SunnyFurn Self-Cleaning Cat Litter Box User Manual

Model: yC1bhdiJ3BATRM6bcWmnQA7GZ1v0I

INTRODUCTION

The SunnyFurn Self-Cleaning Cat Litter Box is designed to provide a convenient and hygienic solution for cat owners. Featuring a large 76L capacity drum and a 13L sealed waste bin, it minimizes the frequency of scooping. This automatic litter box includes smart safety sensors, app control for monitoring and scheduling, quiet operation, and an LED night light for enhanced user and pet experience.

SETUP INSTRUCTIONS

Follow these steps to set up your SunnyFurn Self-Cleaning Cat Litter Box:

- Unpack Components:** Carefully remove all parts from the packaging. Ensure you have the main unit, waste bin, support legs, cat litter bags, adapter, and manual.
- Attach Support Legs:** Securely attach the four support legs to the main unit. Ensure they are firmly in place for stability.
- Insert Waste Bin:** Slide the 13-liter waste bin into the designated slot at the bottom front of the unit. Place a cat litter bag inside the waste bin.
- Add Cat Litter:** Open the top cover of the main unit. Pour your preferred clumping cat litter into the drum. The unit is compatible with various litter types including mixed, bentonite, mineral, and plant-based litters. Do not overfill.
- Power On:** Connect the power adapter to the unit and plug it into a wall outlet. The unit will perform an initial self-check.
- App Connection:** Download the companion app on your smartphone. Follow the in-app instructions to connect the litter box to your 2.4GHz Wi-Fi network. This enables remote control, monitoring, and health tracking features.

Large Capacity for Multiple Cats

Fit Cat from 3.3 to 27.5 lbs

15 days
Short Journey

OPERATING INSTRUCTIONS

The SunnyFurn litter box offers both automatic and manual operation modes, along with smart features for convenience and safety.

Automatic Cleaning Cycle

The unit automatically detects when your cat has used the litter box and initiates a cleaning cycle after a customizable delay. This delay allows litter to clump properly before removal.

- **Smart Safety Sensors:** Equipped with radar sensors, infrared detection, and weight sensors, the unit will instantly pause any cleaning cycle if a cat approaches or enters the drum, ensuring pet safety.
- **Quiet Operation:** Designed to operate at $\leq 35\text{dB}$, the cleaning cycles are quiet, minimizing disturbance to both pets and owners, even during nighttime use.

App Control Features

Utilize the dedicated app for comprehensive control and monitoring:

- **Remote Cleaning:** Initiate a cleaning cycle remotely from your smartphone.
- **Scheduling:** Set custom cleaning schedules to fit your routine.
- **Health Tracking:** The app logs each visit, tracks weight trends, and provides alerts for changes in your cat's habits, offering insights into their health.
- **Notifications:** Receive alerts when the waste bin is full or when litter levels are low.
- **LED Night Light:** Customize the ambient lighting of the litter box via the app, providing a pleasant experience for your cat.

Manual Operation

The control panel on the unit allows for manual initiation of cleaning cycles and other functions, providing immediate control when needed.

Remote APP Control & Smart Alerts

Pet information at your fingertips

MAINTENANCE

Regular maintenance ensures optimal performance and hygiene of your litter box.

Emptying the Waste Bin

The 13L sealed waste bin can hold waste for up to 15 days for a single cat. When the app notifies you or the indicator light signals, pull out the waste bin, tie the litter bag, and dispose of it. Replace with a new litter bag.

Cleaning the Unit

For thorough cleaning, the unit is designed for easy disassembly. Disconnect power, remove the top cover and the drum. Wash the drum and other removable parts with mild soap and water. Ensure all components are completely dry before reassembly. Do not immerse the main electronic unit in water.

Litter Replacement

Periodically check the litter level and replenish as needed. For best odor control and cleaning efficiency, replace all litter every 2-4 weeks, depending on usage and cat habits.

Odor-Free Waste Disposal

Sealed trash can isolates most odors, keeping your living room fresh and odorless.

TROUBLESHOOTING

If you encounter issues with your SunnyFurn Self-Cleaning Cat Litter Box, refer to the following common solutions:

- **Unit Not Cleaning:** Check if the waste bin is full or if the litter level is too low. Ensure no objects are obstructing the drum's rotation. Verify that the safety sensors are not triggered by a nearby pet or object.

- **App Connectivity Issues:** Ensure your Wi-Fi network is 2.4GHz. Restart your router and the litter box. Re-attempt the pairing process in the app. Check if the app has the necessary permissions on your smartphone.
- **Odor Persistence:** Ensure the waste bin is properly sealed and emptied regularly. Use high-quality clumping litter. Consider replacing the deodorizer box if applicable.
- **Unusual Noises:** Power off the unit and check for any foreign objects inside the drum or waste disposal mechanism. Ensure the unit is placed on a flat, stable surface.

For persistent issues, please contact customer support.

SPECIFICATIONS

Feature	Detail
