

## JBL EasySing Mic Mini

# JBL EasySing Mic Mini Instruction Manual

Model: EasySing Mic Mini (JBLESMICMINIAM)

## 1. INTRODUCTION

The JBL EasySing Mic Mini is a compact, AI-powered microphone designed for clear vocal performance and real-time vocal removal. This device is ideal for karaoke, live streaming, and recording sessions, offering portability and versatile connectivity options.

It features AI Vocal Removal to reduce original song vocals, high-pitch boost, and natural reverb. The microphone connects via Bluetooth, USB-C, or Aux, and is compatible with various JBL portable speakers, PartyBox models, and other audio devices.

## 2. WHAT'S IN THE BOX

Verify that all items are present in the packaging:

- 1 x EasySing Mic Mini
- 1 x AI Dongle
- 1 x Carrying Case
- 1 x Quick Start Guide (QSG)
- 1 x Safety Sheet

### **3. SETUP**

#### **3.1. Charging the Device**

The EasySing Mic Mini and its wireless AI dongle charge together within the compact carrying case. Use a USB-C charging cable (not included) to charge the case. The mic and dongle automatically power on when removed from the case and power off when placed back inside.

### 3.2. Connecting to Audio Devices

The EasySing Mic Mini offers multiple connection options:

- **Bluetooth:** Pair the AI dongle with your smartphone or laptop. The dongle then wirelessly connects to the microphone.
- **USB-C:** Plug the AI dongle directly into a compatible JBL portable speaker, PartyBox, phone, or laptop.
- **Auxiliary (3.5mm Jack):** Connect the AI dongle to speakers or other audio devices using an Aux cable (not included).

**Compatibility Note:** The EasySing Mic Mini is compatible with JBL Boombox 4, JBL Xtreme 5, JBL Charge 6, JBL Flip 7, JBL Grip, JBL Go 5, newer JBL Portable speakers, and all JBL PartyBox models through either USB-C or Aux. It also works with other speakers that support Aux-in or UAC.

### 3.3. JBL One App Setup

For simplified setup and control, download the JBL One app. The app allows you to connect the microphone, adjust vocal removal levels, and check connection status directly from your smartphone.

## 4. OPERATING INSTRUCTIONS

### 4.1. Power On/Off

The microphone and dongle automatically power on when removed from the charging case and power off when returned to the case.

### 4.2. AI Vocal Removal

Activate the AI Vocal Removal feature to reduce or eliminate original vocals from a song. This can be done via a button on the microphone or through the JBL One app. You can typically adjust vocal reduction levels to 25%, 50%, or 100%.

#### 4.3. Voice Boost and Reverb

The microphone includes a voice boost feature to enhance higher notes and natural reverb for a richer vocal sound. These features help your voice stand out clearly.

#### 4.4. Volume Adjustment

Adjust your microphone's volume directly using the rotating knob located on the device.

#### 4.5. Wearing and Holding the Microphone

The EasySing Mic Mini can be used in several ways:

- **Clip-on:** Use the included magnet to attach the microphone to your clothing for hands-free operation.
- **Handheld:** Attach the provided ring handle to the microphone for a steady grip during performances or recordings. The handle attaches magnetically.

## 5. MAINTENANCE

To ensure the longevity and optimal performance of your JBL EasySing Mic Mini:

- **Cleaning:** Use a soft, dry cloth to clean the microphone and dongle. Avoid abrasive cleaners or solvents. A cleaning cloth is included in the package.

- **Storage:** Always store the microphone and dongle in their compact carrying case when not in use to protect them from dust and damage.
- **Battery Care:** For best battery life, avoid fully discharging the device frequently. Charge regularly.

## 6. TROUBLESHOOTING

If you encounter issues with your JBL EasySing Mic Mini, refer to the following common solutions:

- **No Sound/Poor Audio Quality:**
  - Ensure the microphone and dongle are fully charged.
  - Verify that the dongle is securely connected to your audio device (Bluetooth, USB-C, or Aux).
  - Check the volume levels on both the microphone and the connected audio device.
  - Confirm compatibility with your speaker or device. Some older JBL speakers may require a firmware update via the JBL One app.
- **AI Vocal Removal Not Working:**
  - Ensure the feature is activated via the microphone button or the JBL One app.
  - Note that vocal removal effectiveness can vary depending on the original song's mix.
- **Dongle Not Fitting USB-C Port:**
  - Some phone cases may obstruct the dongle's connection. Remove the case if necessary.
- **Connectivity Issues:**
  - Ensure the microphone and dongle are within range of each other and the connected device.
  - Avoid interference from other 2.4GHz wireless devices.
