GarveeLife 7-Tier Indoor Plant Stand with LED Grow Lights

Model: rW2H6oFDzGyin1dLiaGbggvO5c7u

Brand: GarveeLife

INTRODUCTION

This manual provides instructions for the assembly, operation, and maintenance of your GarveeLife 7-Tier Indoor Plant Stand with LED Grow Lights. Please read this manual thoroughly before assembly and use to ensure safe and efficient operation. Keep this manual for future reference.

SAFETY INFORMATION

- Ensure all components are securely fastened before placing plants or other items on the stand.
- Do not overload the shelves. Refer to the specifications for weight capacity.
- Keep electrical components (LED lights, power cords) away from water to prevent electric shock.
- Use the provided anti-tipping straps to secure the stand to a wall, especially in households with children or pets.
- Place the stand on a flat, stable surface to prevent tipping.
- Unplug the LED grow lights from the power source before cleaning or performing any maintenance.

PACKAGE CONTENTS

Verify that all parts are present before beginning assembly. If any parts are missing or damaged, contact customer support.

- Metal Frame Components
- Wooden Shelf Boards (7 tiers)
- LED Grow Light Strips with Power Adapter
- Rear Metal Grid
- S-shaped Hanging Hooks (6 pieces)
- Anti-Tipping Strap Kits (2 pieces)
- Assembly Hardware (screws, nuts, Allen wrench)
- Instruction Manual

6 S-shaped Hanging Hooks

5 Tiers Wooden Shelves

2 Anti-Tipping Strap Kits

Sturdy Metal Frame

Image: Key components of the plant stand, including the S-shaped hooks, wooden shelves, anti-tipping straps, and the robust metal frame structure.

SETUP AND ASSEMBLY

Follow these steps carefully for proper assembly. It is recommended to have two people for assembly.

1. **Unpack Components:** Lay out all parts on a clean, soft surface to prevent scratches. Refer to the package contents list to ensure all items are present.
2. **Assemble the Metal Frame:** Connect the vertical and horizontal metal bars using the provided screws and Allen wrench. Do not fully tighten screws until all frame parts are loosely assembled.
3. **Attach Wooden Shelves:** Secure the wooden shelf boards to the metal frame at the designated positions. Ensure they are level and stable. Fully tighten all screws once all shelves are in place.
4. **Install Rear Grid and Hooks:** Attach the metal grid to the back of the upper frame. Insert the S-shaped hooks into the grid as desired for hanging plants or tools.
5. **Install LED Grow Lights:** Affix the LED grow light strips to the underside of the desired shelves. Ensure the cables are neatly routed and secured to avoid entanglement.
6. **Secure with Anti-Tipping Straps:** Position the assembled plant stand in its desired location. Attach the anti-tipping straps to the top rear of the stand and secure them to a wall stud or appropriate anchor point.

