Garvee 9000 BTU Portable Air Conditioner

Garvee 9000 BTU Portable Air Conditioner User Manual

Model: 9000 BTU Portable Air Conditioner | Brand: Garvee

1. INTRODUCTION

Thank you for choosing the Garvee 9000 BTU Portable Air Conditioner. This appliance is designed to provide efficient cooling, dehumidification, and ventilation for rooms up to 26 square meters. With its 3-in-1 functionality, quiet operation, and user-friendly controls, it offers a comfortable indoor environment. Please read this manual thoroughly before operating the unit to ensure proper use, maintenance, and safety.

2. SAFETY INSTRUCTIONS

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, or injury.

- Ensure the power supply matches the voltage specified on the unit's rating label.
- Do not operate the unit with a damaged cord or plug.
- Keep the air intake and exhaust vents clear of obstructions.
- Do not insert objects into the air vents.
- Always unplug the unit before cleaning or servicing.
- Do not use the unit in wet areas or near water.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons to avoid a hazard.

3. PRODUCT OVERVIEW

3.1 Key Features

- **3-in-1 Functionality:** Cooling, Dehumidification, and Fan modes.

- **High Cooling Capacity:** 9000 BTU for effective cooling of areas up to 26 m².
- **Quiet Operation:** Noise level of ≤52 dB for minimal disturbance.
- **Dual Tube Technology:** Enhances cooling efficiency and reduces energy consumption.
- **24-Hour Timer:** Program the unit to turn on or off automatically.
- **Remote Control:** Conveniently adjust settings from a distance.
- **Sleep Mode:** Optimized settings for comfortable nighttime operation.
- **Portable Design:** Equipped with wheels for easy movement between rooms.

3.2 Components

The Garvee Portable Air Conditioner package includes:

- Main Air Conditioner Unit
- Exhaust Hose
- Window Sealing Kit
- Remote Control
- User Manual

The Garvee 9000 BTU Portable Air Conditioner, a compact white unit with a sleek design, featuring a top control panel and air vents. Equipped with wheels for easy mobility.

SYSTÈME D'OPÉRATION 3 EN 1

Illustration of the Garvee portable air conditioner demonstrating its three operational modes: Cooling (16-31°C), Dehumidification (35L/day), and Fan (Low/High speeds). Each mode is depicted with visual cues like snowflakes for cooling, water droplets for dehumidification, and air movement for fan.

4. SETUP

Follow these steps for proper installation of your portable air conditioner:

1. **Positioning:** Place the unit on a flat, stable surface, ensuring at least 30 cm (12 inches) of space around the unit for proper airflow.
2. **Attach Exhaust Hose:** Connect one end of the exhaust hose to the air conditioner's exhaust outlet.
3. **Install Window Kit:** Adjust the window sealing kit to fit your window opening. Secure it in place.
4. **Connect Hose to Window Kit:** Attach the other end of the exhaust hose to the opening in the window sealing kit. Ensure a tight seal to prevent hot air from re-entering the room.
5. **Power Connection:** Plug the power cord into a grounded electrical outlet.

FACILE À INSTALLER

A visual guide demonstrating the easy installation process for the Garvee portable air conditioner, showing five steps for connecting the exhaust hose and window kit.

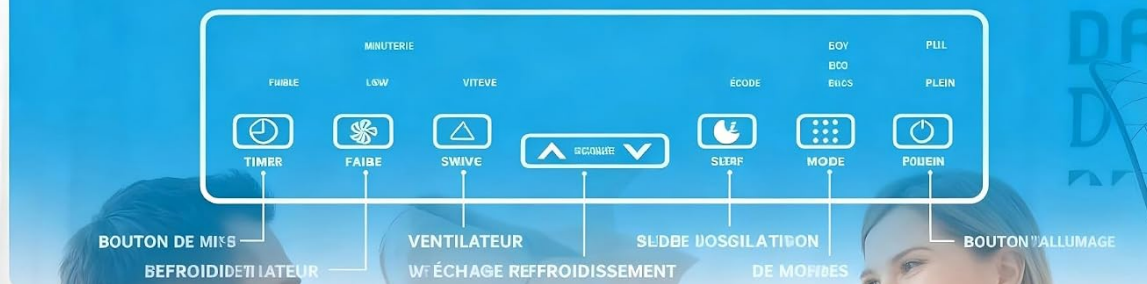

5. OPERATING INSTRUCTIONS

Your Garvee Portable Air Conditioner can be controlled via the LED display panel on the unit or the included remote control.

5.1 Control Panel and Remote Control

FACILE À UTILISER

AFFICHAGE DU PANNEAU DE COMMANDE

A detailed diagram of the Garvee portable air conditioner's control panel, showing buttons for Timer, Fan Speed, Oscillation, Mode, and Power. A family is shown interacting with the unit, emphasizing its user-friendly interface.

5.2 Operating Modes

- **Cooling Mode:** Press the 'Mode' button until the snowflake icon appears. Use the temperature adjustment buttons to set your desired temperature (16-31°C).
- **Dehumidification Mode:** Press the 'Mode' button until the water droplet icon appears. The unit will extract moisture from the air (up to 36 L/day). The fan speed is typically fixed in this mode.
- **Fan Mode:** Press the 'Mode' button until the fan icon appears. Use the 'Fan Speed' button to select between low and high fan speeds.

5.3 Additional Functions

- **Timer Function:** Press the 'Timer' button to set the desired operating duration (1-24 hours) for automatic turn-on or turn-off.
- **Sleep Mode:** Activate 'Sleep Mode' for quieter operation and optimized temperature settings during the night. The fan speed will automatically adjust to low, and the set temperature may gradually increase to save energy and ensure comfort.

- **Oscillation:** Press the 'Oscillation' button to enable or disable the automatic swing of the air vents for wider air distribution.

6. MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your air conditioner.

6.1 Cleaning the Air Filter

The air filter should be cleaned every two weeks or more frequently depending on usage and air quality.

1. Unplug the unit from the power outlet.
2. Remove the air filter from the back or side of the unit.
3. Wash the filter with warm, soapy water. Rinse thoroughly.
4. Allow the filter to air dry completely before reinstalling.

6.2 Draining Water

In dehumidification mode or high humidity conditions, the internal water tank may fill up. The unit will typically stop operating and display an error code when the tank is full.

1. Unplug the unit.
2. Place a shallow pan or tray under the drainage port at the bottom rear of the unit.
3. Remove the drain plug to allow water to flow out.
4. Once drained, replace the drain plug securely.

6.3 Cleaning the Unit Exterior

Wipe the exterior of the unit with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.

7. TROUBLESHOOTING

If you encounter issues with your air conditioner, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Unit does not turn on	No power; Power cord not plugged in; Full water tank	Check power supply; Plug in power cord; Drain water tank
No cooling or insufficient cooling	Air filter clogged; Exhaust hose not properly installed; Room too large; Doors/windows open	Clean air filter; Ensure exhaust hose is sealed; Close doors/windows; Check room size
Unit is noisy	Unit not on a flat surface; Obstruction in fan	Place on a flat surface; Check for obstructions and remove if safe
Water leakage	Drain plug loose; Unit tilted; Full water tank	Secure drain plug; Ensure unit is level; Drain water tank

8. SPECIFICATIONS
