GarveeLife 20x25FT Metal Carport Instruction Manual

Model: uguBA8FD_CGGupy38116cw0aez991

1. SAFETY INFORMATION

Please read and understand all safety instructions before assembly and use of the GarveeLife 20x25FT Metal Carport. Failure to follow these instructions may result in injury or damage to the product.

- Always secure the carport to the ground using the provided heavy-duty ground anchors, especially in high wind conditions.
- Use appropriate safety measures during assembly, such as wearing safety glasses and using a stable ladder.
- Ensure the assembly area is clear of obstructions and hazards.
- Do not attempt to assemble the carport alone. A minimum of three individuals is recommended for safe installation.
- Regularly inspect the carport for any signs of wear, damage, or loose connections, especially after severe weather.

2. SETUP AND ASSEMBLY

The GarveeLife 20x25FT Metal Carport is designed for straightforward assembly. It ships with clearly numbered parts and a detailed instruction manual. We recommend preparing a drill and ladder before beginning installation.

2.1. Package Contents

Verify all components are present before starting assembly:

- Industrial-grade steel frame components
- Galvanized steel roof panels
- Removable PE sidewalls
- Heavy-duty ground anchors
- LED Light (Lamp)
- Gloves (1 pair)

- Hooks (4 pieces)
- Apron (10 pieces)
- Fasteners and connectors
- Waterproof sealant tape

Image: Product details illustrating the carport's dimensions and a visual list of included accessories such as gloves, an LED lamp, hooks, and apron pieces.

2.2. Recommended Tools and Personnel

- Electric Drills
- Ladders
- Minimum of 3 individuals for assembly

Image: Visual guide for installation, highlighting the need for electric drills, ladders, and three people. It also shows steps like assembling top and bottom frames, driving in screws, attaching with tape, and hanging the LED light and hooks.

2.3. Assembly Steps (General Overview)

1. **Prepare the Site:** Choose a level area for installation. The carport is suitable for dirt, concrete, and sand surfaces.
2. **Assemble the Frame:** Begin by constructing the top and bottom frame sections according to the detailed manual provided in the box. The frame is constructed from high-strength iron pipes with reinforced support rods.
3. **Install Roof Panels:** Attach the galvanized steel roof panels. Ensure proper alignment and use the provided

waterproof sealant tape at roof seams to prevent water seepage.

4. **Secure the Structure:** Drive in screws to secure all connections. Utilize the heavy-duty ground anchors to firmly secure the carport to the ground. This enhances stability and durability.
5. **Attach Sidewalls:** Install the removable PE sidewalls as desired.
6. **Install LED Light and Hooks:** Hang the provided LED light and hooks in desired locations within the carport.

3. OPERATING AND USAGE

The GarveeLife 20x25FT Metal Carport provides a spacious and versatile shelter for various applications.

3.1. Intended Use

This carport offers ample room for:

- Protecting full-sized pickup trucks, SUVs, and boats.
- Serving as an outdoor canopy for events such as parties, weddings, and trade shows.
- Providing general shade and weather protection for outdoor equipment or gatherings.

Image: Examples of the carport's wide range of uses, including vehicle storage for boats and cars, an outdoor event space, and shelter for agricultural machinery.

3.2. LED Light Operation

The included solar-powered LED light features multiple operating modes:

- **Mode 1:** Motion-activated highlight (full brightness when motion is detected, then off).
- **Mode 2:** Motion-activated highlight (full brightness when motion is detected, then dim light).
- **Mode 3:** Constant dim light, with motion-activated highlight.

Refer to the separate LED light manual for detailed instructions on mode selection and installation.

Image: Detailed view of the solar-powered LED lamp, illustrating its design, multiple installation options, and three distinct operational modes for motion detection and lighting.

4. MAINTENANCE

Proper maintenance ensures the longevity and performance of your GarveeLife Metal Carport.

- **Regular Inspection:** Periodically check all frame connections, bolts, and ground anchors for tightness. Tighten any loose fasteners.
- **Roof and Sidewall Condition:** Inspect the galvanized steel roof panels and PE sidewalls for any damage, tears, or signs of wear. Ensure the waterproof sealant tape at roof seams remains intact. Reapply sealant if necessary.
- **Cleaning:** Clean the roof and sidewalls with mild soap and water as needed to remove dirt, debris, or mildew. Avoid abrasive cleaners or tools that could damage the surfaces.
- **Snow Removal:** While the carport is engineered to withstand up to 160 lbs/sq ft snow load, it is advisable to remove heavy snow accumulation to prevent excessive stress on the structure, especially during prolonged heavy snowfall. The design can handle 5-8 inches of snow depth.
- **Wind Conditions:** Ensure the carport is always securely anchored, particularly in areas prone to high winds. The structure is designed to withstand up to 140 mph winds when properly installed.

