BUBLUE Bubot 800P Gen2

BUBLUE Bubot 800P Gen2 Robotic Pool Cleaner User Manual

Model: Bubot 800P Gen2

1. INTRODUCTION

The BUBLUE Bubot 800P Gen2 is an advanced robotic pool cleaner designed for efficient and comprehensive cleaning of inground pools. It features smart navigation, app control, and multiple cleaning modes to ensure a spotless pool floor, walls, and waterline. This manual provides essential information for the safe and effective use, maintenance, and troubleshooting of your device.

2. SAFETY INFORMATION

Before operating the BUBLUE Bubot 800P Gen2, please read and understand all safety instructions. Failure to follow these instructions may result in electric shock, fire, or serious injury. Keep the power supply unit away from the pool edge to prevent it from falling into the water. Ensure the cleaner is fully submerged before starting operation. Always disconnect the power supply before performing any maintenance or cleaning tasks.

Figure 2.1: Smarter, Safer Start-Up & Lift-Out. The Bubot 800P Gen2 ensures safe operation by blocking start-up outside the pool and stopping instantly when removed from water, preventing splashing.

3. PACKAGE CONTENTS

Verify that all items are present in the package:

- 1 x Robotic Pool Cleaner (Bubot 800P Gen2)
- 1 x Power Box
- 1 x User Manual
- 1 x Carabiner
- 1 x Rope
- 1 x Float Block

Figure 3.1: All in One - Package Contents. This image displays the complete set of items included with your Bubot 800P Gen2 robotic pool cleaner.

4. PRODUCT OVERVIEW

The Bubot 800P Gen2 is equipped with a 150 Watt Three-Axis Motor, dual suction ports, 4 roller brushes, and durable tank-style tracks. It features Bluesonic Path Navigation for intelligent mapping and obstacle detection. The unit is corded, ensuring continuous operation without battery limitations, and includes TangleEase Technology to prevent wire tangling.

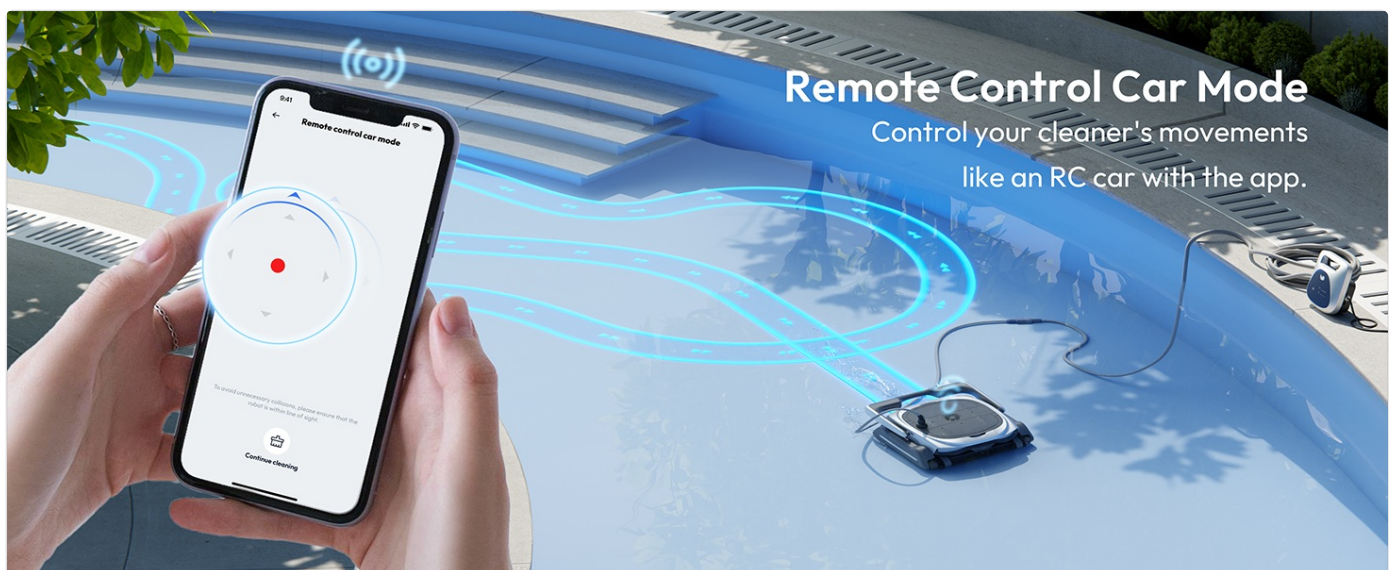

Figure 4.1: Product Dimensions. The cleaner measures 19.6"L x 18.3"W x 9"H and comes with a 49.21 ft power cord.

Figure 4.2: Control Panel. The power box features a 3-color LED indicator (Blue: Normal Operation, Yellow: Parking Near Wall, Red: Fault) and buttons for Power, Mode Selection, and Time Selection.

