1. SAFETY INSTRUCTIONS

Read all safety warnings and instructions before operating this lawn mower. Failure to follow the warnings and instructions may result in electric shock, fire, and/or serious injury.

General Safety

- Keep the work area clean and well-lit. Cluttered or dark areas invite accidents.
- Do not operate power tools in explosive atmospheres, such as in the presence of flammable liquids, gases, or dust. Power tools create sparks which may ignite the dust or fumes.
- Keep children and bystanders away while operating a power tool. Distractions can cause you to lose control.
- Always wear appropriate personal protective equipment, including eye protection, hearing protection, and sturdy footwear.

Electrical Safety

- Avoid body contact with earthed or grounded surfaces such as pipes, radiators, ranges, and refrigerators. There is an increased risk of electric shock if your body is earthed or grounded.
- Do not expose power tools to rain or wet conditions. Water entering a power tool will increase the risk of electric shock.
- Use only MZK recommended batteries and chargers. Using other batteries or chargers may create a risk of injury and fire.

Personal Safety

- Stay alert, watch what you are doing, and use common sense when operating a power tool. Do not use a power tool while you are tired or under the influence of drugs, alcohol, or medication.
- Dress properly. Do not wear loose clothing or jewelry. Keep your hair and clothing away from moving parts.
- Remove any adjusting key or wrench before turning the power tool on. A wrench or a key left attached to a rotating part of the power tool may result in personal injury.
- Do not overreach. Keep proper footing and balance at all times. This enables better control of the power tool in unexpected situations.

2. PRODUCT OVERVIEW

The MZK 40V (2 x 20V) 13-inch Cordless Electric Lawn Mower is designed for efficient lawn maintenance. It features a brushless motor, adjustable cutting heights, and a lightweight design for ease of use.

Key Components

- Handlebar (Upper and Lower)
- Motor Housing
- Cutting Deck
- Blade
- Grass Catcher (25-liter capacity)
- Height Adjustment Lever
- Battery Compartment
- Safety Key
- Start Button
- Bail Switch
- Wheels

Features

- **Powerful Brushless Motor:** Delivers optimal performance and extended runtime with two 4Ah batteries.
- **13-inch Cutting Width:** Covers more ground efficiently.
- **4 Adjustable Cutting Heights:** Ranges from 1.5 inches (3.81 cm) to 2.8 inches (7.11 cm).
- **Lightweight Design:** Weighs approximately 24.3 pounds for easy maneuverability.
- **Easy and Safe Startup:** Two-step activation process prevents accidental engagement.

3. ASSEMBLY

The MZK lawn mower requires some assembly before first use. Follow these steps carefully.

Step-by-Step Assembly

1. **Unpack Components:** Carefully remove all parts from the packaging. Verify that all components listed in the packing list are present.
2. **Attach Lower Handlebar:** Secure the lower handlebar to the mower deck using the provided bolts and knobs. Ensure it is firmly attached.
3. **Attach Upper Handlebar:** Connect the upper handlebar to the lower handlebar. Align the holes and secure with the quick-release clamps or bolts.
4. **Install Grass Catcher:** Assemble the grass catcher if necessary (some models come pre-assembled). Hook the grass catcher onto the rear discharge opening of the mower.
5. **Check Blade:** Ensure the blade is securely fastened and free from damage. Refer to the "Maintenance" section for blade inspection.

4. SETUP

Battery Charging and Installation

1. **Charge Batteries:** Insert the two 20V 4Ah batteries into the MZK charger. Plug the charger into a standard electrical outlet. Allow batteries to fully charge before first use (indicator lights on charger will show status).
2. **Install Batteries:** Open the battery compartment cover on the mower. Slide both fully charged batteries into their respective slots until they click into place. Close the battery compartment cover securely.

Adjusting Cutting Height

The mower offers 4 cutting height positions, ranging from 1.5 inches (3.81 cm) to 2.8 inches (7.11 cm).

1. Ensure the mower is turned off and the safety key is removed.
2. Locate the height adjustment lever on the side of the mower deck.
3. Pull the lever outwards and move it forward or backward to select the desired cutting height.
4. Release the lever to lock it into position. Ensure all wheels are at the same height setting.

5. OPERATION

Always ensure the area to be mowed is clear of debris, stones, and other objects that could be thrown by the blade.

