### 3. SETUP AND INSTALLATION

This car radio is designed for direct fitment in Seat Leon MK2 models (2005-2012). Professional installation is recommended to ensure correct wiring and functionality. Incorrect installation may damage the unit or your vehicle's electrical system.

#### 3.1 Pre-Installation Checks

- Ensure the vehicle's ignition is off and the battery is disconnected before starting installation.
- Confirm compatibility with your specific Seat Leon MK2 model and year.
- Familiarize yourself with the vehicle's existing wiring harness and dashboard layout.

#### 3.2 Installation Steps (General)

1. Carefully remove the original car radio unit and dashboard trim using the provided installation tools.
2. Connect the main power cables, RCA cables, USB cables, GPS antenna, and rear camera input cable to the corresponding ports on the new Hikity unit. Refer to the wiring diagram in the included user manual for detailed connections.
3. Install the Canbus decoder if required for your vehicle model to ensure steering wheel controls and other vehicle data are properly integrated.
4. Mount the GPS antenna in a location with a clear view of the sky, typically on the dashboard or under the windshield.
5. Route the rear camera cable to the back of the vehicle and install the camera according to its specific instructions.
6. Secure the Hikity car radio unit into the dashboard using the mounting brackets.
7. Reconnect the vehicle battery and test all functions before fully reassembling the dashboard trim.

### 4.2 Wireless CarPlay and Android Auto

Connect your iOS or Android smartphone wirelessly to access navigation, music, calls, and messages directly on the car radio's touchscreen. This feature allows for a safer driving experience by minimizing phone interaction.

### 4.3 Mirror Link

The Mirror Link function allows you to mirror your smartphone's screen onto the car radio display, supporting both iOS and Android devices.

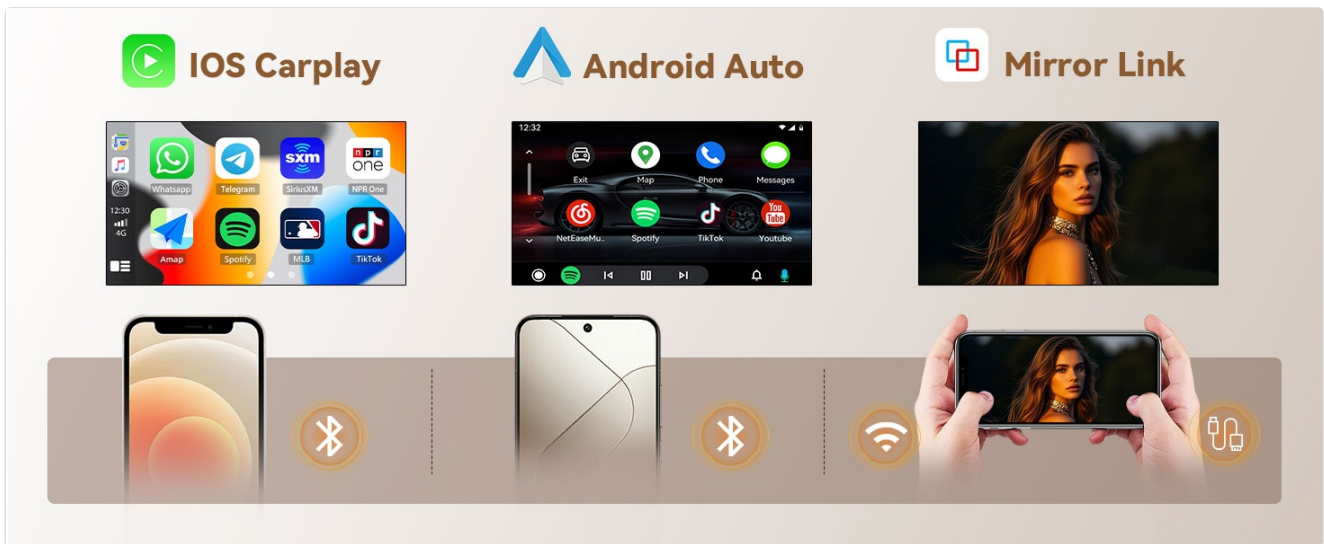

Figure 4.2: Wireless CarPlay, Android Auto, and Mirror Link features.

#### 4.4 Bluetooth 5.0

Utilize Bluetooth 5.0 for high-quality wireless audio streaming and clear, hands-free calling. Pair your smartphone to make and receive calls directly through the car radio system.

#### 4.5 GPS Navigation

The integrated GPS system provides reliable navigation with rapid acquisition. It supports both online maps with real-time traffic updates and offline map usage. Ensure the GPS antenna is properly installed for optimal signal reception.