5. SETUP

1. **Positioning the Cleaner:** Place the Bubot 800P Gen2 in an optimal position within your pool to ensure full coverage. Ensure the power cord is untangled and has sufficient slack.
2. **Connecting Power:** Connect the cleaner to the power box, and then plug the power box into a grounded electrical outlet. The cleaner is designed for continuous operation via its corded power source.
3. **App Connection:** Download the BUBLUE app from your device's app store. Connect the cleaner to your smartphone via Bluetooth or WiFi (supports 5G/2.4G WiFi). Follow the in-app instructions for initial pairing and setup.

Figure 5.1: Continuous Cleaning. The Bubot 800P Gen2 operates continuously via its power cord, eliminating the need for charging.

Figure 5.2: TangleEase Technology. The upgraded cable design allows 360° rotation, minimizing tangles and improving robot movement efficiency.

6. OPERATING INSTRUCTIONS

6.1 Cleaning Modes

The Bubot 800P Gen2 offers three distinct cleaning modes:

- **Auto Mode:** The cleaner intelligently maps and cleans the entire pool, including floor, walls, and waterline.
- **Floor Only Mode:** Focuses cleaning solely on the pool floor.
- **Wall Only Mode:** Concentrates on cleaning the pool walls and waterline.

Figure 6.1: 4-in-1 Robotic Pool Cleaner. The Bubot 800P Gen2 offers comprehensive cleaning for floor, wall, waterline, and shallow areas with its three cleaning modes.

6.2 App Control

The BUBLUE app provides comprehensive control over your cleaner:

- **Select Cleaning Mode:** Choose between Auto, Floor Only, or Wall Only modes.
- **Adjust Cleaning Cycle Length:** Customize the duration of the cleaning cycle.
- **Customize Path Width:** Adjust the cleaning path for optimal coverage.

- **Remote Control Car Mode:** Manually steer the cleaner for precise spot cleaning.
- **Schedule Cleanings:** Set up recurring cleaning appointments.
- **Return to Waterline:** A one-touch feature for easy retrieval.

Easy Maintenance

Simply remove the filter basket and rinse the mesh thoroughly with clean water to clear away debris.

Figure 6.2: Effortless Control with the App. The app allows you to create a customized cleaning plan and control various settings.

Smart Depth Sensor for Smooth Navigation

Senses water depth in real time and redirects the cleaner away from shallow zones and steps for uninterrupted cleaning.

Figure 6.3: Remote Control Car Mode. Control your cleaner's movements like an RC car directly from the app for precise spot cleaning.

Figure 6.4: Schedule Your Cleaning. Easily book cleaning appointments and set repeat frequencies with the app.

6.3 Smart Navigation and Sensors

The Bubot 800P Gen2 utilizes Bluesonic Path Navigation for intelligent pool mapping, obstacle detection, and auto-adjustment of its path for efficient cleaning. Advanced water-depth and ultrasonic sensors ensure smooth operation in shallow areas and around obstacles.

