# Garvee 10000 BTU Portable Air Conditioner User Manual

Model: 8UtpB77MRE6yTChokYLixwtcN

## 1. INTRODUCTION

---

Thank you for choosing the Garvee 10000 BTU Portable Air Conditioner. This appliance is designed to provide efficient cooling, dehumidification, and ventilation for your home. Featuring a 3-in-1 design, a 24-hour timer, and an antibacterial filter, it offers comfort and improved air quality. Please read this manual thoroughly before operation to ensure proper use, maintenance, and safety.

## 2. SAFETY INFORMATION

---

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury.

- Read all instructions before using the appliance.
- Ensure the power supply matches the voltage specified on the rating label.
- Do not operate the unit with a damaged cord or plug.
- Keep the unit on a flat, stable surface to prevent tipping.
- Do not block air inlets or outlets. Maintain at least 30 cm (12 inches) clearance around the unit.
- Do not insert objects into the air outlets.
- Unplug the unit before cleaning or servicing.
- This appliance is for indoor use only.
- Keep out of reach of children.

## 3. PRODUCT OVERVIEW

---

The Garvee Portable Air Conditioner is designed for ease of use and mobility, featuring a compact design with

integrated controls and a remote for convenient operation.

## 4. SETUP AND INSTALLATION

### 4.1 Unpacking

Carefully remove the air conditioner and all accessories from the packaging. Retain the packaging for future storage or transport.

#### Included Components:

- Portable Air Conditioner Unit
- Remote Control
- Exhaust Hose
- Window Sealing Kit (Slide Bar \* 1, Slide Bar \* 1, Exhaust Pipe Connector \* 2)

Figure 4.1: Visual representation of the main unit and all accessories included in the package, such as the remote control, exhaust hose, and window kit components.

## 4.2 Placement

Place the air conditioner on a firm, level surface in the desired room. Ensure there is at least 30 cm (12 inches) of clear space around the unit for proper airflow.

## 4.3 Exhaust Hose Installation

The exhaust hose must be installed to vent hot air outside. Improper installation can reduce cooling efficiency.

1. Attach the exhaust hose to the connector on the back of the air conditioner unit.
2. Extend the exhaust hose to the nearest window.
3. Install the window sealing kit into the window opening. Adjust the slide bar to fit the window width.
4. Connect the other end of the exhaust hose to the window kit adapter, ensuring a secure seal to prevent hot air from re-entering the room.

Figure 4.2: Illustrated steps demonstrating how to correctly assemble and install the exhaust hose and window sealing kit for the portable air conditioner.

## 5. OPERATING INSTRUCTIONS

### 5.1 Control Panel and Remote Control

The unit can be controlled via the touch panel on top of the unit or the included remote control. Both offer access to all functions.

Figure 5.2: A user comfortably operating the air conditioner with the remote control from a distance, illustrating the convenience of remote operation.

## 5.2 Operating Modes (3-in-1)

The Garvee Portable Air Conditioner offers three distinct operating modes:

- **Cooling Mode:** Provides powerful cooling with a temperature range of 18-32°C (64-90°F) and 10000 BTU capacity, suitable for rooms up to 46 m<sup>3</sup>. Utilizes eco-friendly R290 refrigerant.
- **Dehumidifier Mode:** Removes excess moisture from the air, with a capacity of up to 80 pints per day, improving air quality and comfort.
- **Fan Mode:** Circulates air with three adjustable fan speeds (low, medium, high) without cooling, providing a refreshing breeze.

Figure 5.3: Visual representation of the three operating modes: Cooling (with snowflakes), Dehumidifying (with water droplets), and Fan (with air circulation arrows).

### 5.3 Timer Function

Set the unit to turn on or off automatically within a 24-hour period. This feature helps save energy and ensures comfort when you need it.

### 5.4 Sleep Mode

Activate Sleep Mode for quiet operation, ideal for nighttime use. The unit operates at a reduced noise level, approximately 48 dB, ensuring minimal disturbance.

# Mode Sommeil & Silencieux

Avec des niveaux de bruit atteignant jusqu'à 48db

Figure 5.4: The air conditioner operating in Sleep Mode, with a graphic indicating a low noise level of 48 dB, suitable for a peaceful sleeping environment.

## 6. MAINTENANCE

### 6.1 Filter Cleaning

The antibacterial filter should be cleaned regularly (every two weeks or as needed) to maintain optimal performance and air quality.

1. Unplug the air conditioner from the power outlet.
2. Locate the filter panel on the back of the unit and gently remove it.

3. Remove the antibacterial filter.
4. Wash the filter with lukewarm water and a mild detergent. Rinse thoroughly.
5. Allow the filter to air dry completely before reinserting it into the unit.
6. Reattach the filter panel.

Figure 6.1: A visual guide showing the removal of the air filter from the unit and the process of washing it under running water.

## 6.2 Storage

If the unit will not be used for an extended period, drain any accumulated water, clean the filter, and store it in a dry, cool place, preferably in its original packaging.

## 7. TROUBLESHOOTING

Refer to the table below for common issues and their solutions. If the problem persists, contact customer support.

Problem	Possible Cause	Solution
Unit does not turn on	No power supply; Power cord not plugged in; Circuit breaker tripped.	Check power outlet; Ensure cord is securely plugged in; Reset circuit breaker.
Unit does not cool effectively	Windows/doors open; Air filter dirty; Exhaust hose not properly installed; Room size too large.	Close all windows and doors; Clean air filter; Ensure exhaust hose is sealed; Verify unit capacity matches room size.
Water leakage	Drain plug not properly sealed; Unit is not level; Water tank full (in dehumidifier mode).	Check and secure drain plug; Place unit on a level surface; Empty water tank.
Unusual noise	Unit not on a level surface; Obstruction in fan.	Ensure unit is on a flat surface; Check for and remove any obstructions.

## 8. SPECIFICATIONS

Technical details for the Garvee Portable Air Conditioner.

Feature	Specification
---------	---------------

Feature	Specification
Brand	Garvee
Model Number	8UtpB77MRE6yTChokYLixwtcN
Cooling Capacity	10000 BTU
Functions	Cooling, Dehumidifying, Fan
Refrigerant	R290 (Eco-friendly)
Energy Efficiency Class	A++
Seasonal Energy Efficiency Ratio (SEER)	3.1
Dehumidification Capacity	80 Pints/Day (approx.)
Noise Level (Sleep Mode)	Up to 48 dB
Control Method	Touch Panel, Remote Control
Timer	24-hour programmable
Special Feature	Antibacterial Filter
Dimensions (D x W x H)	39.6 x 46 x 86.5 cm (15.6 x 18.1 x 34.1 inches)
Weight	30.8 kg (67.9 lbs)
Power Source	Electric Cord
Voltage	220V
Wattage	2055W
