## Rimoody 4G+128G

# Rimoody 4G+128G Android Car Stereo User Manual for Toyota Corolla 2009-2013

## PRODUCT OVERVIEW

---

### Key Features

- **Custom Fit for Toyota Corolla 2009-2013:** Designed for seamless integration, featuring a 9-inch 1280\*720 HD Incell touch screen and physical buttons for safe operation. Powered by Android 15 for fast and stable performance.
- **Wireless CarPlay & Android Auto + Mirror Link:** Supports wireless CarPlay and Android Auto for hands-free calls, messaging, music playback, and navigation using voice commands. Also includes wired & wireless mirror link for phone screen synchronization.
- **4GB RAM + 128GB ROM & Premium Sound:** Offers 4GB RAM and 128GB storage for smooth multitasking. Built-in EQ and high-quality sound processor reduce noise and distortion, delivering clear audio.
- **WiFi, GPS Navigation & Full Multimedia:** Features built-in GPS for online/offline maps, Bluetooth 5.0, WiFi, FM/RDS radio, dual USB ports, and steering wheel control.
- **Split Screen & Expandable Functions:** Allows simultaneous use of multiple apps with split-screen display. Compatible with AHD rear camera, driving recorder (optional), and external microphone. Offers multiple UI themes.

## SETUP GUIDE

---

### Package Contents

Before installation, please verify all components are present in the package.

## BT Connection

Through BT, we can listen to music or answer hands-free calls while navigating, which greatly reduces driving risks.

The package includes the car stereo unit, microphone, rear camera, RCA cable, USB cables, GPS antenna, user manual, power cable, side brackets, and installation tools.

## Installation Overview

This car stereo is custom-designed for Toyota Corolla 2009-2013 models. Professional installation is recommended. Ensure the vehicle's power is disconnected before beginning installation.

## For Toyota Corolla 2009-2013

The image above shows the dashboard before and after the car stereo installation, demonstrating the integrated fit.

## Wiring Connections

Connect the power cable, USB cables, GPS antenna, and rear camera according to the provided wiring diagram in the user manual. Ensure all connections are secure.

## OPERATING INSTRUCTIONS

### Wireless CarPlay & Android Auto

The unit supports wireless CarPlay and Android Auto for seamless smartphone integration. This allows for hands-free calls, messaging, music playback, and navigation using voice commands.

Follow these steps to connect your smartphone: 1. Open WiFi and Bluetooth on your iPhone/Android smartphone and find the Bluetooth named "RK\*\*\*\*\*". 2. Click on Pair; Click on Allow. 3. Connection successful.

Your browser does not support the video tag.

### Mirror Link Function

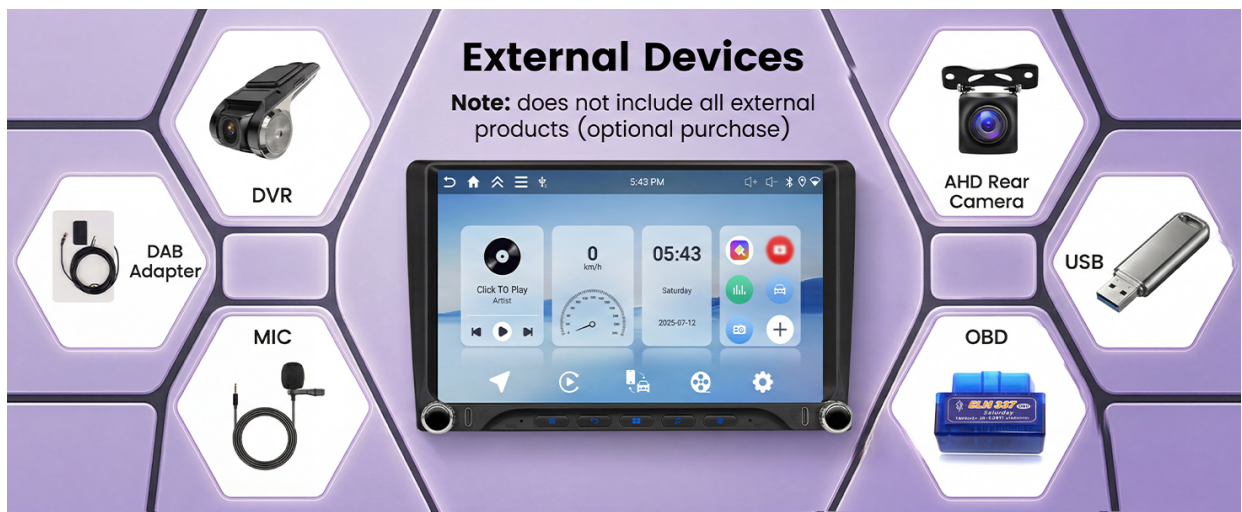

Mirror Link allows you to display your smartphone screen directly on the car stereo. Both wired and wireless connections are supported.

