

## Portronics Tune Prime

# Portronics Tune Prime CarPlay & Android Auto Adapter User Manual

## INTRODUCTION

---

The Portronics Tune Prime is an advanced adapter designed to convert your car's factory-fitted wired CarPlay or Android Auto system into a wireless experience. It allows you to stream entertainment, navigate, and use various apps directly on your car's display, enhancing your in-car connectivity and entertainment options.

## PRODUCT OVERVIEW

---

### Key Features

- **Wireless CarPlay & Android Auto:** Converts wired connections to wireless for seamless smartphone integration.
- **Qualcomm Snapdragon 662 Processor:** Ensures smooth navigation, fast app response, and stable connectivity.
- **4GB RAM & 64GB Storage:** Provides fluid performance and ample space, expandable up to 512GB via Micro SD card.
- **Built-In 4G SIM Slot:** Allows for standalone internet access without relying on a phone hotspot.
- **Direct App Streaming:** Download and use compatible apps like YouTube, Netflix, and JioHotstar directly on your car screen (use only when parked).
- **Seamless Screen Mirroring:** Mirror your smartphone screen to the car display.
- **AI Voice Assistant:** Control functions hands-free using voice commands.
- **Built-in GPS Antenna:** For enhanced and accurate navigation.
- **Wide Compatibility:** Supports iOS 15+ and Android 12+ devices in cars with factory-installed wired CarPlay or Android Auto.

### What's in the Box

- Portronics Tune Prime Adapter (1N)

- Type-C to Female USB-A Connector (1N)
- USB-A to Type-C Cable (1N)
- User Manual (1N)

## SETUP INSTRUCTIONS

---

Before setup, ensure your vehicle has a factory-fitted OEM display with wired Apple CarPlay or Android Auto functionality. The Tune Prime adapter is compatible with iOS 15+ and Android 12+ devices.

1. **Connect the Adapter:** Plug the Portronics Tune Prime adapter into your car's USB port that supports wired CarPlay or Android Auto. Use the provided USB-A to Type-C cable or Type-C to Female USB-A connector as needed for your car's port type.
2. **Power On:** The adapter will power on automatically once connected to the car's USB port.
3. **Initial Pairing:** Follow the on-screen prompts on your car's display to pair your smartphone via Bluetooth for the initial wireless CarPlay or Android Auto connection.
4. **Insert SIM Card (Optional):** If you wish to use standalone internet access, carefully insert a 4G SIM card into the designated SIM slot on the adapter. Ensure the SIM card is inserted correctly.
5. **Insert Micro SD Card (Optional):** For expanded storage, insert a Micro SD card (up to 512GB) into the Micro SD card slot.

The Portronics Tune Prime adapter connected to a car's USB port, ready for use.

## OPERATING INSTRUCTIONS

### Wireless CarPlay & Android Auto

- Once paired, your smartphone will automatically connect wirelessly to the adapter when you start your car.
- Access your familiar CarPlay or Android Auto interface directly on your car's display without cables.

## Android Auto & CarPlay Wireless

iPhone 13 and above with operating system iOS 15 and above

All android phones with operating system Android 12 and above

Works with  
**Apple CarPlay**

Works with  
**Android Auto**

The Portronics Tune Prime adapter provides wireless Android Auto and Apple CarPlay functionality.

### App Streaming & Entertainment

- Download compatible streaming apps like YouTube, Netflix, JioHotstar, and Prime Video from the Play Store directly onto the adapter.
- **Important Safety Note:** Video streaming and app usage should only be done when the vehicle is safely parked. Do not operate video streaming apps while driving.

Download your favourite apps—and many more—from the  Play Store

Stream apps directly in your car

**\*Use only when the vehicle is parked.**

Stream your favorite apps directly on your car's display. Remember to use only when parked.

### Seamless Screen Mirroring

- Mirror your smartphone screen directly onto the car's display for supported apps and content.
- **Important Safety Note:** Do not watch videos or engage in distracting activities via screen mirroring while driving.

# Seamless Screen Mirroring

Mirror your phone to dashboard

\*Do not watch videos while driving.

Mirror your smartphone screen to the car display for enhanced viewing (use responsibly).

## AI Voice Assistant

- Tap the on-screen microphone icon to activate the AI Voice Assistant.
- Use voice commands to control music, make calls, get navigation directions, and manage apps hands-free.

# AI Voice Assistant

Tap the on-screen mic icon to enable voice assistance

**With Built-in GPS Antenna**  
for seamless navigation

Utilize the AI Voice Assistant for hands-free control of various functions.

## Navigation with Built-in GPS

- The built-in GPS antenna provides enhanced signal for smoother and more accurate navigation through apps like Google Maps.

## 4G SIM Slot for Internet Access

- With a SIM card inserted, the adapter can access the internet directly, providing data for streaming, navigation, and app updates without using your phone's hotspot.
- A data-only SIM is recommended for optimal performance.

## 4GB RAM & 64GB ROM

Blazing-fast performance,  
minimum lag

## SIM & Micro SD Card Slot

Standalone internet & storage support, Storage expandable up to 512 GB

The adapter features a SIM slot for standalone internet and a Micro SD card slot for storage expansion.

### Steering Wheel Controls

- The adapter supports your car's original steering wheel controls, allowing you to manage media and calls safely while driving. Compatibility may vary by car model.

<b>Item Weight</b>	181 Grams
<b>Country of Origin</b>	India

## TROUBLESHOOTING

- **No Connection:** Ensure the adapter is securely plugged into the correct USB port (the one that supports wired CarPlay/Android Auto). Restart your car's infotainment system and your smartphone.
- **Intermittent Connection:** Check for any loose cable connections. Ensure your phone's Bluetooth and Wi-Fi are enabled. Try moving your phone closer to the adapter.
- **Apps Not Loading/Lagging:** Verify your internet connection (via SIM or hotspot). Close unnecessary background apps on the adapter. Ensure sufficient storage space is available.
- **SIM Card Not Detected:** Re-insert the SIM card carefully, ensuring it is correctly oriented. Check if the SIM card is active and has a data plan.
- **Screen Mirroring Issues:** Ensure your smartphone and the adapter are on the same Wi-Fi network (if applicable for mirroring). Check your phone's screen mirroring settings.
- **Compatibility Issues:** Confirm your car has factory-fitted wired CarPlay or Android Auto. Ensure your smartphone's operating system is iOS 15+ or Android 12+.

## MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the adapter. Avoid using liquid cleaners or abrasive materials.
- **Storage:** When not in use for extended periods, store the adapter in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Handle the device with care to prevent physical damage. Avoid dropping or subjecting it to strong impacts.

## WARRANTY AND SUPPORT

### Warranty Information

The Portronics Tune Prime adapter comes with a **6-month warranty** from the date of purchase.
