› ICEVOKE 4-in-1 Self-Cleaning Water Dispenser with Ice Maker (Model LYCZ628B-0224) - Instruction Manual

## ICEVOKE LYCZ628B-0224

# ICEVOKE 4-in-1 Self-Cleaning Water Dispenser with Ice Maker

MODEL: LYCZ628B-0224 - INSTRUCTION MANUAL

## Product Overview

---

The ICEVOKE 4-in-1 Water Dispenser with built-in ice maker provides hot, cold, and room-temperature water, along with ice cubes. Designed for convenience and efficiency, it features a bottom-loading design, self-cleaning function, and child safety lock for hot water.

This appliance is ETL, FCC, and UL Certified, ensuring safety and quality. All materials in contact with water are food-grade.

## Setup Instructions

- Unpacking:** Carefully remove the dispenser from its packaging. Place it on a flat, stable surface away from direct sunlight and heat sources.
- Positioning:** Ensure there is adequate space around the unit for ventilation.
- Initial Rest Period:** Allow the dispenser to stand upright for at least 24 hours before plugging it in. This allows the compressor fluids to settle.
- Water Bottle Installation (Bottom Loading):**
  - Open the bottom compartment door.
  - Place a standard 3 or 5-gallon water bottle into the compartment.
  - Insert the water probe into the bottle opening, ensuring a secure fit.
  - Close the compartment door.

5. **Power Connection:** Plug the power cord into a grounded electrical outlet.
6. **Initial Water Flow:** Before using, dispense water from all spouts (hot, cold, room temperature) until water flows smoothly to remove any air from the lines.

## Operating Instructions

---

### Control Panel Overview

The dispenser features an easy-to-use touch screen control panel for all functions.