#### 4.6 WiFi Connectivity

Connect to WiFi hotspots to access online content, stream media, download applications, and receive map updates directly on the unit.

#### 4.7 FM/RDS Radio with Digital Equalizer

Receive clear FM/RDS radio broadcasts for music, news, and traffic alerts. The built-in digital equalizer allows for precise sound adjustments to reduce distortion and achieve optimal audio clarity from all sources.

#### 4.8 Steering Wheel Control (SWC)

Maintain focus on the road by utilizing your vehicle's existing steering wheel controls to manage volume, playback, and calls.

The unit supports SWC functionality via the Canbus decoder.

## 4.9 Backup Camera Integration

The system automatically displays the view from the included rear camera when the vehicle is in reverse gear, aiding in safe parking and maneuvering.

## 4.10 Split-Screen Functionality

The split-screen feature allows you to run two applications simultaneously on the display, such as navigation and music playback.

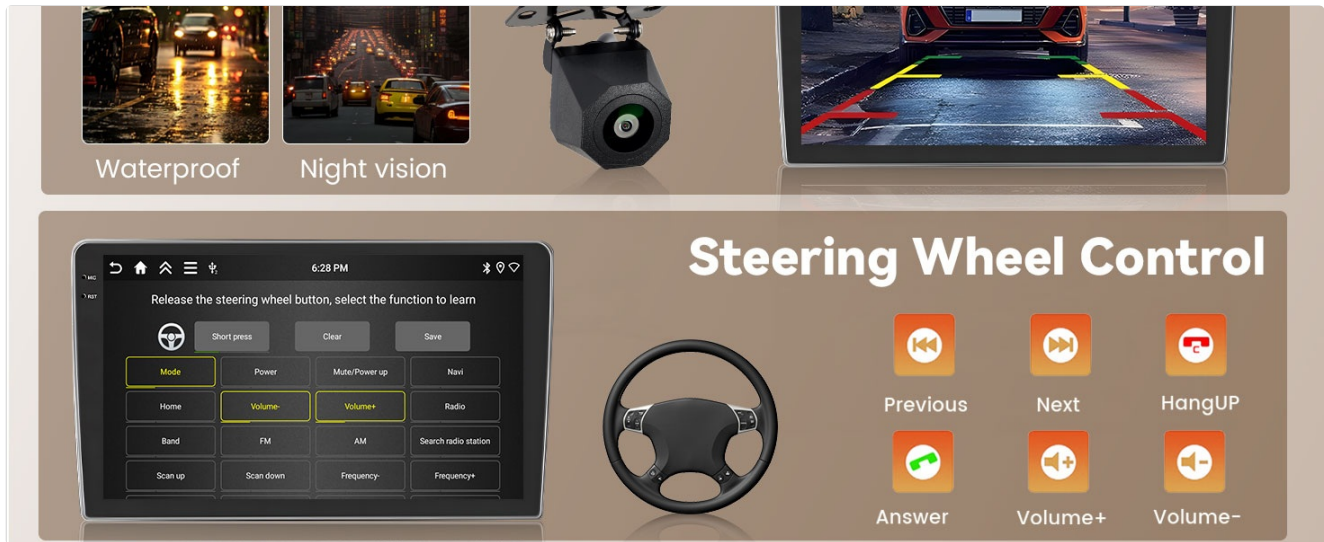

Figure 4.4: Steering Wheel Control interface.

## 5. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the touchscreen and unit exterior. Avoid abrasive cleaners or solvents.
- **Software Updates:** Periodically check for available software updates to ensure optimal performance and access to new features. Updates can typically be downloaded via WiFi.
- **Environmental Conditions:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.

## 6. TROUBLESHOOTING

If you encounter issues with your Hikity car radio, refer to the following common troubleshooting steps:

- **No Power:** Check all power cable connections. Ensure the vehicle's ignition is on. Verify fuses in both the vehicle and the radio's wiring harness.
- **No Sound:** Check speaker connections. Ensure volume is not muted or set to minimum. Verify audio output settings.
- **GPS Signal Loss:** Ensure the GPS antenna is securely connected and has a clear view of the sky. Move the antenna if necessary.
- **Bluetooth Connection Issues:** Ensure Bluetooth is enabled on both the car radio and your smartphone. Delete previous pairings and attempt to re-pair.
- **Touchscreen Unresponsive:** Try restarting the unit. If the issue persists, a factory reset may be necessary (note: this will erase all user data).
- **Steering Wheel Controls Not Working:** Verify the Canbus decoder is correctly installed and configured. Check wiring connections.

For persistent issues or problems not covered here, please contact Hikity customer support.
