## 2. SAFETY INFORMATION

---

Please read all instructions carefully before assembly and use. Keep this manual for future reference.

- **Assembly:** Ensure all parts are present and undamaged before beginning assembly. Do not use power tools for assembly unless specifically instructed, as this may overtighten screws and damage components.
- **Stability:** Ensure all bolts and screws are securely tightened before using the bed frame. Periodically check and re-tighten fasteners to maintain stability.
- **Weight Capacity:** Do not exceed the recommended weight capacity for the bed frame. Refer to the specifications section for details.
- **Electrical Safety:** The integrated charging station contains electrical components. Do not expose it to liquids. Ensure the power cord is not pinched or damaged. Disconnect power before cleaning or if any electrical issue occurs.
- **Children:** Keep small parts and packaging materials away from children during assembly to prevent choking hazards.
- **Sharp Edges:** Exercise caution around sharp edges during assembly and handling.

### 3. PACKAGE CONTENTS

---

Verify that all components are included in your package. If any parts are missing or damaged, please contact customer support.

### 4. ASSEMBLY INSTRUCTIONS

---

Assembly is designed to be straightforward. It is recommended to assemble the bed frame with two people. Clear step-by-step guidance is provided in the included printed manual. Follow these general steps:

1. **Unpack and Identify Parts:** Lay out all components on a clean, soft surface to prevent scratches. Refer to the parts list to ensure everything is present.
2. **Assemble Headboard:** Attach any necessary support brackets or legs to the headboard as per the detailed instructions.
3. **Attach Side Rails:** Connect the side rails to the headboard using the provided hardware. Do not fully tighten bolts until all major components are connected.
4. **Attach Footboard:** Connect the footboard to the other end of the side rails.
5. **Install Center Support:** Place and secure the center support beam and its legs.
6. **Install Slats:** Lay the metal slats across the frame and secure them according to the instructions. Ensure the memory foam strip is correctly positioned to prevent noise.
7. **Final Tightening:** Once all components are in place, go back and securely tighten all bolts and screws.
8. **Connect Power:** Plug the power adapter for the charging station and LED lights into a wall outlet.

## 6. MAINTENANCE

Proper care will extend the life and appearance of your bed frame.

- **Cleaning the Frame:** Wipe metal and engineered wood surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Cleaning Sherpa Fabric:** For the upholstered headboard, gently spot clean with a mild detergent and a damp cloth. Blot dry. Do not saturate the fabric. Regular vacuuming with an upholstery attachment can help maintain its appearance.
- **Fastener Check:** Periodically (every 3-6 months) check all bolts and screws and re-tighten them if necessary to ensure the bed frame remains stable and noise-free.
- **Electrical Components:** Keep the charging station and LED light components dry and free from dust. Do not attempt to disassemble or repair electrical parts yourself.

## 7. TROUBLESHOOTING

Refer to this section for solutions to common issues.

Problem	Possible Cause	Solution
Bed frame is squeaking or noisy.	Loose fasteners; improper slat placement; missing memory foam strip.	Check and re-tighten all bolts and screws. Ensure slats are correctly seated and the noise-free memory foam strip is in place.
LED lights are not turning on.	Power adapter not plugged in; remote control battery dead; loose connection.	Verify the power adapter is securely plugged into a working outlet. Check remote battery. Ensure all LED connections are firm.
Charging station is not working.	Power adapter not plugged in; device not compatible; faulty cable.	Confirm the bed frame's power adapter is plugged in. Test with a different device and charging cable.

Problem	Possible Cause	Solution
Bed frame feels unstable.	Loose connections; uneven floor.	Re-tighten all assembly hardware. Ensure the bed is on a level surface.
