

IRONCK HK-TS-B26H1

IRONCK 59-inch TV Stand Instruction Manual

Model: HK-TS-B26H1 | Brand: IRONCK

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, maintenance, and troubleshooting of your IRONCK 59-inch TV Stand. This entertainment center is designed to accommodate TVs up to 65 inches and features integrated LED lighting and a built-in power outlet for convenience. Please read this manual thoroughly before beginning assembly or use to ensure proper setup and safe operation.

SAFETY INFORMATION

- Exercise caution around sharp edges during assembly to prevent injury.
- Ensure all connections are secure and stable after assembly.
- Do not exceed the recommended weight capacity for the TV stand.
- Keep small parts away from children during assembly.

SETUP AND ASSEMBLY

Your IRONCK TV stand comes with all necessary hardware and numbered parts for a straightforward assembly process. Please follow the included clear instructions step-by-step.

1. **Unpack Components:** Carefully remove all parts from the packaging and verify against the parts list provided in your separate assembly guide.
2. **Prepare Workspace:** Assemble the unit on a clean, soft surface to prevent scratches.
3. **Follow Numbered Steps:** Refer to the detailed assembly instructions for specific steps on attaching panels, shelves, and hardware.
4. **Install Hinges and Handles:** Attach the soft-close hinges to the cabinet doors and secure the metallic finish handles.
5. **Integrate Power Outlet:** Install the UL-certified three-prong power outlet into its designated slot.

6. **Position Adjustable Shelves:** Place the adjustable glass shelves at your desired height within the open compartments.
7. **Route Cables:** Utilize the integrated cable management holes to organize and conceal wires from your electronic devices.