Starting the Mower (Two-Step Activation)

1. **Insert Safety Key:** Insert the safety key into its slot in the battery compartment.
2. **Press Start Button:** Press and hold the start button located on the handlebar.
3. **Engage Bail Switch:** While holding the start button, pull the bail switch (handlebar lever) towards the handlebar. The motor will start.
4. **Release Start Button:** Once the motor is running, you can release the start button, but continue to hold the bail switch to keep the mower operating.

Mowing Techniques

- For best results, mow when the grass is dry.
- Overlap cutting swaths slightly to ensure an even cut.
- Avoid cutting more than one-third of the grass blade length at a time.
- Mow in straight lines, turning at the end of each pass.
- If the grass is very tall, consider raising the cutting height for the first pass and then lowering it for a second pass.

Figure 5: Illustrative diagram demonstrating effective mowing patterns. (Image not provided, illustrative placeholder)

Stopping the Mower

To stop the mower, simply release the bail switch. The blade will stop rotating within a few seconds.

Always remove the safety key and batteries when leaving the mower unattended, performing maintenance, or clearing blockages.

6. MAINTENANCE

Regular maintenance ensures optimal performance and extends the life of your lawn mower. Always remove the safety key and batteries before performing any maintenance.

Cleaning

- After each use, clean the underside of the mower deck to prevent grass buildup. Use a brush or scraper.
- Wipe down the exterior of the mower with a damp cloth. Do not use water jets or high-pressure washers.
- Empty the grass catcher regularly.

Blade Care

- Inspect the blade regularly for sharpness and damage. A dull or damaged blade can lead to poor cutting performance and strain the motor.
- If the blade is dull, it can be sharpened by a qualified service technician.
- If the blade is bent, cracked, or severely damaged, it must be replaced with an original MZK replacement blade.
- When handling the blade, always wear heavy-duty gloves.

Figure 6: Illustrative image showing how to inspect the mower blade. (Image not provided, illustrative placeholder)

Storage

- Store the mower in a dry, secure place, out of reach of children.
- Remove the batteries from the mower before storing for extended periods. Store batteries in a cool, dry place.
- The handlebar can be folded for compact storage.

7. TROUBLESHOOTING

Refer to this section for common issues and their solutions.

Problem	Possible Cause	Solution
Mower does not start	Safety key not inserted	Insert safety key fully
	Batteries not charged or improperly installed	Charge and correctly install batteries
	Start button not pressed before bail switch	Follow two-step activation: press start button, then pull bail switch
	Bail switch not engaged	Ensure bail switch is pulled towards handlebar
Poor cutting performance	Dull or damaged blade	Inspect/sharpen/replace blade
	Cutting height too low for grass condition	Increase cutting height
	Grass catcher full	Empty grass catcher
	Wet grass	Mow when grass is dry
Mower stops unexpectedly	Batteries depleted	Recharge batteries
	Overload protection activated (e.g., very thick grass)	Reduce load, raise cutting height, or clear obstruction (after removing safety key and batteries)
	Obstruction in blade area	Remove safety key and batteries, then clear obstruction

8. SPECIFICATIONS

Brand	MZK
Model Number	LM13CA08 / ET1608
Power Source	Battery Powered (2 x 20V)
Battery Type	Lithium-ion (2 x 4Ah recommended)
Cutting Width	13 inches (33 cm)
Cutting Height Adjustment	4 positions (1.5 inches / 3.81 cm to 2.8 inches / 7.11 cm)
Grass Catcher Capacity	25 liters
Item Weight	24.3 pounds (11 kg)
Product Dimensions (D x W x H)	30" x 40" x 15" (76.2 cm x 101.6 cm x 38.1 cm)
Assembly Required	Yes
Average Battery Life (runtime)	Up to 45 minutes (depending on conditions)

9. WARRANTY AND SUPPORT

For warranty information, technical support, or to order replacement parts, please contact MZK customer service.

- **Customer Service:** Refer to the contact information provided with your purchase or visit the official MZK website.
- **Online Resources:** Check the MZK brand store on Amazon or the manufacturer’s website for FAQs and additional support materials.

Note: Specific warranty terms and conditions may vary by region and retailer. Please retain your proof of purchase for warranty claims.
