NWOP Socket fan

NWOP 28 Inch Socket Fan Light with Remote Control User Manual

Model: Socket fan

INTRODUCTION

This manual provides detailed instructions for the safe and efficient use of your NWOP 28 Inch Socket Fan Light. Please read this manual thoroughly before installation and operation, and retain it for future reference.

SAFETY INFORMATION

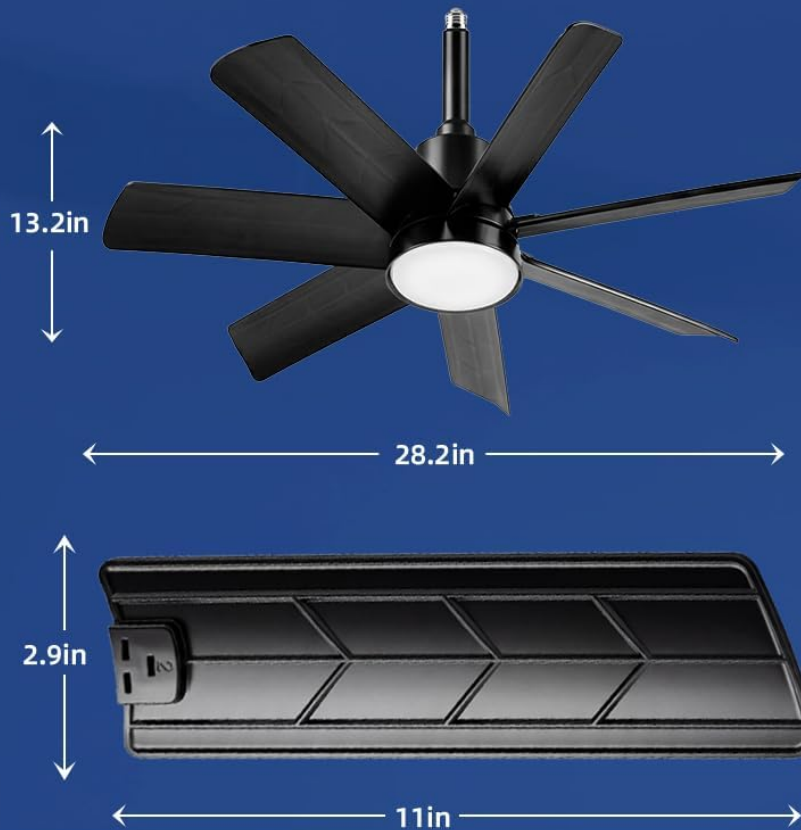

- Ensure power is disconnected at the circuit breaker before installation or maintenance.
- This product is designed for indoor use.
- Do not attempt to repair or modify the unit yourself. Contact customer support for assistance.
- Keep the remote control away from water and extreme temperatures.

PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- NWOP 28 Inch Socket Fan Light unit
- Remote Control (batteries not included)
- Remote Control Holder
- Socket Extender (if applicable)
- Instruction Manual

PRODUCT OVERVIEW

The NWOP 28 Inch Socket Fan Light combines illumination and air circulation in a single, easy-to-install unit. Key features include:

- **Fan and Light Combo:** Provides both lighting and cooling.

- **Longer Blades:** 11-inch, 7-leaf blades for wider airflow.
- **Adjustable Color Temperature:** 3000K (Warm White), 4500K (Natural White), and 6500K (Cool White).
- **Dimmable Brightness:** Adjustable from 10% to 100%.
- **6 Fan Speeds:** Choose from soft to powerful airflow.
- **Memory Function:** Remembers your last light and fan settings.
- **Sleep Timer:** Automatic shutdown after 2, 4, or 8 hours.
- **Quiet Reversible DC Motor:** Energy-efficient and quiet operation, with modes for summer (forward) and winter (reverse).

SETUP AND INSTALLATION

The NWOP Socket Fan Light is designed for quick and easy installation into standard E26/E27 light bulb sockets without the need

for special tools or wiring.

1. **Prepare the Socket:** Ensure the power to the light fixture is turned off at the circuit breaker before beginning.
2. **Attach Blades:** Carefully install the fan blades into the main unit. Ensure they are securely clicked into place.
3. **Screw into Socket:** Screw the fan light unit into an E26/E27 light bulb socket. If your socket is deep, use the included socket extender for a proper fit. Tighten securely but do not overtighten.
4. **Restore Power:** Turn the power back on at the circuit breaker.

OPERATING INSTRUCTIONS

Use the included remote control to operate your NWOP Socket Fan Light.

Remote control instructions

Small Size, Powerful Function

Image: Remote control diagram showing buttons for On/Off/Fan Pairing, Light Switch, Color Temperature Switch, Wind Speed Adjustment (1-6), Fan Off, Brightness Adjustment, Timer Setting (2H, 4H, 8H), Memory Function, Motor Rollover (Reversible Motor), and Mute Switch.

Remote Control Functions:

- **On/Off/Fan Pairing:** Powers the unit on or off. Press and hold for pairing if needed.
- **Light Switch:** Turns the LED light on or off.
- **Color Temperature Switch:** Cycles through 3000K (Warm White), 4500K (Natural White), and 6500K (Cool White).
- **Wind Speed Adjustment (1-6):** Adjusts fan speed from 1 (soft) to 6 (powerful).

- **Fan Off:** Turns the fan off.
- **Brightness Adjustment:** Increases or decreases light brightness (10%-100%).
- **Timer Setting (2H, 4H, 8H):** Sets the fan and light to automatically turn off after 2, 4, or 8 hours.
- **Memory Function:** The unit will recall the last used light and fan settings when turned back on.
- **Motor Rollover (Reversible Motor):** Changes the direction of fan rotation for summer (downward airflow) or winter (upward airflow).
- **Mute Switch:** Silences operational beeps.

MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your fan light.

- **Cleaning:** Before cleaning, ensure the power is off. Wipe the fan blades and light cover with a soft, damp cloth. Do not use abrasive cleaners or solvents.

- **Dusting:** Periodically dust the unit to prevent accumulation that could affect performance.
- **Blade Inspection:** Check fan blades periodically for any damage or looseness.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Fan or Light does not turn on.	No power to the socket; remote control batteries are dead; unit not properly screwed in.	Check circuit breaker. Replace remote batteries. Ensure the fan light is securely screwed into the E26/E27 socket.
Remote control not working.	Batteries are dead; remote not paired with the unit.	Replace batteries. Refer to the "On/Off/Fan Pairing" section in Operating Instructions to re-pair the remote.
Fan makes unusual noise.	Loose blades; obstruction.	Ensure all blades are securely attached. Check for any objects obstructing the fan's rotation.
Light flickers or is dim.	Brightness setting is low; power fluctuation.	Adjust brightness using the remote. Ensure stable power supply.