Image: The carport demonstrating its resilience in diverse weather conditions, including sunny, rainy, snowy, and windy environments, highlighting its all-weather protection capabilities.

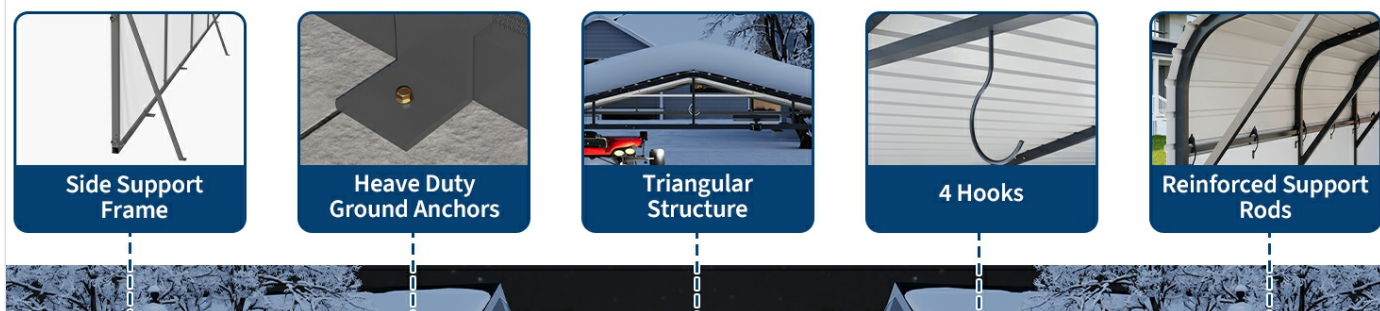

Image: Key performance metrics of the carport, including its capacity to handle 5-8 inches of snow depth, withstand 140 mph winds, and support a maximum load of 160 PSI. Material details like 19 Ga. Steel Frame, 220g Tarp, and 26 Ga. Metal Sheet are also shown.

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your GarveeLife Metal Carport.

Problem	Possible Cause	Solution
Carport feels unstable or sways.	Loose frame connections or inadequate anchoring.	Ensure all bolts and screws are tightened. Verify ground anchors are properly installed and secured into suitable ground. Add additional anchoring if necessary for your specific weather conditions.
Water leakage from the roof.	Improperly sealed roof seams or damaged roof panels.	Inspect roof panel overlaps and the waterproof sealant tape. Reapply or replace sealant tape as needed. Check for any punctures or damage to the galvanized steel panels and repair or replace if necessary.
Difficulty aligning frame components during assembly.	Parts may be misaligned or not fully seated.	Double-check the instruction manual for correct orientation of parts. Loosen adjacent connections slightly to allow for adjustment, then retighten once aligned. Do not force parts together.
LED light not functioning.	Insufficient solar charging, switch off, or faulty unit.	Ensure the solar panel receives direct sunlight for several hours. Check the power switch on the LED unit. Refer to the separate LED light manual for specific troubleshooting steps.

6. SPECIFICATIONS

Feature	Detail
Brand	GarveeLife
Model Number	uguBA8FD_CGGupy38116cw0aez991

Feature	Detail
Size	20x25FT
Item Dimensions (L x W x H)	276"L x 287"W x 110"H
Floor Area	500 square feet
Material	Alloy Steel (Frame), Galvanized Steel (Roof), PE (Sidewalls)
Color	Grey+White
Item Weight	700 pounds
Water Resistance Level	Water Resistant
Wind Resistance	Up to 140 mph (when properly anchored)
Snow Load Capacity	Up to 160 lbs/sq ft
Recommended Uses	Emergency Shelter, Vehicle Storage (cars, boats, trucks), Outdoor Canopy (parties, events)
UPC	824126028492

7. WARRANTY INFORMATION

Specific warranty details for the GarveeLife 20x25FT Metal Carport are not provided in this manual. Please refer to the product packaging, purchase documentation, or contact GarveeLife customer support for comprehensive warranty information.

8. CUSTOMER SUPPORT

Should you have any questions, require assistance with assembly, or need to report missing/damaged parts, please contact GarveeLife customer support.

Our customer support team is ready to help with any questions you may have regarding your carport.

Please have your model number (**uguBA8FD_CGGupy38116cw0aez991**) and purchase details ready when contacting support.

For contact information, please visit the official GarveeLife store or refer to the contact details provided with your product packaging.

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page’s manual context to help answer it.
