your phone's charging port or MagSafe magnetic area. You can charge your phone while the strap holder is installed. If charging issues occur, verify the strap holder is not inserted upside down.

Image 3.1: Lamicall Smartphone Strap in use. This image demonstrates the strap being worn around the neck, showcasing its hands-free convenience.

Image 3.2: Close-up of the 360-degree rotating carabiner. This image highlights the metal carabiner and its rotation feature, which prevents strap tangling and allows for easy orientation changes.

4. Maintenance

To ensure the longevity and optimal performance of your Lamicall Smartphone Strap, follow these maintenance guidelines:

- **Cleaning:** The strap holder is made of stainless steel with a plated finish, making it easy to clean. If it accumulates dust or dirt, simply wipe it with a soft, damp cloth. Avoid abrasive cleaners that could damage the finish.
- **Strap Care:** The strap is made of DTY polyester high-elasticity yarn. For cleaning, hand wash with mild soap and water, then air dry. Avoid machine washing or harsh chemicals to maintain its elasticity and durability.
- **Inspection:** Regularly inspect the metal carabiner and strap holder for any signs of wear, damage, or corrosion. While designed for durability, consistent heavy use may eventually show signs of wear. Replace the product if any critical components appear compromised.
- **Storage:** Store the strap and holder in a clean, dry place when not in use to prevent unnecessary wear or accumulation of dirt.

Image 4.1: Close-up of the strap holder and carabiner. This image emphasizes the high-quality stainless steel construction, which is resistant to corrosion and wear, ensuring long-term use.

5. Troubleshooting

If you encounter any issues with your Lamicall Smartphone Strap, please refer to the following common solutions:

- **Charging Cable Not Fitting:** If your charging cable cannot be inserted while the strap holder is installed, please check if the strap holder is inserted upside down. Ensure the concave side of the holder is facing towards your phone.
- **Strap Holder Not Fitting in Case:** This product is designed for cases with a charging port opening wider than 4cm and without a charging port cover. It is not compatible with iPhone Air or iFace cases. Please ensure your phone case meets these compatibility requirements.
- **Strap Tangling:** The metal carabiner features a 360-degree rotation to minimize tangling. If tangling occurs, gently untwist the strap. Ensure the carabiner is free to rotate.
- **Discomfort on Neck/Shoulder:** The strap is made from soft DTY polyester high-elasticity yarn designed to distribute weight and reduce pressure. If you experience discomfort, try adjusting the strap length to find a more comfortable position.

6. Specifications

Brand	Lamicall
Model Number	GCRP04-JP-BK
Strap Length	Adjustable from 52cm to 72cm
Strap Holder Dimensions	4.5 x 0.6 x 0.02 cm (Length x Width x Thickness)
