2. Product Features

- **2-in-1 Design:** Two individual units that can connect for 360° warmth or be used separately.
- **Smart AI Temperature Control:** Advanced AI chip for intelligent temperature detection and maintenance.
- **Multiple Heat Settings:** 3 precise heat levels (95-107.5°F, 104-118.5°F, 118.5-130°F).
- **Extended Battery Life:** Up to 20 hours of continuous heat on a single charge.
- **Portable & Ergonomic:** Compact, palm-sized design with a matte, anti-slip surface.
- **Safety Certifications:** CE and FCC certified for reliable performance.

4. Setup

4.1 Charging the Hand Warmers

1. Connect the provided Type-C charging cable to the charging port on each hand warmer.
2. Plug the USB-A end of the cable into a compatible USB power adapter (not included).
3. The indicator lights will show the charging status. A full charge typically takes 3-4 hours.

5. Operating Instructions

5.1 Power On/Off and Heat Settings

1. **To Power On/Off:** Long press the orange power button for 3 seconds. A red light will illuminate when the device is on.
2. **To Change Heat Level:** Short press the orange power button to cycle through the 3 heat settings. Each press will advance to the next level.

5.2 Indicator Lights

The indicator lights provide information on both temperature level and battery remaining:

- **Temperature Level (Red Lights):**
  - 1 Red Light: Low (95-107.5°F)
  - 2 Red Lights: Medium (104-118.5°F)
  - 3 Red Lights: High (118.5-130°F)
- **Battery Remaining (Blue Lights):**
  - 1 Blue Light: Low (<35%)
  - 2 Blue Lights: Medium (35-70%)
  - 3 Blue Lights: High (70-100%)
- **To Check Battery Life:** Double press the orange power button. Blue lights will indicate the current battery level.

Image: Explanation of the LED indicator lights for both temperature settings and battery status.

5.3 2-in-1 Functionality

The two hand warmer units can be connected or separated:

- **To Connect:** Align the two units and slide them together until they click into place. This provides 360° warmth.
- **To Separate:** Push the release mechanism (usually a small button or slide) to detach the units. This allows you to warm both hands individually or share with another person.

Image: Visual demonstration of the 2-in-1 feature, showing the hand warmers connected and separated for versatile use.

6. Safety Information

The UNIHAND AI Hand Warmers are equipped with advanced safety features:

- Over-Voltage Protection
- Over-Heating Protection
- Over-Current Protection
- Over-Charging Protection

Always ensure the devices are used as intended and avoid direct contact with bare skin on the highest setting for prolonged periods to prevent discomfort.

7. Maintenance

7.1 Cleaning

- Wipe the surface of the hand warmers with a soft, dry cloth.
- Do not use abrasive cleaners or immerse the devices in water.

7.2 Storage

- Store the hand warmers in a cool, dry place when not in use.
- Ensure they are fully charged before long-term storage to maintain battery health.

8. Troubleshooting

- **Device not turning on:** Ensure the device is charged. Long press the power button for 3 seconds.
- **Not heating sufficiently:** Check the heat setting using the indicator lights. Ensure the device is fully charged.
- **Not charging:** Verify the charging cable is securely connected to both the hand warmer and the power source. Try a different USB port or adapter.

9. Specifications

Brand	UNIHAND
Model	B0FH6LLGDP
Color	Black
Material	Aluminum
Battery Type	Lithium-Ion
Battery Charge Time	3-4 Hours (for full charge)
Max Temperature	130°F (54°C)

Reusability	Rechargeable
Included Components	Charging Cable, User Manual
Manufacturer	Guangdong Aoyun Technology Co., Ltd.

10. Warranty and Support
