Garvee 12V Licensed BMW M4 Electric Ride-On Car User Manual

Introduction

Thank you for choosing the Garvee 12V Licensed BMW M4 Electric Ride-On Car. This manual provides essential information for the safe assembly, operation, maintenance, and troubleshooting of your new ride-on vehicle. Please read this manual thoroughly before use and retain it for future reference. This product is designed to provide an enjoyable and safe driving experience for children aged 3 to 6 years.

*Image: Overview of the Garvee BMW M4 ride-on car highlighting key features such as 2*25W motors, 12V 7AH battery, 1-2 hours playtime, suitable for 3-6 years old, and parental remote control.*

Safety Information

Your child's safety is paramount. Always adhere to the following safety guidelines:

- **Adult Supervision Required:** This product must only be used under direct adult supervision.
- **Age and Weight Limits:** Suitable for children aged 3 to 6 years. Do not exceed the maximum weight capacity.
- **Seat Belt Use:** Always ensure the child is securely fastened with the adjustable seat belt before operation.
- **Operating Environment:** Use on flat, dry surfaces such as cement roads, asphalt roads, or short grass. Avoid slopes, uneven terrain, sand, gravel, or near water bodies.
- **Traffic Safety:** Never operate the vehicle on public roads, near moving vehicles, or in areas with pedestrian traffic.
- **Protective Gear:** Encourage children to wear a helmet and other protective gear.
- **Charging:** Only an adult should handle battery charging. Use only the provided charger.

- **Emergency Stop:** Familiarize yourself with the remote control's emergency stop function.

Package Contents

Please check the package contents carefully upon unpacking. If any parts are missing or damaged, contact customer support immediately.

- Garvee 12V Licensed BMW M4 Ride-On Car Body
- 4 Powered Wheels
- Steering Wheel
- Seat
- 12V Rechargeable Battery

- Battery Charger
- 2.4G Parental Remote Control
- Instruction Manual

Setup and Assembly

Assembly should be performed by an adult. Ensure all parts are present and undamaged before beginning.

1. **Unpacking:** Carefully remove all components from the packaging.
2. **Wheel Installation:** Attach the four wheels to the car axles. Ensure they are securely fastened according to the diagrams provided in the separate assembly guide (if applicable).
3. **Steering Wheel Installation:** Connect the steering wheel to the steering column, ensuring any electrical connectors are properly seated. Secure with the provided fasteners.
4. **Seat Installation:** Place the seat onto the car body and secure it using the designated clips or screws.
5. **Battery Connection:** Locate the battery compartment. Connect the battery terminals (red to red, black to black). Ensure connections are firm.
6. **Initial Charge:** Before first use, fully charge the battery for 8-12 hours. Do not overcharge.

Operating Instructions

Charging the Battery

- Connect the charger to the charging port on the vehicle.
- Plug the charger into a standard wall outlet.
- Charge for 8-12 hours for the first charge, and 8-10 hours for subsequent charges. Do not exceed 18 hours.
- Disconnect the charger once charging is complete.

Powering On/Off

- Press the Power Switch button on the dashboard to turn the car on or off.

Driving Modes

The Garvee BMW M4 offers two driving modes:

1. **Child-Operated Mode:** The child controls the car using the steering wheel and foot pedal.
2. **Parental Remote Control Mode:** An adult can safely control the car's movement, steering, and speed using the 2.4G remote control. This mode overrides child input for safety.

Using the Remote Control

- **Pairing:** Follow the instructions in the remote control manual to pair it with the vehicle.
- **Forward/Reverse:** Use the corresponding buttons to move the car forward or backward.
- **Steering:** Use the left/right buttons to steer the car.
- **Speed Selection:** Adjust speed (Low, Medium, High) using the speed button on the remote.
- **Emergency Stop:** Press the 'P' button on the remote to stop the car immediately.

Dashboard Controls

- **Power Switch:** Turns the vehicle on/off.
- **Forward/Reverse Switch:** Selects driving direction.
- **High/Low Speed Switch:** Adjusts the vehicle's speed.
- **Light Button:** Turns LED headlights on/off.
- **Music/Storytelling:** Built-in songs and stories. Use Volume +/- and Story Change buttons.
- **USB Port:** Connect a USB device to play your child's favorite music.

Maintenance

Regular maintenance ensures the longevity and safe operation of your ride-on car.

- **Cleaning:** Wipe the car with a soft, damp cloth. Do not use abrasive cleaners or solvents. Avoid spraying water directly onto electrical components.
- **Battery Care:**
  - Recharge the battery after each use.
  - If storing for extended periods, charge the battery once a month to prevent deep discharge.
  - Do not store the battery in extreme temperatures.
- **Tire Inspection:** Regularly check tires for wear and tear. Ensure they are free from debris.
- **General Inspection:** Periodically check all screws, nuts, and fasteners to ensure they are tight. Inspect electrical

connections for any signs of damage.

- **Storage:** Store the vehicle in a dry, covered area away from direct sunlight and moisture.

Troubleshooting

If you encounter issues, refer to the table below for common problems and solutions.

Problem	Possible Cause	Solution
Car does not move	Battery is low or not connected; Power switch is off; Loose wire connection; Overload protection activated.	Charge the battery; Turn on the power switch; Check all wire connections; Reduce load and restart.
Car moves slowly	Battery is low; Overloaded; Operating on an unsuitable surface; Low speed mode selected.	Charge the battery; Reduce weight; Move to a flat, hard surface; Select high speed mode.
Lights or music not working	Loose wire connection; Battery low; Component malfunction.	Check connections; Charge battery; Contact customer support if issue persists.
Remote control not working	Remote batteries are dead; Remote not paired; Interference.	Replace remote batteries; Re-pair remote control; Move away from other wireless devices.
Charging indicator not working	Charger or battery fault; Loose connection.	Check connections; Test charger with another device if possible; Contact customer support.