For wireless mirror link, connect your phone to the vehicle's Wi-Fi signal. For Apple smartphones, the connection is typically automatic. For Android smartphones, you may need to download a connectivity app and enable USB debugging.

### Bluetooth Connectivity

Utilize Bluetooth 5.0 for hands-free calling and wireless music streaming. This feature enhances driving safety by minimizing distractions.

The Bluetooth interface allows you to manage calls and play music directly from your paired device.

### GPS Navigation

The built-in GPS module supports both online and offline navigation. Access real-time traffic information and voice guidance to reach your destination efficiently.

The navigation system provides accurate satellite positioning and supports various map applications.

### FM/RDS Radio

Enjoy your favorite radio stations with the integrated FM/RDS tuner. RDS (Radio Data System) provides additional information such as station name and song title.

Long press to save favorite stations. You can switch between FM1, FM2, and FM3 bands, search for stations, and access EQ settings.

## Audio Equalizer (EQ) Adjustment

Customize your audio experience with the built-in equalizer. Adjust bass, midrange, and treble to achieve your preferred sound profile.

The EQ features 9 preset modes and smart field sound positioning for optimal audio output.

## Split Screen Functionality

The split-screen feature allows you to run two applications simultaneously, such as navigation and music playback, enhancing multitasking capabilities.

You can also use video split-screen to watch videos while operating other applications.

## Steering Wheel Control (SWC)

Control essential functions of the car stereo directly from your vehicle's steering wheel buttons. This includes volume adjustment, track changes, and call management.

## EQ Adjustment

EQ adjustment, a variety of surround sound field modes  
strong bass, soft midrange and bright treble and a transparent stereo sound.

The system allows for custom mapping of steering wheel buttons to stereo functions.

## Rear View Camera Support

The unit supports AHD rear cameras, providing a clear view of the area behind your vehicle when reversing. This enhances parking safety.

## FM/RDS Radio

Online music can be transmitted to the car stereo through FM/RDS radio to enjoy the original car stereo.

Optional rear cameras can be connected to the system for improved visibility.

## External Device Compatibility

The car stereo supports various external devices to expand its functionality, including DVRs, DAB adapters, external microphones, USB storage, and OBD diagnostic tools. These are optional purchases.

## SPLIT Screen

Two pages can be displayed at the same time, such as navigation and music display at the same time.

Note that these external products are not included with the main unit and must be purchased separately.

## User Interface Customization

Personalize your car stereo experience with multiple UI themes and customizable homepage layouts. You can also change the color of the physical buttons.

Choose from a variety of UI themes to match your preference.

Adjust the button colors for a personalized look.

## MAINTENANCE

To ensure optimal performance and longevity of your car stereo, follow these general maintenance guidelines:

- **Screen Cleaning:** Use a soft, lint-free cloth to gently wipe the touchscreen. Avoid abrasive cleaners or harsh chemicals that could damage the screen.
- **Software Updates:** Periodically check for available software updates to ensure you have the latest features and performance enhancements. Follow the on-screen instructions for any updates.
- **Environmental Conditions:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.
- **Physical Buttons:** Keep the physical buttons free from dust and debris to maintain their responsiveness.

## TROUBLESHOOTING

If you encounter any issues with your Rimoodly car stereo, please refer to the following common troubleshooting steps. For more detailed assistance, consult the full user manual or contact customer support.

Your browser does not support the video tag.

Video titled "Fixes 90% of Common Issues: Essential Troubleshooting Guide" provided by AINAVIGO Store. This video may offer solutions to frequent problems.

## Common Issues and Solutions:

- **No Power:**

- Check all power cable connections to ensure they are securely plugged in.
- Verify the vehicle's fuse for the stereo is not blown.

- **No Sound:**

- Ensure the volume is not muted or set to minimum.
- Check speaker wire connections.
- Verify audio output settings in the system menu.

- **Bluetooth Connectivity Issues:**

- Ensure Bluetooth is enabled on both the stereo and your smartphone.
- Delete previous pairings and attempt to re-pair the devices.
- Move the phone closer to the stereo to rule out signal interference.

- **GPS Signal Loss:**

- Ensure the GPS antenna is properly installed and has a clear view of the sky.
- Check GPS settings within the system to ensure it's enabled.

- **Touchscreen Unresponsive:**

- Restart the unit.
- Perform a screen calibration if available in the settings.