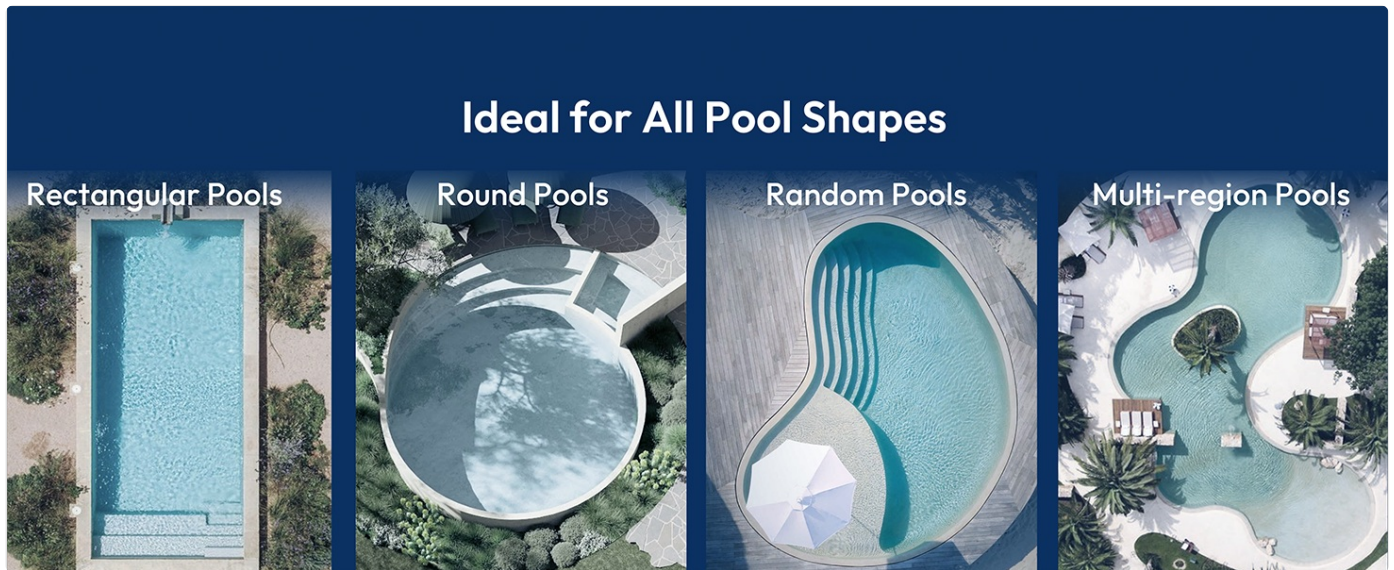

Figure 6.5: Bluesonic Path Technology. AI-powered path planning ensures maximum coverage with S-Shape and N-Shaped paths, and width adjustment.

Figure 6.6: Smart Depth Sensor. Senses water depth in real-time and redirects the cleaner away from shallow zones and steps for uninterrupted cleaning.

Figure 6.7: Upgraded Ultrasonic Detection. Detects walls ahead and prepares for climbing early, improving climbing performance and reducing abrupt stops.

6.4 Retrieval

To retrieve the cleaner, use the one-touch "Return to Waterline" feature in the app. The cleaner will rise to the surface for easy removal.

Figure 6.8: Smart Retrieval. Simply tap "Return to Waterline" in the app, and the cleaner will rise for easy retrieval.

6.5 Operational Videos

Video 6.1: Robotic Pool Cleaner in Action. This video demonstrates the Bubot 800P Gen2 operating in a pool, showcasing its movement and cleaning capabilities.

Video 6.2: Robotic Pool Cleaner at Work. A short video clip showing the Bubot 800P Gen2 actively cleaning a pool surface.

7. MAINTENANCE

7.1 Filter Basket Cleaning

The Bubot 800P Gen2 features dual 3L filter baskets with an ultra-fine filtration system, designed to capture debris as fine as sand, hair, leaves, and twigs. Regular cleaning of these filter baskets is crucial for maintaining optimal performance.

1. Disconnect the power supply from the cleaner before attempting to access the filter baskets.
2. Remove the filter baskets from the cleaner.
3. Empty any collected debris.
4. Rinse the mesh thoroughly with clean water to clear away fine debris.
5. Ensure the filter baskets are completely dry before reinserting them into the cleaner.

Figure 7.1: Dual Filter Baskets with Ultra-Fine Filtration. These baskets effectively capture fine debris.

Figure 7.2: Easy Maintenance. Simply remove the filter basket and rinse the mesh thoroughly with clean water to clear away debris.

8. TROUBLESHOOTING

If you encounter issues with your Bubot 800P Gen2, consider the following general troubleshooting steps:

- **Cleaner not moving or stuck:** Check for any obstructions in the brushes or tracks. Ensure the power cord is securely connected and not tangled.
- **Poor cleaning performance:** Clean the filter baskets thoroughly. Ensure the cleaner is operating in the correct mode for your pool's needs (e.g., Auto Mode for full coverage).
- **App connectivity issues:** Ensure Bluetooth and/or WiFi are enabled on your device and the cleaner. Try restarting both the app and the cleaner.
- **Cleaner not returning to waterline:** Verify that the "Return to Waterline" command is properly initiated in the app and that there are no physical obstructions.

For more detailed troubleshooting or persistent issues, please refer to the comprehensive troubleshooting guide available on the BUBBLUE support website or contact customer support.

9. SPECIFICATIONS

Feature	Specification
Brand	BUBBLUE
Model Name	Bubot 800P Gen2
Material	Plastic
Color	Silver
Product Dimensions (L x W x H)	19.6" x 18.3" x 9"
Power Source	AC (Corded)
Voltage	28 Volts
Debris Capacity	6 Liters (2 x 3L filter baskets)
Filtration	Ultra-fine (180µm)
Control Method	App (Bluetooth/WiFi)
Special Features	Cleans Floor/Wall/Waterline/Shallow Area, TangleEase Technology, Smart Waterline Parking, Smart Navigation
Installation Type	Robotic
Required Assembly	No

10. WARRANTY AND SUPPORT

10.1 Warranty Information

The BUBBLUE Bubot 800P Gen2 Robotic Pool Cleaner is backed by a **2-year manufacturer's warranty**. This warranty covers defects in materials and workmanship under normal use. Please retain your proof of purchase for warranty claims.

Figure 10.1: Built for Durability. Each unit is rigorously tested for sealing and mobility, and comes with 2-Year After-Sales Support.

10.2 Customer Support

For technical assistance, warranty claims, or any questions regarding your BUBLUE Bubot 800P Gen2, please contact BUBLUE customer support. Contact information can typically be found on the official BUBLUE website or in the product packaging.
