Ketive Outdoor Elevated 2-Tier Chicken Coop (Model KET-PET87-KY) Instruction Manual

Your guide to assembly, operation, and maintenance.

INTRODUCTION

Thank you for choosing the Ketive Outdoor Elevated 2-Tier Chicken Coop. This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your new chicken coop. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

Safety Guidelines

- Always wear appropriate safety gear, such as gloves, during assembly.
- Ensure all parts are securely fastened before placing animals inside.
- Place the coop on a level, stable surface to prevent tipping.
- Regularly inspect the coop for any damage or loose components.
- Keep children and pets away from the assembly area.

PACKAGE CONTENTS

Before assembly, verify that all components listed below are present. If any parts are missing or damaged, please contact customer support.

Component	Quantity
Wooden Panels (various sizes)	Set
Galvanized Wire Mesh Panels	Set

Component	Quantity
Nesting Box Components	1 Set
Slide-Out Tray	1
Ramp	1
Roost Bars	2
Hardware (screws, hinges, latches, L-brackets)	Assorted
Assembly Manual	1

ASSEMBLY INSTRUCTIONS

Follow these steps carefully to assemble your Ketive Chicken Coop. It is recommended to have two adults for assembly.

1. **Step 1: Prepare the Base**

Assemble the bottom frame of the coop using the designated wooden panels and screws. Ensure all connections are tight and stable.

Image: Diagram showing the assembly of the coop's base frame.

2. **Step 2: Install Side Panels and Roosting Area**

Attach the side panels to the base. Construct the elevated roosting area, ensuring the internal roost bars are securely fitted.

Image: Diagram illustrating the attachment of side panels and the roosting area.

3. Step 3: Attach Nesting Box and Roof

Secure the 3-compartment nesting box to the side of the coop. Install the roof panels, ensuring they are weather-resistant and properly aligned.

Image: Diagram showing the installation of the nesting box and roof.

4. Step 4: Insert Slide-Out Tray and Ramp

Slide the removable tray into its designated slot beneath the roosting area. Attach the non-slip ramp for easy access between the ground and the elevated coop.

OPERATING INSTRUCTIONS

Nesting Box Access

The 3-compartment nesting box is designed for easy egg collection. The top lid can be propped open using the wooden support rod, allowing hands-free access without disturbing the hens inside the coop.

Nesting Box Details - Triple Nesting Box

Leak-Proof PVC Design

Metal Lock

Chicken Access and Security

The coop features a sliding door for chickens to move between the elevated roosting area and the ground run. Ensure the door is securely closed at night to protect your flock from predators. The non-slip ramp provides safe passage for your chickens.

Expandable Run Connection

This coop is designed to connect with compatible wire mesh chicken runs (sold separately) to provide a larger activity space for your flock. Follow the instructions provided with the run extension for proper attachment.

Larger Space

Connect Modular Units for an Extra-Large Activity Space

MAINTENANCE

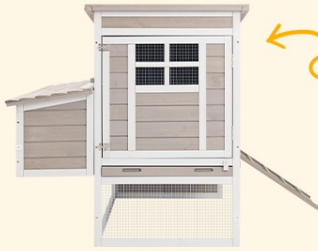

Cleaning the Coop

Regular cleaning is crucial for the health of your chickens. The slide-out tray makes this process simple:

1. Pull out the metal-lined tray from beneath the roosting area.
2. Empty accumulated droppings and bedding into a compost bin or waste receptacle.
3. Wipe the tray clean with a damp cloth and a mild, pet-safe disinfectant.
4. Replace with fresh bedding before reinserting the tray.

Larger Space

Connect Modular Units for an Extra-Large Activity Space

SIZE:
39.1" L x 36" W
x 39.3" H

SIZE:
80.1" L x 33.5" W
x 25" H

General Care

- Periodically check all screws and fasteners for tightness and re-tighten as needed.
- Inspect the wooden components for signs of wear, rot, or insect damage. Apply a pet-safe sealant if necessary to prolong the coop's lifespan.
- Ensure the galvanized wire mesh is intact to prevent predators from entering.
- Clean the nesting boxes regularly and replace bedding to maintain hygiene.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Coop feels unstable.	Loose fasteners; uneven ground.	Check and tighten all screws. Relocate the coop to a level surface.
Difficulty sliding out the tray.	Accumulated debris; warped wood.	Clear any debris from the tray's runners. Inspect for warping and contact support if severe.
Predator access concerns.	Unsecured doors/latches; damaged mesh.	Ensure all doors and nesting box lids are latched. Repair or replace damaged mesh immediately. The elevated design and L-shaped reinforcements help deter predators.
Chickens not using nesting boxes.	New environment; insufficient bedding.	Give chickens time to adjust. Ensure nesting boxes have ample, clean bedding.

SPECIFICATIONS

- Model:** KET-PET87-KY
- Dimensions (L x W x H):** 39.1" x 32.7" x 39.4"
- Capacity:** Designed for 2-4 chickens
- Material:** Fir wood, Galvanized wire mesh
- Features:** Elevated 2-tier design, 3-compartment nesting box, slide-out tray, reinforced L-shaped frame, expandable run connection, non-slip ramp, 2 roost bars.
- Intended Use:** Outdoor poultry housing