Product Dimensions

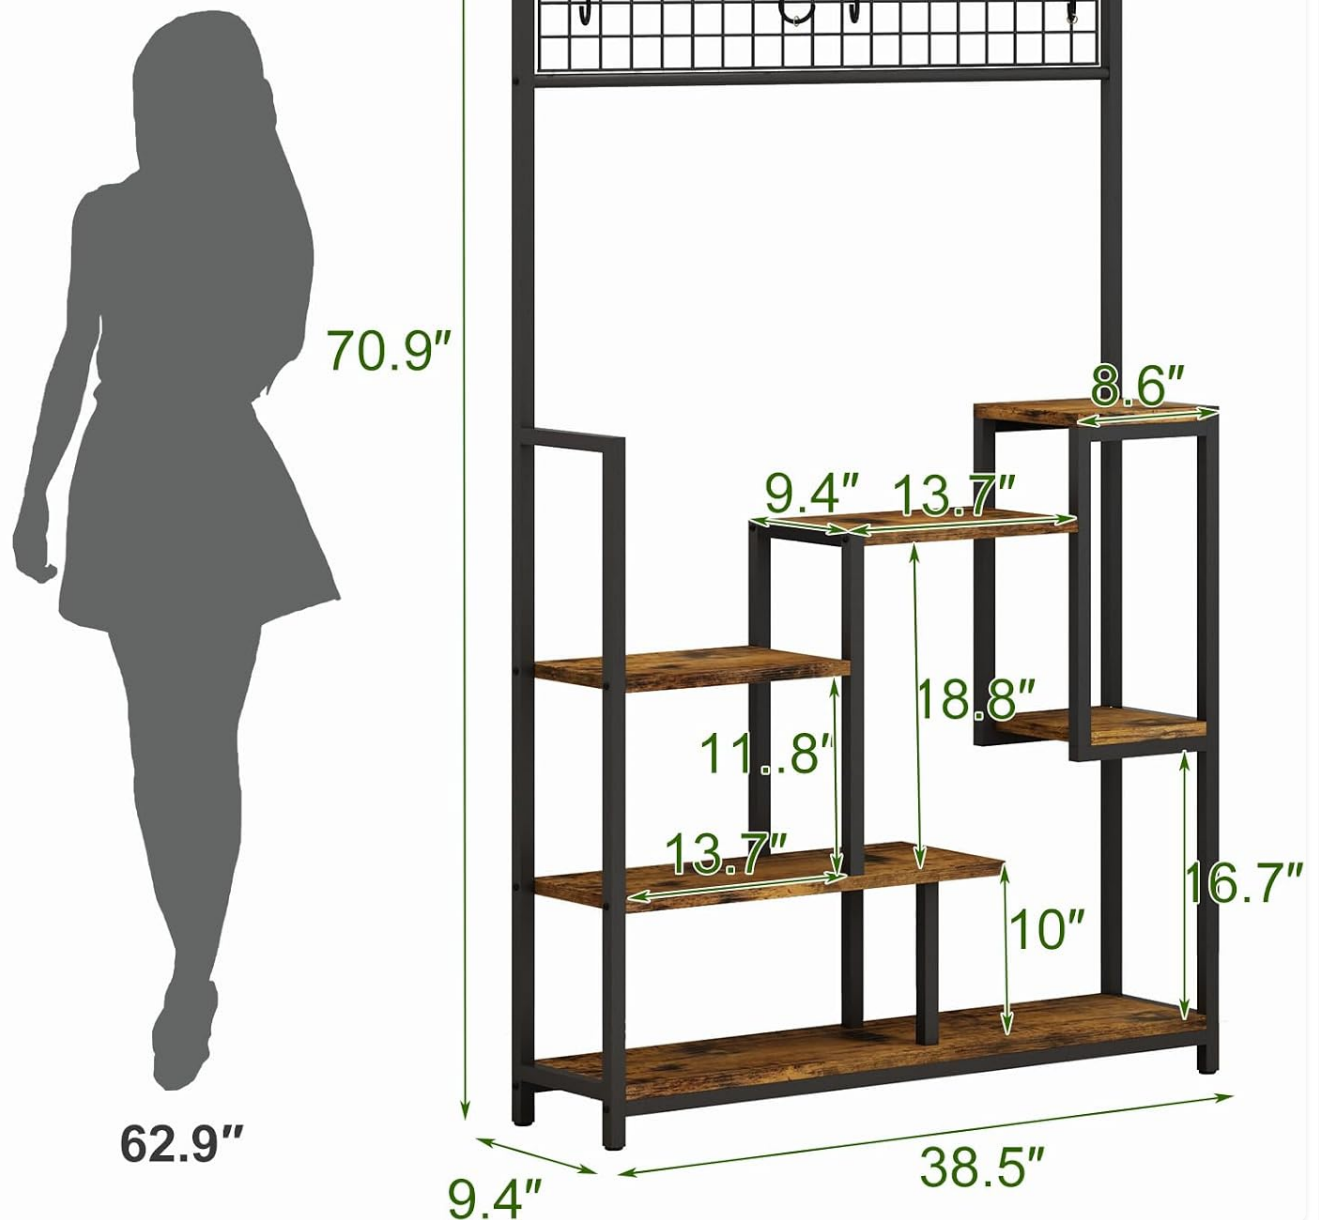

Image: Detailed product dimensions, including overall height, width, depth, and individual shelf measurements, crucial for planning placement and assembly.

OPERATING INSTRUCTIONS FOR LED GROW LIGHTS

The integrated LED grow lights are designed to provide optimal light spectrum for plant growth.

- Power Connection:** Connect the LED grow light power adapter to a standard electrical outlet.
- Power On/Off:** Use the inline controller to turn the lights on or off.
- Brightness Adjustment:** The controller allows for 9 adjustable brightness levels (0% to 100%). Select the appropriate brightness for your plants' needs.
- Timer Function:** The lights feature an auto-off timer with settings for 3, 9, or 12 hours. Press the timer button to cycle through the desired duration. The lights will automatically turn off after the set time and turn on again at the same time the next day.
- Spectrum:** The lights provide a full-spectrum output, simulating natural daylight for healthy plant growth.

MAINTENANCE

- **Cleaning:** Wipe down the metal frame and wooden shelves with a soft, damp cloth. Avoid abrasive cleaners. Ensure the LED lights are unplugged before cleaning.
- **Dusting:** Regularly dust the LED light strips to maintain optimal light output.
- **Tighten Fasteners:** Periodically check and tighten all screws and fasteners to ensure the stand remains stable.
- **Inspect Cables:** Check the power cables for the LED lights for any signs of wear or damage. Replace if necessary.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Stand is wobbly or unstable.	Screws are loose; stand is on an uneven surface; anti-tipping straps not installed.	Tighten all assembly screws. Move the stand to a flat, level surface. Install or re-secure anti-tipping straps to a wall.
LED grow lights do not turn on.	Power adapter not plugged in; power outlet not working; light controller is off; damaged cable.	Ensure the power adapter is securely plugged into a working outlet. Check the inline controller for power. Inspect cables for damage.
Plants are not thriving under LED lights.	Incorrect brightness setting; insufficient light duration; plant-specific needs not met.	Adjust brightness to a higher level. Increase timer duration (e.g., from 3H to 9H or 12H). Research specific light requirements for your plant species.

SPECIFICATIONS

- Model Number:** rW2H6oFDzGyin1dLiaGbggvO5c7u
- Brand:** GarveeLife
- Dimensions (L x W x H):** 78 x 24 x 180 cm (approximately 30.7 x 9.4 x 70.9 inches)
- Weight:** 16.02 kg (approximately 35.3 lbs)
- Material:** Wood and Metal
- Color:** Brown
- Number of Tiers:** 7
- LED Grow Lights:** Full-spectrum, 3-headed, 9 adjustable brightness levels, 3/9/12H auto-off timer.
- Included Accessories:** Rear metal grid, 6 S-shaped hooks, 2 anti-tipping strap kits.
