Aramox Car Smart LCD Key User Manual

Model: Aramoxcf9sk8t6rz-11

Introduction Features Package
Contents Setup Operation Maintenance Troubleshooting Specifications Support

1. Introduction

The Aramox Car Smart LCD Key (Model Aramoxcf9sk8t6rz-11) is an advanced keyless entry system designed to enhance your vehicle access experience. This smart key features a touch screen display, 5.0 connectivity, and is compatible with vehicles equipped with a one-button start system. It offers convenient functions such as automatic locking and customizable display options.

2. Product Features

- **Smart LCD Key:** Compatible with all one-button start vehicles, providing seamless entry without the need for a

mechanical key.

- **5.0 Connectivity:** Utilizes 5.0 technology for quick and reliable connection, enhancing the overall driving experience.
- **Automatic Locking:** Doors automatically lock when you move away from the car, offering convenience and improved security.
- **Customizable Design:** Allows personalization of the key with custom logos and display themes via a mobile application.
- **Window Lift Feature:** Supports automatic window lift upon locking, provided this feature is enabled and supported by the original car's system.
- **Durable Construction:** Made from zinc alloy material for enhanced durability and a premium feel.
- **IPS TFT Display:** Features a high-quality IPS TFT display with OGS touch screen technology for clear visuals and responsive interaction.

3. Package Contents

Please verify that all items listed below are present in your package:

- 1 x Smart LCD Key
- 1 x User Manual (this document)
- 1 x OBD (On-Board Diagnostics) Module
- 1 x Wiring Harness
- 1 x Charging Cable (USB)

Image 3.1: Package contents. This image shows the Smart LCD Key along with its accessories: a USB charging cable, a wiring harness, and an OBD module.

4. Setup and Installation

The installation of the Aramox Car Smart LCD Key involves both hardware wiring and software configuration. Due to the complexity of integrating with your vehicle's electrical system, professional installation is highly recommended.

4.1. Compatibility Check

This smart key is compatible with vehicles that feature a one-button start system. It is**not suitable** for vehicles that require mechanical keys or insert-type keys for entry or ignition.

4.2. Hardware Installation (Professional Recommended)

1. **Wiring Harness Connection:** The provided wiring harness must be correctly connected to your vehicle's electrical system. This typically involves identifying and connecting to specific wires related to the one-button start system.
2. **OBD Module Installation:** Connect the OBD module to your vehicle's On-Board Diagnostics port. This module facilitates communication between the smart key and the vehicle.
3. **Secure Components:** Ensure all wired connections are secure and components are mounted in a safe location, away from moving parts or excessive heat.

Warning: *Incorrect wiring can cause damage to your vehicle's electrical system. If you are not experienced with automotive electrical work, seek professional assistance.*

4.3. Software Configuration and Pairing

1. **Download Mobile App:** Locate and download the official Aramox Smart Key mobile application from your device's app store.
2. **Connect via 5.0:** Follow the in-app instructions to pair your Smart LCD Key with your smartphone via 5.0.
3. **Vehicle Pairing:** Use the mobile app to pair the Smart LCD Key with your vehicle. This process may involve specific steps outlined in the app or by customer service.
4. **Customization:** Once paired, you can use the app to upload custom car logos or change display themes on your Smart LCD Key.

For detailed operational videos and specific APP software instructions, please consult Aramox customer service.

5. Operating Instructions

Once installed and configured, the Aramox Car Smart LCD Key provides several convenient functions:

5.1. Keyless Entry and Start

- **Proximity Unlock:** As you approach your vehicle with the Smart LCD Key, the doors will automatically unlock.
- **Engine Start:** With the key inside the vehicle, press your car's one-button start to ignite the engine.

Image 5.1: Key in hand. This image shows the Smart LCD Key being held, with the 'Master Control' interface visible on the screen, including lock and unlock functions.

5.2. Automatic Locking

When you exit your vehicle and move a certain distance away, the Smart LCD Key will automatically lock the doors, providing peace of mind and security.

5.3. Touch Screen Interface

- **Lock/Unlock:** Tap the lock or unlock icons on the screen to manually control your vehicle's doors.
- **Vehicle Status:** The display may show basic vehicle status information, such as battery level or car image.
- **Navigation:** Swipe or tap the screen to navigate through different functions or customization options.

Master Control

Image 5.2: Touch screen interface. This close-up shows the 'Master Control' screen with clear icons for locking, unlocking, and a visual representation of the car.

Image 5.3: Side buttons. This image displays the physical power button and an additional lock button located on the side of the key.

5.4. Window Lift Function

If your vehicle's original features support it, the Smart LCD Key can be configured to automatically lift windows upon locking the car. This function needs to be enabled and may require specific settings within the mobile application or vehicle system.

6. Maintenance

- **Charging:** Recharge the Smart LCD Key using the provided USB charging cable when the battery indicator shows low power. Avoid overcharging.
- **Cleaning:** Wipe the screen and body with a soft, dry, lint-free cloth. Do not use abrasive cleaners or solvents.
- **Storage:** Store the key in a cool, dry place away from direct sunlight and extreme temperatures.
- **Water Exposure:** While the key is designed for daily use, avoid submerging it in water or exposing it to heavy rain to prevent damage.

7. Troubleshooting

Problem	Possible Cause	Solution
Key not responding / Screen blank	Low battery; Key is off; Software glitch.	Charge the key. Press and hold the power button to turn it on. If unresponsive, try a soft reset (refer to app or customer service for specific steps).

Problem	Possible Cause	Solution
Cannot unlock/lock car	Key out of range; 5.0 connection issue; Vehicle battery low; Key not paired correctly.	Ensure you are within range of the vehicle. Check 5.0 connection on the key and phone. Verify vehicle battery. Re-pair the key with the vehicle via the mobile app.
Automatic locking not working	Feature disabled; Proximity sensor issue; 5.0 connection unstable.	Check settings in the mobile app to ensure automatic locking is enabled. Ensure a stable 5.0 connection.
Custom logo/theme not updating	App connection issue; Incorrect file format; Software glitch.	Ensure the key is connected to the mobile app. Verify image file format. Restart the app and key, then try again.

8. Specifications
