5. Maintenance and Care

The sofa is upholstered in high-quality, ribbed corduroy fabric, known for its skin-friendly, soft, and breathable properties. This thickened fabric is resistant to wear and pilling.

- **Regular Cleaning:** Vacuum regularly using an upholstery attachment to remove dust and debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub. For stubborn stains, use a mild fabric cleaner specifically designed for corduroy, testing on an inconspicuous area first.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fabric fading.
- **Protect from Pets:** While the fabric is resistant to wear, sharp claws can still cause damage.

6. Troubleshooting

If you encounter any issues with your sofa bed, please refer to the following common solutions:

- **Sofa feels unstable:** Ensure all legs are securely tightened and that the sofa sections are properly connected. Verify the sofa is on a level surface.
- **Pull-out bed mechanism is stiff:** Check for any obstructions. Ensure the mechanism is clean and free of debris. Apply a silicone-based lubricant if necessary, avoiding contact with fabric.
- **Storage compartment not closing properly:** Ensure no items are obstructing the closing mechanism and that the lid is aligned correctly.
- **Cushions feel too firm/soft:** High-density foam cushions provide firm, ergonomic support. Cushion firmness can adjust slightly with use.
- **Missing or damaged parts:** If you received a product with missing or damaged components, please contact customer support immediately.
