

LENCENT PA030EU-SURGE

LENCENT Surge Protector Wall Plug Adapter 13,500A

Model: PA030EU-SURGE | Brand: LENCENT

1. INTRODUCTION

The LENCENT Surge Protector Wall Plug Adapter (Model: PA030EU-SURGE) is designed to provide professional-grade protection for your electronic devices against power surges and lightning strikes. Featuring a compact design and robust safety mechanisms, this adapter ensures the longevity and safe operation of your valuable appliances.

2. SAFETY INSTRUCTIONS

- Do not exceed the maximum load of 3600 W / 16 A.
- Do not use in wet environments or near water.
- Do not disassemble or modify the device.
- Ensure the wall socket is properly grounded before use.
- Keep out of reach of children.
- If the LED indicator for protection is off, the surge protection may no longer be active. Replace the unit immediately.

3. PRODUCT FEATURES

- **Professional 13,500 A Surge Protection:** This adapter provides robust protection against lightning and surge impulses, safeguarding high-performance equipment from damage and preventing costly repairs. It includes 1 Schuko socket and 1 EU socket.

Image: LENCENT Surge Protector with lightning effects, illustrating protection against electrical surges.

- **Dual Protection + LED Status Indicator:** The adapter features integrated lightning and overvoltage protection. A permanently lit green LED indicates that the protection is active, providing an immediate visual confirmation of safety.

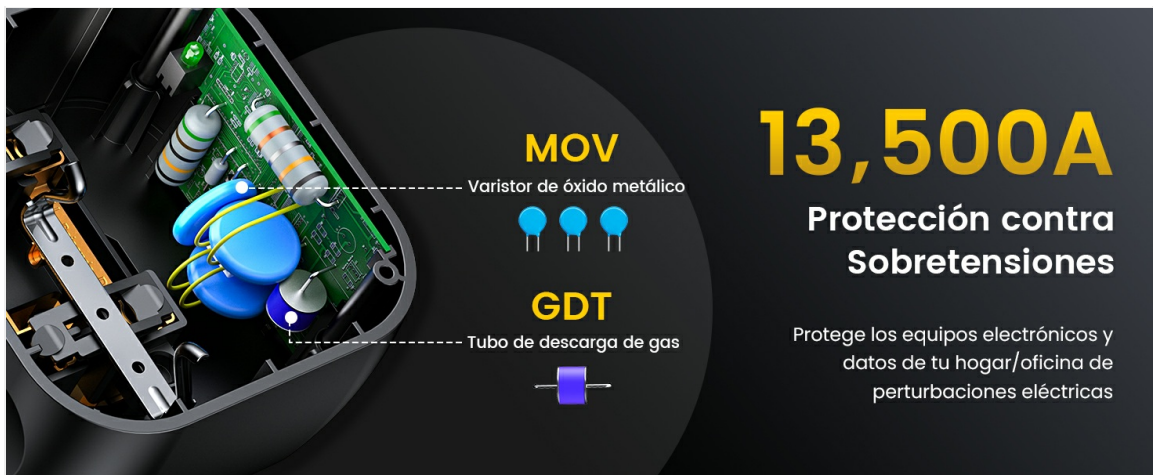

Image: Close-up of the surge protector plugged into a wall, showing the green LED indicator for active protection.

- **Dual Anti-Inflammation Safety System:** Equipped with a temperature-controlled safety support and an anti-flame casing. In the event of unusually high temperatures due to lightning overload or aging, the electrical circuit is interrupted within milliseconds to prevent fire hazards.

4. SETUP

1. Unpack the LENCENT Surge Protector Wall Plug Adapter from its packaging.
2. Locate a standard wall outlet (Schuko or EU type) that is properly grounded.
3. Plug the surge protector firmly into the wall outlet.
4. Observe the green LED indicator on the front of the adapter. If it is lit, the surge protection is active and the unit is ready for use.
5. Plug your electronic devices into the available sockets on the surge protector.

5. OPERATING INSTRUCTIONS

The LENCENT Surge Protector operates automatically once plugged into a live, grounded wall outlet. The green LED indicator confirms that the surge protection is active. Simply plug your devices into the adapter's sockets to provide them with protection. No additional user interaction is required for surge protection functionality.

6. MAINTENANCE

- Disconnect the surge protector from the wall outlet before cleaning.

- Wipe the exterior with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- Regularly inspect the adapter for any signs of damage, such as cracks, frayed wires, or loose connections. If damage is found, discontinue use and replace the unit.
- Ensure the LED indicator remains lit green to confirm active protection.

7. TROUBLESHOOTING

LED Indicator is Off:

If the green LED indicator is not lit when the adapter is plugged into a live wall outlet, it indicates that the surge protection components may have been compromised by a significant power surge or have reached the end of their protective lifespan. In this situation, the adapter will no longer provide surge protection, although it may still function as a basic power adapter. For continued protection, replace the unit immediately.

No Power to Devices:

- Check if the wall outlet is functioning correctly by plugging in another device directly.
- Ensure the surge protector is fully inserted into the wall outlet.
- Verify that the devices plugged into the adapter are switched on and functioning correctly.

8. SPECIFICATIONS

Brand	LENCENT
Model Number	PA030EU-SURGE
Product Dimensions	8 x 7.5 x 0.1 cm
Product Weight	113 Grams
Material	Plastic
Color	Black
Max Current	16 A
Max Power	3600 W
Surge Protection	Up to 13,500 A
Country of Origin	China

9. WARRANTY & SUPPORT

Warranty:

This LENCENT product comes with a **2-year warranty** from the date of purchase. This warranty covers manufacturing defects and malfunctions under normal use. It does not cover damage caused by misuse, accidents, unauthorized modifications, or natural disasters.

Customer Support:

For any questions, technical assistance, or warranty claims, please contact LENCENT customer support through the following channels:

- **Email:** Refer to your product packaging or the official LENCENT website for contact email.
- **Official Website:** Visit [LENCENT's Amazon Store](#) or their official website for support resources.

Please have your model number (PA030EU-SURGE) and proof of purchase ready when contacting support.
