INCLUDED COMPONENTS

Before beginning assembly, please ensure all the following components are present in your package:

- Cabinet Doors (4)
- Key Box (with keys)
- Shelves (3 adjustable)
- User Manual (this document)
- Wheels (detachable, with locking mechanism)
- Assembly Hardware (screws, bolts, etc.)

ASSEMBLY INSTRUCTIONS

Assembly is required for this storage cabinet. Please follow these general steps. Refer to the detailed diagrams in the included paper manual for specific part identification and fastening instructions. It is recommended to have a helper for certain steps.

1. **Unpack and Verify:** Carefully unpack all components and compare them against the included parts list to ensure nothing is missing or damaged.
2. **Assemble Frame:** Begin by assembling the main frame of the cabinet according to the diagrams. Ensure all panels are correctly oriented and securely fastened.

3. **Install Shelves:** Insert the adjustable shelves into the desired positions. The shelf supports can be moved to accommodate different item heights.
4. **Attach Drawer:** Assemble and install the drawer, ensuring the full extension quiet slide mechanism operates smoothly.
5. **Mount Doors:** Attach the cabinet doors, ensuring they align properly and the locking mechanism functions correctly.
6. **Install Wheels (Optional):** If mobility is desired, attach the 360-degree swivel wheels to the base of the cabinet. Ensure the locking casters are functional. If a stationary setup is preferred, the wheels can be omitted.
7. **Secure Anti-Tipping Device:** For safety, secure the anti-tipping device to a wall stud as per the instructions.

OPERATING INSTRUCTIONS

Adjusting Shelves:

The cabinet features adjustable shelves to customize your storage space. To adjust a shelf, remove all items from the shelf. Locate the shelf clips on the interior side panels. Remove the clips, reposition them to the desired height, and then place the shelf back onto the clips, ensuring it is level and secure.

Detachable Wheels & Adjustable Shelves

**There are two ways to use cabinets,
you can choose to use wheels or not use wheels.**

Locking Mechanism:

The cabinet doors and drawer are equipped with a locking mechanism for security. Insert the key into the lock and turn it to secure or unlock the doors/drawer. Always ensure the doors and drawer are fully closed before locking. Keep spare keys in a safe, accessible location.

Using Wheels:

If the wheels are installed, the cabinet can be easily moved. Each wheel is a 360-degree swivel caster with a locking mechanism. To move the cabinet, unlock all wheels. To keep the cabinet stationary, lock all wheels to prevent accidental movement.

MAINTENANCE

- **Cleaning:** Wipe the cabinet surfaces with a soft, damp cloth and a mild detergent. Avoid abrasive cleaners or harsh chemicals that could damage the finish.

- **Inspection:** Periodically check all fasteners and connections to ensure they remain tight. Tighten any loose screws or bolts.
- **Lubrication:** If the drawer slides or door hinges become stiff, apply a small amount of silicone-based lubricant to ensure smooth operation.
- **Rust Prevention:** While the cabinet is designed to be rust-resistant, avoid prolonged exposure to excessive moisture to maintain its longevity.

TROUBLESHOOTING

- **Doors do not close properly:** Check for obstructions. Ensure the cabinet is on a level surface. Verify that all frame connections are tight and the cabinet is square.
- **Drawer is stiff or noisy:** Inspect the drawer slides for any debris. Clean and apply lubricant if necessary. Ensure the drawer is correctly aligned on its tracks.
- **Cabinet wobbles:** Ensure the cabinet is placed on a flat, level surface. If using wheels, ensure all wheels are locked. If not using wheels, check that the adjustable feet (if present) are properly balanced.
- **Keys are lost:** Contact customer service for assistance with replacement keys or lock mechanisms.
