## 5. MAINTENANCE

Proper care will extend the life and appearance of your GarveeHome sofa.

- **Cushion Care:** Upon arrival, compressed cushions need 3-5 days to fully fluff. Patting them regularly can help speed up recovery.
- **Fabric Cleaning:** The sofa is upholstered in high-quality, anti-pilling chenille fabric with a light scratch-resistant coating. Removable cushion covers can be unzipped and machine-washed in a cold, gentle cycle. Avoid frequent washing to maintain fabric integrity. The fabric is pre-shrunk to prevent deformation.

## 6. TROUBLESHOOTING

This section addresses common concerns you might encounter.

- **Cushions appear flat:** This is normal due to compression during shipping. Allow 3-5 days for cushions to fully expand. Gently patting them can assist in the fluffing process.
- **Parts damaged during assembly:** If any parts are accidentally damaged during assembly, please contact our after-sales support for free replacements.
- **Sofa feels unstable:** Ensure all bolts and connections are securely tightened as per the assembly instructions. Re-check all connections if instability persists.