PRODUCT SIZE

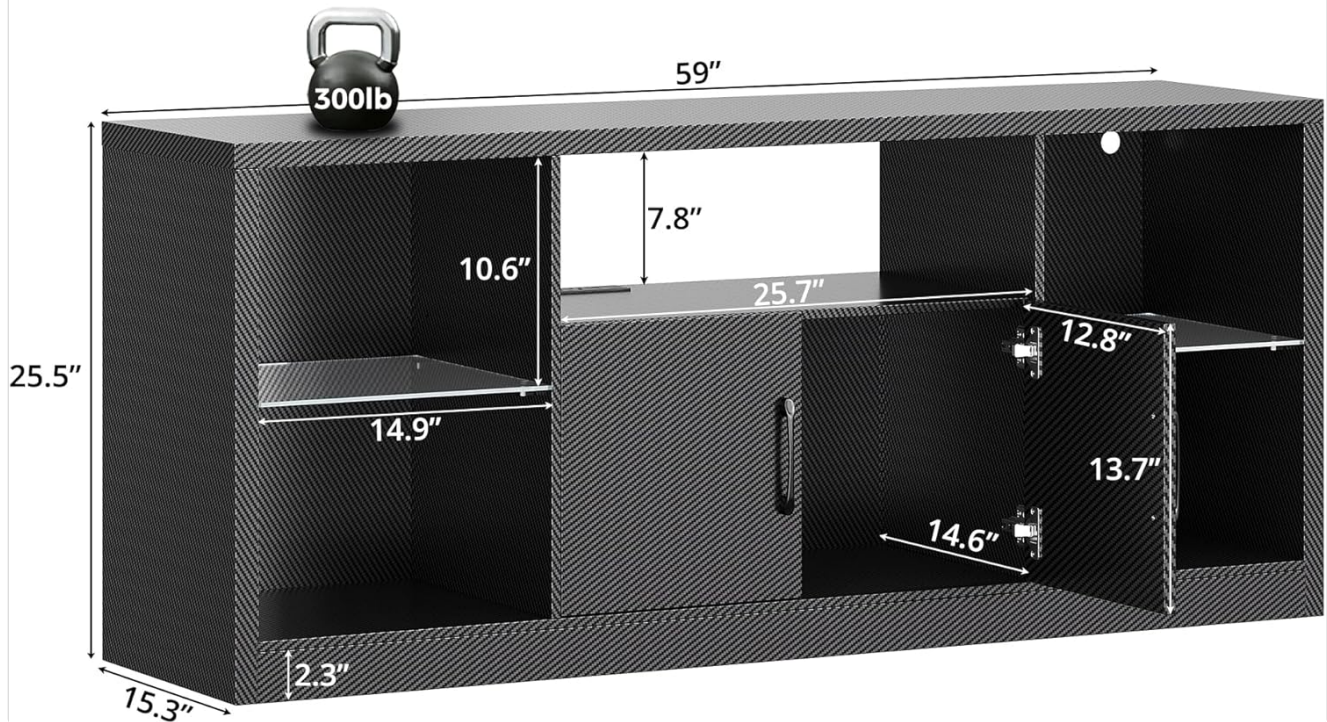

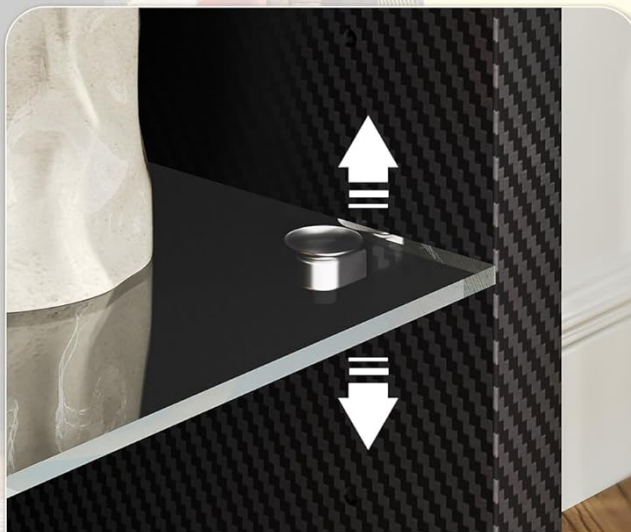

Figure 1: Product Dimensions. This diagram illustrates the overall dimensions of the TV stand (59" W x 15.3" D x 25.5" H) and the internal measurements of its various compartments, including shelf heights and depths.

OPERATING INSTRUCTIONS

LED Lighting System

The TV stand features a smart motion-sensor LED light strip to enhance your viewing experience.

- **Motion Sensor:** The LED lights automatically illuminate when motion is detected within approximately 20 inches.
- **Control Buttons:** Use the touch buttons to cycle through 3 color levels, adjust brightness, and modify speed settings.
- **Smart Body Sensor Mode:** This mode optimizes light activation based on presence.

Figure 3: Smart RGB Ambient Lighting. This image demonstrates the various features of the integrated LED lighting system, including touch controls, multiple color options, brightness and speed adjustments, and the smart motion sensor with a 20-inch sensing range.

Built-in Power Outlet

The integrated power outlet provides convenient access to power for your devices.

- **Specifications:** The UL-certified power strip includes three 125V/12A AC outlets, one 5V/2A USB port, and one 5V/2A Type-C port.
- **Power Cord:** Features a 4.9 ft power cord for flexible placement.
- **Usage:** Connect your TV, gaming console, chargers, and other electronic devices directly to the stand for a neat and efficient setup.

Built-in Power outlet

CARE AND MAINTENANCE

- **Cleaning:** Wipe the surfaces of the TV stand with a dry cloth to remove dust and debris. For spills, use a damp cloth and dry immediately.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners or strong chemical solutions, as these may damage the finish.
- **Water Resistance:** The carbon fiber MDF material offers water resistance, but prolonged exposure to

moisture should be avoided.

TROUBLESHOOTING

LED Lights Not Functioning

- **Check Power Connection:** Ensure the LED light strip is securely plugged into a working power source.
- **Verify Sensor:** Confirm that the motion sensor is not obstructed and is clean. Test the sensor by moving within its 20-inch range.
- **Inspect Connections:** Check all wiring connections to the LED strip and controller for looseness.
- **Contact Support:** If the issue persists, the LED sensor or strip may be faulty. Contact IRONCK customer support for assistance.

Power Outlet Not Working

- **Check Main Power:** Ensure the TV stand's main power cord is securely plugged into a functional wall outlet.
- **Test Devices:** Try plugging a different device into the power outlet to confirm if the issue is with the outlet or your device.
- **Overload:** Avoid overloading the power strip. Ensure the total wattage of connected devices does not exceed the strip's capacity (125V/12A).

Stand Instability

- **Verify Assembly:** Double-check all screws and fasteners to ensure they are tightened correctly according to the assembly instructions.
- **Level Surface:** Ensure the TV stand is placed on a flat, level surface.