# Easy-to-Use Control Panel

Touch Screen Operation

Child-safety Lock

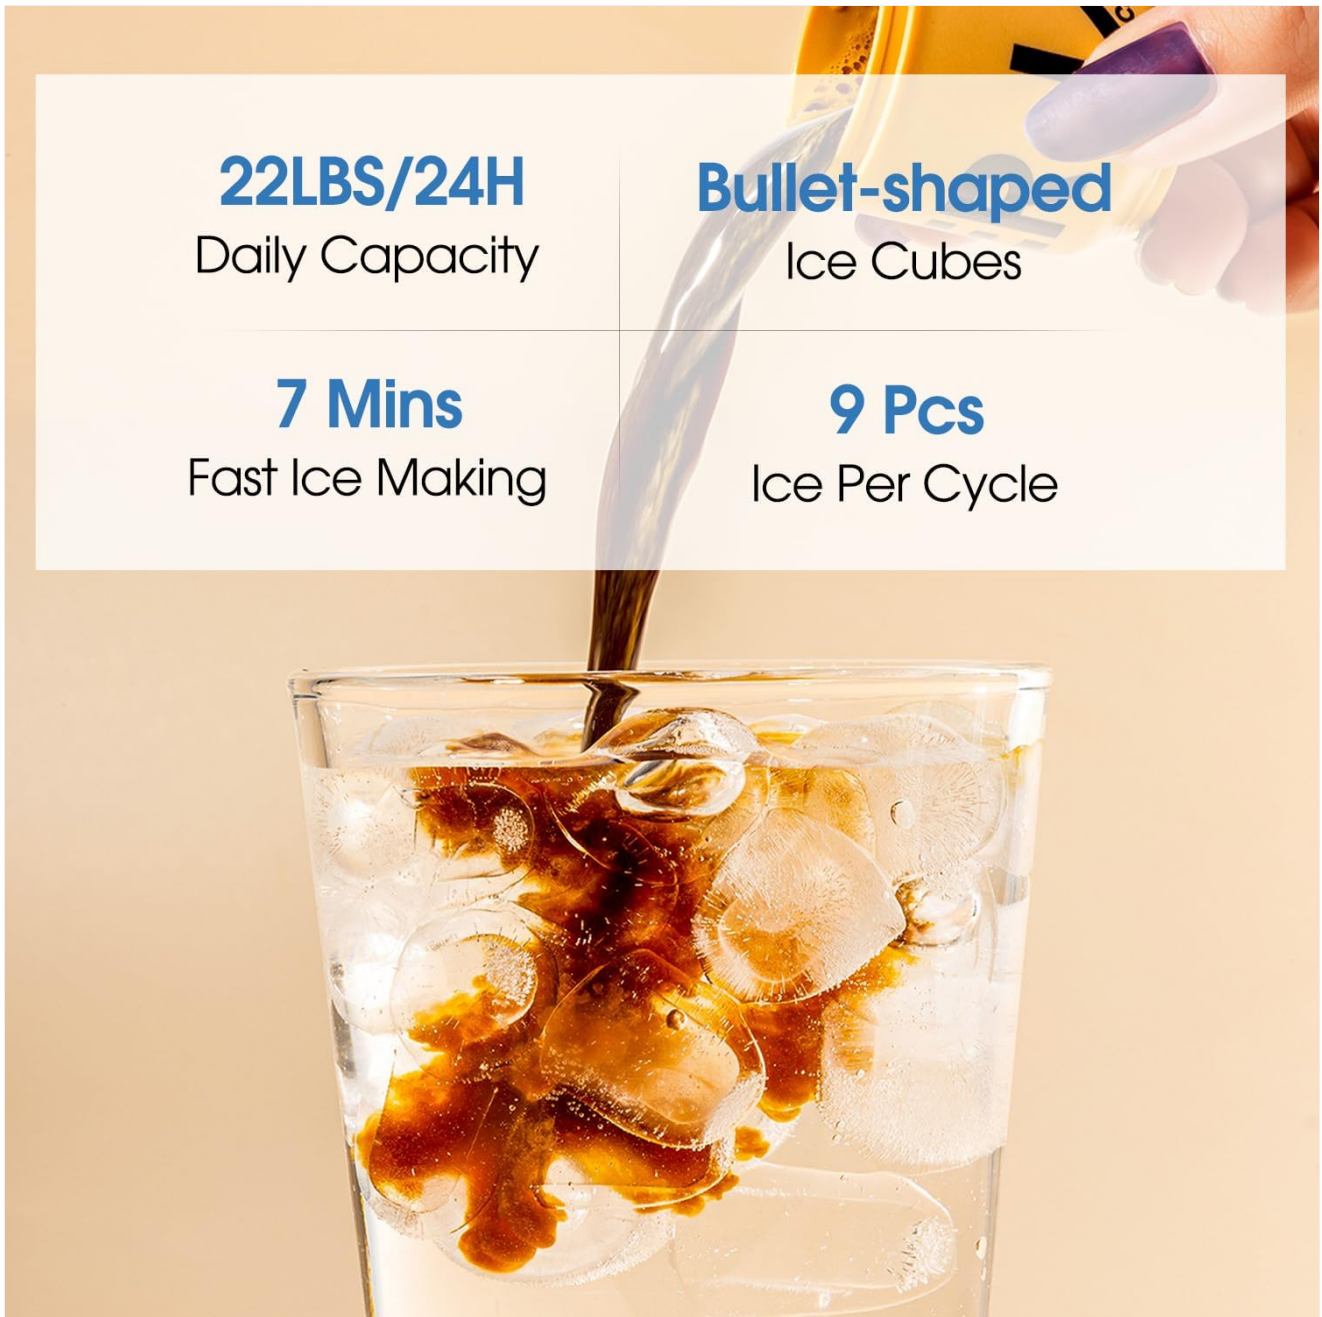

*Image: Close-up of the control panel, showing touch screen buttons for various functions including ECO mode, child lock, hot water, fresh water, cold water, and on/off.*

## Dispensing Water

- **Cold Water:** Place your cup under the cold water spout and press the 'Cold Water' button. Press again to stop.
- **Hot Water:** For safety, the hot water function has a child safety lock. Press and hold the 'Child Lock' button, then press the 'Hot Water' button to dispense. Press again to stop.
- **Room-Temperature Water:** Place your cup under the room-temperature water spout and press the 'Fresh Water' button. Press again to stop.

## Ice Making and Dispensing

- The built-in ice maker can produce 9 bullet-shaped ice cubes in 7-15 minutes, with a daily capacity of 22 lbs.
- To activate ice making, press the 'Making Ice' button on the control panel. The machine will automatically stop when the ice basket is full.
- To dispense ice, place your cup under the ice dispenser and press the lever or button (depending on model variation) to release ice.

*Video: Shows the internal ice making process and how to scoop ice from the dispenser.*

### **Special Features**

- **ECO Mode:** Activate ECO mode for energy saving. The machine will stop heating water at night to reduce unnecessary consumption.
- **Nightlight:** The integrated nightlight illuminates the operating area and water outlet, providing visibility in dark environments and preventing spills.

## Maintenance

- **Self-Cleaning (UV-Infused):** The dispenser features UV-infused cleaning technology to reduce harmful contaminants in water and tanks, improve water taste, and minimize maintenance. Follow the instructions on the control panel to activate the self-cleaning cycle.
- **Water Shortage Reminder:** The water shortage indicator light will prompt you to replace the water bucket in a timely manner, which helps extend the service life of the water pump.
- **Drip Tray:** Regularly empty and clean the drip tray to prevent overflow and maintain hygiene.

# UV-Infused Cleaning

 Echnology

-  Reduce harmful contaminants in water and tanks.
-  Improves taste of water.
-  Minimizes maintenance.

## Troubleshooting

- **No Water Dispensing:** Check if the water bottle is correctly installed and not empty. Ensure the unit is plugged in and powered on.
- **No Ice Production:** Verify that the ice making function is activated and there is sufficient water in the reservoir. Allow adequate time for the first batch of ice to form.
- **Water Leaks:** Ensure the water bottle and probe are correctly seated. Check for any visible cracks or damage to the water lines.
- **Unusual Noise:** Some operational noise from the compressor is normal. If the noise is excessive or unusual, ensure the unit is level and not touching any walls or furniture.

## Specifications

Feature	Detail
Brand	ICEVOKE
Model Number	LYCZ628B-0224
Color	Black
Material	Acrylonitrile Butadiene Styrene (ABS), Stainless Steel
Capacity	5 Gallons (water bottle)
Product Dimensions	16.54"D x 12.2"W x 40.75"H
Style	Modern
Installation Type	Freestanding
Access Location	Bottom
Power Source	Corded Electric
Item Weight	37.5 pounds
Ice Making Capacity	22 lbs/Day (9 ice cubes in 7-15 minutes)
Certifications	ETL, FCC, UL
