

SHA CERLIN XH-5201-18

SHA CERLIN King Size Velvet Bed Frame with Adjustable Headboard

Model: XH-5201-18

Brand: SHA CERLIN

INTRODUCTION

Thank you for choosing the SHA CERLIN King Size Velvet Bed Frame. This manual provides essential information for safe assembly, operation, and maintenance of your new bed frame. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

This bed frame features an elegant design with a vertical channel tufted adjustable headboard, upholstered in soft, skin-friendly velvet fabric. Its sturdy construction ensures stable support, and the design allows for easy under-bed cleaning.

SAFETY INFORMATION

Always follow the assembly instructions carefully to prevent instability or collapse. Be cautious around the soft velvet upholstery to avoid injury during assembly. Do not exceed the maximum weight capacity of 1000 pounds.

- Ensure all bolts and screws are securely tightened before use.
- Periodically check all connections to ensure they remain tight.
- Keep small parts away from children during assembly.
- Assemble the bed frame on a soft, clean surface to prevent damage to the product or your floor.
- Do not use power tools for assembly as this may overtighten and damage components.

PACKAGE CONTENTS

Before assembly, verify that all components listed below are present:

- Bed Frame components
- Adjustable Headboard
- Wooden Slats
- Hardware (screws, bolts, washers, Allen wrench)

- Installation Manual (this document)

SETUP AND ASSEMBLY INSTRUCTIONS

Assembly of the SHA CERLIN bed frame is designed to be straightforward. Please follow these steps carefully:

- 1. Unpack and Identify Parts:** Carefully unpack all components and hardware. Refer to the parts list in your package to ensure all items are present.
- 2. Attach Legs:** Securely attach the bed legs to the frame using the provided screws. Tighten them with the included tool.
- 3. Connect Side Rails:** Connect the side rails to the headboard and footboard using the appropriate bolts. Ensure all connections are firm.
- 4. Secure Footboard:** Attach the footboard to the assembled side rails.
- 5. Place Slats:** Lay the wooden slats across the bed frame. Many slats feature a Velcro design for quick and secure placement, which also helps in noise isolation.
- 6. Final Tightening:** Once all components are in place, double-check and tighten all bolts and screws to ensure the frame is stable and secure.

OPERATING INSTRUCTIONS

Adjustable Headboard

The SHA CERLIN bed frame features an adjustable headboard, allowing you to customize its height to best suit your mattress thickness and personal preference. There are two height adjustment options available, typically ranging from 41.5 inches to 45.5 inches from the floor.

To adjust the headboard height, loosen the bolts connecting the headboard to the side rails, carefully slide the headboard to your desired height, and then re-tighten the bolts securely. Ensure both sides are adjusted evenly for stability.

MAINTENANCE

Cleaning the Velvet Upholstery

The velvet upholstery is soft and skin-friendly. To maintain its appearance:

- **Regular Dusting:** Gently vacuum the velvet fabric with an upholstery attachment or use a soft brush to remove dust and debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. For tougher stains, use a mild fabric cleaner specifically designed for velvet, testing on an inconspicuous area first. Avoid excessive rubbing.
- **Under-Bed Cleaning:** The bed frame provides sufficient under-bed clearance, making it easy for robotic vacuums or standard cleaning tools to pass through and keep the area tidy.

EXTRA STORAGE SPACE

Easy to Clean Underneath

Frame Maintenance

- **Check Connections:** Periodically (e.g., every 3-6 months) inspect all bolts and screws and re-tighten them if necessary to ensure the frame remains sturdy and squeak-resistant.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners or harsh chemicals on any part of the bed frame.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed frame is squeaking or unstable.	Loose bolts or connections.	Check all assembly points and tighten any loose bolts or screws. Ensure slats are properly seated.
Headboard is not adjusting properly.	Adjustment bolts are too tight or misaligned.	Loosen the headboard adjustment bolts, ensure proper alignment, and then re-tighten them at the desired height.
Missing parts during assembly.	Packaging error or lost component.	Carefully check all packaging materials. If parts are still missing, contact SHA CERLIN customer support.

WARRANTY AND SUPPORT

For any questions regarding your SHA CERLIN King Size Velvet Bed Frame, including warranty information, missing parts, or assembly assistance, please contact SHA CERLIN customer support directly. You can visit the official [SHA CERLIN Store on Amazon](#) for contact details or further product information.

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page’s manual context to help answer it.
