HOMCOM 837-578V01WT

HOMCOM 3-Drawer Shoe Cabinet Instruction Manual

Model: 837-578V01WT

INTRODUCTION

Thank you for choosing the HOMCOM 3-Drawer Shoe Cabinet. This cabinet is designed to provide a space-saving and organized solution for your footwear. Featuring three flip drawers with adjustable shelves, it can accommodate various shoe sizes and types. This manual provides essential information for safe assembly, operation, and maintenance of your new shoe cabinet.

SAFETY INFORMATION

- **Anti-Tipping Kit:** This shoe cabinet includes an anti-tipping kit. It is crucial to securely attach the cabinet to a wall using this kit to prevent accidental tipping, especially in households with children or pets.
- **Weight Capacity:** Do not exceed the maximum weight capacity of 88 lbs (40 kg) for the overall unit, and 22 lbs (10 kg) for the top surface or each drawer. Overloading can compromise stability and safety.
- **Stable Placement:** Ensure the cabinet is placed on a flat, level, and stable surface to prevent wobbling or instability.
- **Assembly:** Follow all assembly instructions carefully. Incorrect assembly can lead to structural weakness and potential hazards.
- **Children Safety:** Keep small parts and packaging materials away from children during assembly. Do not allow children to climb on or play with the cabinet.

SETUP AND ASSEMBLY

Assembly of the HOMCOM 3-Drawer Shoe Cabinet is required. Please ensure you have all components before beginning. Refer to the detailed assembly manual included in your package for step-by-step instructions. It is recommended to assemble the unit in the desired location or close to it, and with the assistance of another person for easier handling and safety.

1. **Unpack Components:** Carefully unpack all parts and hardware. Verify that all items listed in the included parts list are present and undamaged.
2. **Prepare Workspace:** Clear a spacious and clean area for assembly. Lay down a soft cloth or cardboard to protect the cabinet parts and your floor.
3. **Follow Instructions:** Adhere strictly to the sequence and instructions provided in the separate assembly manual. Do not overtighten screws unless specified.

4. **Attach Anti-Tipping Kit:** Once assembled and placed in its final position, securely attach the anti-tipping kit to the wall as instructed in the manual. This is a critical safety step.

OPERATING INSTRUCTIONS

The HOMCOM 3-Drawer Shoe Cabinet is designed for convenient shoe storage with adjustable features.

- **Opening Drawers:** Gently pull the PU leather handles to flip open each drawer. The drawers are designed to tilt forward, providing easy access to your shoes.
- **Adjusting Shelves:** Each flip drawer features a two-tier adjustable shelf. To adjust or remove a shelf, carefully lift it from its supports and reposition it to a different height or remove it entirely. Removing shelves creates space for taller boots or bulkier footwear.
- **Shoe Capacity:** The cabinet can store approximately 15-21 pairs of shoes, depending on shoe size and type, and

whether shelves are adjusted or removed. It accommodates most shoe sizes up to CA 10.5.

- **Closing Drawers:** Push the drawer back into the cabinet until it is fully closed and flush with the cabinet front.

MAINTENANCE

Proper care will ensure the longevity and appearance of your HOMCOM shoe cabinet.

- **Cleaning:** Wipe the cabinet surfaces with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or polishes that may damage the finish.
- **Spills:** Immediately wipe up any spills to prevent moisture damage to the engineered wood.
- **Dusting:** Regularly dust the cabinet with a dry, soft cloth to prevent dust buildup. The closed back helps prevent dust accumulation inside.
- **Hardware Check:** Periodically check all screws and fasteners to ensure they remain tight. Retighten if necessary.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading or discoloration of the cabinet's finish.

Image: The cabinet's elevated design allows for easy cleaning underneath, including clearance for robot vacuums.

TROUBLESHOOTING

If you encounter any issues with your shoe cabinet, refer to the following common solutions:

- **Cabinet Wobbles:**

Solution: Ensure the cabinet is on a level surface. Adjust the floor glides if present, or place shims under the legs if needed. Verify all assembly screws are tightened. Ensure the anti-tipping kit is securely installed.

- **Drawers Do Not Close Properly:**

Solution: Check for any obstructions inside the drawer or along the mechanism. Ensure shoes are not overfilling the drawer or preventing it from closing. Verify that the drawer slides and hinges are correctly installed and not damaged.

- **Difficulty Adjusting Shelves:**

Solution: Ensure the shelves are lifted straight up from their supports before attempting to reposition them. Do not force them. Check for any debris in the shelf pin holes.

- **Missing Parts:**

Solution: Review the parts list in your assembly manual. If parts are missing, contact HOMCOM customer support with your model number and a description of the missing components.

SPECIFICATIONS

Brand	HOMCOM
Model Number	837-578V01WT
Colour	White
Material	Engineered Wood
Product Dimensions (D x W x H)	24D x 80W x 131H Centimetres (9.4" D x 31.5" W x 51.6" H)
