VINGLI RIV001

VINGLI Solid Wood Adirondack Chair Instruction Manual

Model: RIV001

INTRODUCTION

Thank you for choosing the VINGLI Solid Wood Adirondack Chair. This manual provides essential information for the proper setup, operation, maintenance, and care of your new outdoor furniture. Please read these instructions carefully before use to ensure safety and longevity of the product.

The VINGLI Adirondack Chair is crafted from high-quality solid wood, designed for durability and comfort in outdoor environments. Its unique design features wide armrests and a contoured seat for superior relaxation. The wood undergoes a special treatment and carbonized finish to enhance its weather resistance and aesthetic appeal.

SETUP AND PLACEMENT

Your VINGLI Solid Wood Adirondack Chair is designed for minimal assembly, often arriving ready for immediate use. Please follow these guidelines for initial setup and placement:

- Unpacking:** Carefully remove all packaging materials. Inspect the chair for any signs of damage during transit. If any damage is found, please contact customer support immediately.
- Component Check:** Verify that all included hardware (if any minor assembly is required) is present. The chair typically includes all necessary hardware for its structure.
- Placement:** Choose a flat, stable surface for your chair to prevent wobbling and ensure safety. Ideal locations include patios, decks, gardens, or lawns. Ensure adequate space around the chair for comfortable use and movement.
- Initial Cleaning:** Before first use, wipe down the chair with a soft, damp cloth to remove any dust or residue from manufacturing and packaging.

OPERATING INSTRUCTIONS

The VINGLI Solid Wood Adirondack Chair is designed for comfortable outdoor seating. Its operation is straightforward:

1. **Seating:** Approach the chair from the front. Gently lower yourself onto the contoured seat, ensuring your weight is evenly distributed.
2. **Armrests:** Utilize the wide, rounded armrests for support and comfort.
3. **Back Support:** Lean back against the high backrest for optimal relaxation. The ergonomic design provides ample support.
4. **Weight Capacity:** The chair is designed to support a maximum weight of 600 pounds. Do not exceed this limit to prevent damage to the chair and potential injury.
5. **Movement:** When moving the chair, lift it by the frame rather than dragging it to prevent damage to the legs or joints.

CARE AND MAINTENANCE

Proper care and maintenance will extend the life and preserve the appearance of your VINGLI Solid Wood Adirondack Chair. While the wood is specially treated for weather resistance, regular attention is recommended.

- **Regular Cleaning:** Clean the chair periodically with a soft cloth and mild soap solution. Rinse thoroughly with clean water and dry immediately to prevent water spots or moisture absorption. Avoid harsh chemicals or abrasive cleaners.
- **Protection from Elements:** Although designed for outdoor use, prolonged exposure to extreme weather conditions (heavy rain, snow, intense sun) can affect the wood. Consider using a protective cover or storing the chair indoors during off-seasons or severe weather.
- **Wood Treatment:** Periodically inspect the wood finish. Depending on exposure, you may wish to reapply a suitable outdoor wood sealant or oil every 1-2 years to maintain its protective layer and color. Follow the instructions of the wood treatment product.

- **Hardware Check:** Regularly check all bolts and screws to ensure they are tight. Tighten any loose hardware to maintain stability and safety.
- **Avoid Standing Water:** Ensure water does not pool on the chair's surfaces, especially in joints or crevices, as this can lead to wood degradation.

TROUBLESHOOTING

Here are some common issues you might encounter with your wooden Adirondack chair and their potential solutions:

- **Wobbling Chair:**
Cause: Uneven ground or loose hardware.
Solution: Move the chair to a flat surface. Check and tighten all bolts and screws. If the ground is uneven, use shims under the legs to stabilize.
- **Fading Wood Finish:**
Cause: Prolonged exposure to direct sunlight.
Solution: Apply an outdoor wood stain or sealant with UV protection. Consider placing the chair in a shaded area or using a protective cover when not in use.
- **Splintering Wood:**
Cause: Natural wear and tear, or lack of proper sealing.
Solution: Lightly sand the affected area with fine-grit sandpaper. Clean the area and apply a wood sealant or varnish to protect the surface.
- **Mold or Mildew Growth:**
Cause: High humidity and lack of air circulation.
Solution: Clean the affected area with a solution of mild soap and water, or a specialized outdoor furniture cleaner. Ensure the chair dries completely. Improve air circulation around the chair and consider covering it during damp periods.
- **Squeaking Noises:**
Cause: Loose joints or friction between wood parts.
Solution: Tighten all hardware. If squeaking persists, apply a small amount of silicone lubricant or wax to the joints where wood meets wood.

PRODUCT SPECIFICATIONS

Feature	Detail
Brand	VINGLI
Model Name	AdirondackChairs
Model Number	RIV001
Color	Light Carbonized
Material	Wood (Fir Wood)
Product Dimensions (D x W x H)	35"D x 26"W x 42"H
